Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

1. AUTHORITY, OPERATIONS AND REPORTING ENTITY

(a) Authority and reporting entity

The Government of the Northwest Territories (the Government) operates under the authority of the *Northwest Territories Act* (Canada). The Government has an elected Legislative Assembly which authorizes all disbursements, advances, loans and investments unless specifically authorized by statute.

The Government prepares consolidated financial statements. They are presented in Section I of the Public Accounts and provide an accounting of the full nature and extent of the financial affairs and resources for which the Government is responsible. The reporting entity is defined in those statements. These financial statements have been prepared on a non-consolidated basis to show the operating results of the Government separate from the entities included in the consolidated financial statements.

These financial statements include the assets, liabilities and operating results of the Government and its revolving funds. Revolving funds are established by the Government to provide the required working capital to deliver goods and services to the general public and to Government departments.

The following related Territorial Crown Corporations, boards and agencies are included in these statements only to the extent of the Government's contributions to, or revenues from, them:

Arctic Energy Alliance Aurora College Divisional Educational Councils and District Education Authorities Hospitals and Regional Health Boards Inuvialuit Water Board Northwest Territories Business Development and Investment Corporation Northwest Territories Heritage Fund Northwest Territories Housing Corporation Northwest Territories Human Rights Commission Northwest Territories Hydro Corporation Northwest Territories Sport and Recreation Council Northwest Territories Surface Rights Board Status of Women Council of the Northwest Territories Tlicho Communities Services Agency

(b) Main estimates

The main estimates are the appropriations approved by the Legislative Assembly. They represent the Government's original fiscal plan for the year and do not reflect Supplementary Appropriations.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements are prepared in accordance with Canadian public sector accounting standards as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

(a) Measurement uncertainty

The preparation of financial statements in accordance with Canadian public sector accounting standards requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these statements, the Government believes the estimates and assumptions to be reasonable.

The more significant management estimates relate to environmental liabilities, contingencies, revenue accruals, allowance for doubtful accounts for accounts receivable, valuation allowances for loans receivable, and amortization expense. Other estimates, such as the Canada Health Transfer, Canada Social Transfer payments, Corporate and Personal Income Tax revenues are based on estimates made by the Government of Canada's Department of Finance and are subject to adjustments in future years.

(b) Cash

Cash is comprised of bank account balances, net of outstanding cheques and short-term highly liquid investments that are readily convertible to cash with a maturity date of 90 days or less from the date of acquisition.

(c) **Portfolio investments**

Portfolio investments are long-term investments in organizations that do not form part of the government reporting entity and are accounted for by the cost or amortized cost method. Such investments are normally in shares and bonds of the investee. When there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment is written down to recognize the loss and it is included as a component of investment income. Interest income is recorded on the accrual basis, dividend income is recognized as it is declared, and capital gains and losses are recognized when realized.

(d) Inventories

Inventories for resale consist mainly of bulk fuels and liquor products. Bulk fuels are valued at the lower of weighted average cost and net realizable value. Liquor products are valued at the lower of cost and net realizable value. Inventories held for use are valued at the lower of cost, determined on a first in, first out basis and net replacement value. Impairments, when recognized, result in write-downs to net realizable value.

(e) Loans receivable

Loans receivable and advances are stated at the lower of cost and net recoverable value. Valuation allowances, determined on an individual basis, are based on past events, current conditions and all circumstances known at the date of the preparation of the financial statements and are adjusted annually to reflect the current circumstances by recording write downs or recoveries, as appropriate. Write downs are recognized when the assets have been deemed unrealizable and or uncollectable. Recoveries are recorded when loans previously written down are subsequently collected. Interest revenue is recorded on an accrual basis. Interest revenue is not accrued when the collectability of either principal or interest is not reasonably assured.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Non-financial assets

Tangible capital and other non-financial assets are accounted for as assets by the Government as they can be used to provide government services in future periods. These assets do not normally provide resources to discharge the liabilities of the Government unless they are sold.

(g) Tangible capital assets and leases

Tangible capital assets are buildings, roads, equipment, etc. whose life extends beyond the fiscal year, original cost exceeds \$50 and are intended to be used on an ongoing basis for delivering programs and services. Individual assets less than \$50 are expensed when purchased. Tangible capital assets are recorded at cost (including qualifying interest expense), or where actual cost is not available, estimated current replacement cost discounted back to the acquisition date. Costs include contracted services, materials and supplies, direct labour, attributable overhead costs, and directly attributable interest. Capitalization of interest ceases when no construction or development is taking place or when a tangible capital asset is ready for use in producing goods or services. Assets, when placed in service are amortized on a straight line basis over their estimated useful life as follows:

| Asset category | Amortization period |
|--------------------------------|---|
| Land | Not amortized |
| Roads and bridges | 75 years or less |
| Airstrips and aprons | 40 years or less |
| Buildings | 40 years or less |
| Ferries | 25 years or less |
| Fences | 20 years or less |
| Signs | 20 years or less |
| Aircrafts | 20 - 40 years |
| Fuel distribution systems | 15 - 40 years |
| Park improvements | 10 - 40 years |
| Water/sewer works | 15 - 25 years |
| Mainframe and software systems | 5 - 10 years |
| Mobile and heavy equipment | 7 - 15 years |
| Major equipment | 5 - 15 years |
| Medical equipment | 5 - 15 years |
| Leasehold improvements | Lesser of useful life or lease term plus renewal option |

The estimate of the useful life of tangible capital assets is reviewed on a regular basis and revised where appropriate on a prospective basis. The remaining unamortized portion of a tangible capital asset may be extended beyond its original estimated useful life when the appropriateness of such a change can be clearly demonstrated.

Write-downs and write-offs of tangible capital assets are recognized whenever significant events and changes in circumstances and use suggest that the asset can no longer contribute to program or service delivery at the level previously anticipated. A write-down is recognized when a reduction in the value of the asset can be objectively measured. A write-off is recognized when the asset is destroyed, stolen, lost, or obsolete to the Government.

Tangible capital assets under construction or development are recorded as work in progress with no amortization until the asset is placed in service. Capital lease agreements are recorded as a liability and a corresponding asset based on the present value of the minimum lease payments, excluding executory costs. The present value is based on the lower of the implicit rate or the Government's borrowing rate at the time the obligation is incurred. Operating leases are charged to expenses. All intangibles, works of art, historical treasures and Commissioner or Territorial lands are not recorded.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Pensions and other employee future benefits and compensated absences

All eligible employees participate in the Public Service Pension Plan administered by the Government of Canada. The Government's contributions are charged as an expense on a current year basis and represent the total pension obligations. The Government is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Pension Plan.

Pension benefits to Members of the Legislative Assembly and judges are reported on an actuarial basis. This is done to determine the current value of future entitlement and uses various estimates. When actual experience varies from estimates, or when actuarial assumptions change, the adjustments are amortized on a straight line basis over the estimated average remaining service lives of the contributors. Recognition of actuarial gains and losses commences in the year following the effective date of the related actuarial valuations. In addition, immediate recognition of a previously unrecognized net actuarial gain or loss may be required upon a plan amendment, curtailment or settlement.

Under the terms and conditions of employment, government employees may earn non-pension benefits for resignation, retirement and removal costs. Eligible employees earn benefits based on years of service to a maximum entitlement based on terms of employment. Eligibility is based on variety of factors including place of hire, date employment commenced, and the reason for termination. Benefit entitlements are paid upon resignation, retirement or death of an employee. The expected cost of providing these benefits is recognized as employees render service. Termination benefits are also recorded when employees are identified for lay-off. Compensated absences include sick, special, parental and maternity leave. Accumulating non-vesting sick and special leave are recognized in the period the employee provides service, whereas parental and maternity leave are event driven and are recognized when the leave commences. An actuarial valuation of the cost of these benefits has been prepared using data provided by management and assumptions based on management's best estimates.

(i) Contractual obligations and contingencies

The nature of the Government's activities requires entry into contracts that are significant in relation to its current financial position or that will materially affect the level of future expenses. Contractual obligations pertain to funding commitments for operating, commercial and residential leases, and capital projects. Contractual obligations are obligations of a government to others that will become liabilities in the future when the terms of those contracts or agreements are met.

The contingencies of the Government are potential liabilities, which may become actual liabilities when one or more future events occur or fail to occur. If the future event is considered likely to occur and is quantifiable, an estimated liability is accrued. If the occurrence of the confirming future event is likely but the amount of the liability cannot be reasonably estimated, the contingency is disclosed. If the occurrence of the confirming future event is not determinable, the contingency is disclosed.

(j) Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars using exchange rates at year-end. Foreign currency transactions are translated into Canadian dollars using the average exchange rate for the day, except for hedged foreign currency transactions which are translated at exchange rates established by the terms of the forward exchange contracts. All exchange gains and losses are included in net income for the year according to the activities to which they relate.

(k) **Projects on behalf of third parties**

The Government undertakes projects for the Government of Canada, the Government of Nunavut and others. Where possible the Government receives accountable advances and any unexpended balances remaining at year-end are recorded as current liabilities. Recoveries are accrued when expenses, as allowed under the project contract, exceed advances.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(l) Grant from the Government of Canada

Under *Federal-Provincial Fiscal Arrangements Act* (Canada), the Grant from the Government of Canada is calculated as the Gross Expenditure Base, offset by eligible revenues, which are based on a three-year moving average, lagged two years, of representative revenue bases at national average tax rates. Population growth rates and growth in provincial/local government spending are variables used to determine the growth in the Gross Expenditure Base. The Grant is calculated once for each fiscal year and is not revised, with all payments flowing to the Government prior to the end of the fiscal year.

(m) Transfer payments

Government transfers are recognized as revenue in the period in which the events giving rise to the transfer occurred, as long as the transfer is authorized, eligibility criteria have been met, stipulations that give rise to a liability have been satisfied and a reasonable estimate of the amount can be made. Transfers received before these criteria are fully met are recorded as deferred revenue. Transfers received for tangible capital assets are recognized when the tangible capital asset is put into service.

(n) Taxes, resource and general revenues

Corporate and Personal Income tax revenue are recognized on an accrual basis, net of any tax concessions. Income tax is calculated net of tax deductions and credits allowed under the *Income Tax Act*. If an expense provides a financial benefit other than a relief of taxes, it is classified as a transfer made through the tax system. If an expense provides tax relief to a taxpayer and relates to revenue, this expense is considered a tax concession and is netted against tax revenues. Taxes, under the *Income Tax Act*, are collected by the Government of Canada on behalf of the Government under a tax collection agreement. The Government of Canada remits Personal Income taxes monthly throughout the year and Corporate Income tax monthly over a six month period beginning in February. Payments are based on Canada's Department of Finance's estimates for the taxation year, which are periodically adjusted until the income tax assessments for that year are final. Income tax estimates, determined by the Government of Canada, combine actual assessments with an estimate that assumes that previous years' income tax allocations will be sustained and are subject to revisions in future years. Differences between current estimates and future actual amounts can be significant. Any such differences are recognized when the actual tax assessments are finalized.

Resource revenues are recognized on an accrual basis and include mineral, quarry, oil and gas, and water revenues as defined in the Northwest Territories Lands and Resources Devolution Agreement. Mineral and quarry revenues are collected under the authority of the *NWT Lands Act*, water revenues are collected under the authority of the *NWT Lands Act*, water revenues are collected under the authority of the *NWT Lands Act*, water revenues are collected under the authority of the *Water Act* and oil and gas revenues are collected under the authority of the *Petroleum Resources Act*. The Government is entitled to 50 percent of the resource revenues collected (which is referred to as the net fiscal benefit), up to a maximum amount based on a percentage of the Gross Expenditure Base under Territorial Formula Financing. The Government of Canada will deduct its share of the resource revenues collected by the Government (the remaining amount) from the Territorial Formula Financing Grant (*note 2(l)*) payable to the Government two years hence. The Government has also committed to sharing up to 25 percent of the net fiscal benefit with Aboriginal governments that are signatories to the Northwest Territories Lands and Resources Devolution Agreement as per the *Northwest Territories Intergovernmental Resource Revenue Sharing Act*.

Fuel, tobacco, payroll and property taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act*, the *Payroll Tax Act*, and the *Property Assessment and Taxation Act*, respectively. Fuel and tobacco tax revenues are recognized on an accrual basis, based on statements received from collectors. Payroll tax is recognized on a calendar year basis and are recognized in the fiscal year in which the billing occurs. Adjustments arising from reassessments are recorded in revenue in the year they are identified. All other revenues are recognized on an accrual basis.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Expenses

Grants and contributions are recognized as long as the grant or contribution is authorized and eligibility criteria have been met. Grants and contributions include transfer payments paid through programs to individuals, and to provide major transfer funding for communities under community government funding arrangements. Payments to individuals include payments for children's benefits, income support or income supplement. Assistance is based on age, family status, income, and employment criteria. Other transfer payments are provided to conduct research, to establish new jobs through support for training and to promote educational, health and cultural activities. Also included are expenses of other consolidated entities and other miscellaneous payments. Under the authority of the *Northwest Territories Intergovernmental Resource Revenue Sharing Act*, a transfer to the Aboriginal parties who are signatories to the Northwest Territories Intergovernmental Resource Revenue Sharing Agreement will be made of 25 percent of the net fiscal benefit from resource revenues that is received by the Government (note 2 (n)). All other expenses are recognized on an accrual basis.

(p) Environmental liabilities

Environmental liabilities are the result of contaminated sites, defined as a site where as a result of contamination being introduced into air, soil, water, or sediment of a chemical, organic, or radioactive material, or live organism that exceeds an environmental standard. A liability for remediation of contaminated sites is recognized when all of the following criteria are satisfied: an environmental standard exists, contamination exceeds the environmental standard, the Government is directly responsible or accepts responsibility, it is expected that future economic benefits will be given up and a reasonable estimate of the amount can be made. The liability reflects the Government's best estimate of the amount required to remediate the sites to the current minimum standard for its use prior to contamination.

Environmental liabilities consist of the estimated costs related to the management and remediation of environmentally contaminated sites, including costs such as those for future site assessments, development of remedial action plans, resources to perform remediation activities, land farms and monitoring. All costs associated with the remediation, monitoring and post-closing of the site are estimated and accrued. Where estimates are not readily available from third party analyses, an estimation methodology is used to record a liability when sufficient information is available. The methodology used is based on costs or estimates for sites of similar size and contamination when the Government is obligated, or is likely obligated, to incur such costs. If the likelihood of a future event that would confirm the Government's responsibility to incur these costs is either not determinable, or in the event it is not possible to determine if future economic benefits will be given up, or if an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the consolidated financial statements and no liability is accrued. The environmental liabilities for contaminated sites are reassessed on an annual basis.

(q) Recoveries of prior years' expenses

Recoveries of prior years' expenses and reversals of prior years' expense accruals in excess of actual expenditures are reported separately from other revenues on the statement of operations and accumulated surplus. Pursuant to the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenses.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(r) Public-Private Partnerships

The Government may, as an alternative to traditional forms of procurement governed by the Government's Contract Regulations, enter into public private partnership (P3) agreements with the private sector to procure services and public infrastructure when: the total projected threshold for procuring those services, including capital, operating and service costs over the life of the agreement, exceeds \$50 million; there is appropriate risk sharing between the Government and the private sector partners; the agreement extends beyond the initial capital construction of the project, and; the arrangement results in a clear net benefit as opposed to being merely neutral in comparison with standard procurement processes. The operating and services costs are expensed as they are incurred and are clearly identified in the agreements.

The Government accounts for P3 projects in accordance with the substance of the underlying agreements. In circumstances where the Government is determined to bear the risks and rewards of an asset under construction, the asset and the corresponding liability are recognized over time as the construction progresses. In circumstances where the Government does not bear the risks and rewards of the asset until substantial completion the future associated agreement is disclosed.

The capital asset value is the total of progress payments made during construction and net present value of the future payments, discounted using the Government's estimated borrowing rate for long term debt at the time of signing the P3 agreement. Capital expenditures may occur throughout the project or at the capital in-service date. Service fees may occur throughout the project or when the project is operational; these fees will include both a service and operational component. All payments are adjusted to reflect performance standards as outlined in the specific agreement and penalties may be deducted for sub-standard performance.

A P3 agreement may encompass certain revenues, including those collected by the partner on behalf of the Government. In such instances the Government will report the gross revenue along with the asset, liability, and expenses as determined from the specific project.

(s) Future accounting changes

Financial instruments

The Public Sector Accounting Board (PSAB) issued PS 3450 Financial Instruments effective for fiscal years beginning on or after April 1, 2019. Items within the scope of the standard are assigned to one of two measurement categories: fair value, or cost or amortized cost. Fair value measurement will apply to derivatives and portfolio investments in equity instruments that are quoted in an active market. Also, when groups of financial assets and financial liabilities are managed on a fair value basis they may be reported on that basis. Other financial assets and financial liabilities will generally be measured at cost or amortized cost. Until an item is derecognized, gains and losses arising due to fair value remeasurement will be reported in the Statement of Remeasurement of Gains and Losses.

Other New Standards

The Government will concurrently be required to adopt: PS 2601 Foreign Currency Translation, PS 1201 Financial Statement Presentation, and PS 3041 Portfolio Investments in the same fiscal period.

PSAB issued new standards in March 2015 on Related Party Transactions (PS 2200 Related Party Disclosures and PS 3420 Inter-Entity Transactions) and four new standards related to Assets (PS 3210), Contingent Assets (PS 3320), Contractual Rights (PS 3380) and Restructuring Transactions (PS 3430) in June 2015. All these new standards have an effective date of April 1, 2017, except for PS 3430 that has an effective date of April 1, 2018.

The Government will analyze the impact of these new standards on its financial statements.

3. CASH AND DESIGNATED ASSETS

(a) Investment pool

The Government has a line of credit provided by a chartered bank, secured by the Consolidated Revenue Fund of the Government. There are no fixed repayment terms and the overdraft limits are negotiated over the year based on the forecasted cash flows and borrowing requirements of the Government. Interest is only charged when there is a net overdraft balance of the Government and its investment pool participants. As at March 31, 2016 the investment pool had no net overdraft balance (2015 - nil).

The surplus cash (deficit) of the Government is pooled with the surplus cash of certain Territorial Crown Corporations, and other public agencies. This investment pool is invested in a diversified portfolio of high grade, short and long term income producing assets.

As of March 31, 2016, on a cash basis, the Government's share in the investment pool is a deficit of \$10,641 (2015 - \$5,669). When taking into account \$1,029 classified from in-trust and \$1,242 of outstanding items, the bank overdraft, on an accounting basis, becomes \$10,322 (2015 - 6,714).

The Government's cash deficit related to the investment pool carried interest at an average rate of 1.08% and \$50 was paid to it.

The average portfolio yield range for the year is 1.02% - 1.19% (2015 - 1.16 - 1.28%). In 2016, the Government earned interest on short-term investments of \$96 (2015 - \$42).

(b) Designated Assets

Designated assets are included in cash and portfolio investments.

Pursuant to the *Student Financial Assistance Act*, the assets of the Student Loan Fund are to be used to provide financial assistance to post-secondary students that meet certain eligibility criteria as prescribed in its regulations.

Pursuant to the *Waste Reduction and Recovery Act*, the assets of the Environment Fund are to be used for specified purposes as follows:

- (a) the establishment, operation and evaluation of programs in respect of the reduction or recovery of waste;
- (b) education programs related to the reduction or recovery of waste;
- (c) research and development activities related to the reduction or recovery of waste;
- (d) the appropriate disposal of a designated or prohibited material as waste;
- (e) expenses associated with the work of the advisory committee; or
- (f) other costs associated with programs, initiatives or activities in respect of the reduction or recovery of waste.

March 31, 2016

(All figures in thousands of dollars)

3. CASH AND DESIGNATED ASSETS (continued)

(b) Designated Assets (continued)

Portfolio investments, while forming part of the Consolidated Revenue Fund, are designated for the purpose of meeting the obligations of the Legislative Assembly Supplemental Retiring Allowance Pension Plan (*note 14*). Supplementary Retiring Allowance Regulations restrict the investments to those permitted under the *Pension Benefits Standards Act*.

The proportionate asset mix in the investment portfolio is as follows as at March 31:

| | 2016 | 2015 |
|---------------------------|--------|--------|
| | % | % |
| Canadian stocks | 21.15 | 18.42 |
| Cash and other assets | 1.12 | 5.59 |
| Fixed income mutual funds | 39.14 | 26.31 |
| Federal bonds | 11.38 | 17.08 |
| Foreign stocks | 27.21 | 32.60 |
| - | 100.00 | 100.00 |

The Government has the following assets which are designated for specific purposes under legislation and regulations as follows:

| | 2016 | 2015 |
|--|-------------|----------|
| Student Loan Fund: | \$ | \$ |
| Authorized limit for loans receivable | 45,000 | 45,000 |

During the year, \$924 in student loans (2015 - \$1,437) was remised with proper authority.

Interest earned on loans receivable during the year is \$521 (2015 - \$679).

7. SHORT-TERM LOANS

Based upon operational needs, the Government may enter into short term borrowing arrangements with its banks. Short term loans of \$244,803 (2015 - \$234,859) incurred interest at the weighted average year-end rate of 0.85% (2015 year end rate - 0.78%). Interest paid in 2016 was \$1,204 (2015 - \$1,348).

The short-term borrowing limit under the Borrowing Authorization Act as at March 31, 2016 is \$300,000.

(All figures in thousands of dollars)

11. ENVIRONMENTAL LIABILITIES

The Government recognizes that there are costs related to the remediation of environmentally contaminated sites for which the Government is responsible. The Government has identified 191 (2015 - 186) sites as potentially requiring environmental remediation at March 31, 2016. Where remediation costs have been estimated and a liability has been recorded the methodology used to estimate the liability was either based on third party analyses or extrapolated from costs previously incurred to remediate, monitor, or manage sites of similar size and contamination.

| | | | | Increase | | |
|---|-----------|-------------|-----------|-------------|-----------|-----------|
| | 2015 | Remediation | New Sites | (decrease) | 2016 | Number of |
| Type of Site | Liability | Costs | in 2016 | in estimate | Liability | Sites |
| | \$ | \$ | \$ | \$ | \$ | |
| Abandoned mines ⁽¹⁾ | 13,368 | (134) | | 544 | 13,778 | 7 |
| Landfills ⁽²⁾ | 13,413 | (209) | - | (2,059) | 11,145 | 40 |
| Abandoned infrastructure and | | | | | | |
| schools ⁽³⁾ | 12,148 | (1,199) | 700 | 501 | 12,150 | 69 |
| Airports, airport strips or reserves ⁽⁴⁾ | 2,056 | (447) | - | 265 | 1,874 | 24 |
| Sewage lagoons ⁽⁵⁾ | 2,841 | - | - | (57) | 2,784 | 28 |
| Fuel tanks and resupply lines ⁽³⁾ | 2,783 | (164) | 150 | (44) | 2,725 | 15 |
| Abandoned lots and maintenance | | | | | | |
| facilities ⁽³⁾ | 3,432 | (45) | - | - | 3,387 | 8 |
| | | | | | | |
| Total environmental liabilities | 50,041 | (2,198) | 850 | (850) | 47,843 | 191 |

Possible types of contamination identified under each type of site include the following:

⁽¹⁾ metals, hydrocarbons, asbestos, wood/metal debris, waste rock, old mine buildings, lead paint;

⁽²⁾ hydrocarbons, glycol, metals;

⁽³⁾ hydrocarbons, petroleum products;

⁽⁴⁾ hydrocarbons, vehicle lubricants, asbestos, glycol;

⁽⁵⁾ metals, e.coli, total coliforms.

One of the sites, Giant Mine, has been formally designated as contaminated under the *Environmental Protection Act* (NWT). In 2005, the Government recorded a liability for its share of the above ground remediation. The remaining balance of the Government's share of the Giant Mine remediation liability at March 31, 2016 is \$2,851 (2015 - \$2,994). There are 6 other abandoned non-operating mine sites that the Government will be remediating in conjunction with Canada based on cost allocations similar to that of Giant Mine. There are 28 sewage lagoons and 40 landfills sites that are outside incorporated communities and being remediated or monitored as appropriate.

There were 2 (2015 - 0) sites closed during the fiscal year as they were either remediated or no longer meet all the criteria required to record a liability for contaminated sites.

Included in the 191 sites, the Government has identified 74 sites where no liability has been recognized. The contamination is not likely to affect public health and safety, cause damage, or otherwise impair the quality of the surrounding environment and there is likely no need for action unless new information becomes available indicating greater concerns, in which case, the site will be re-examined. These sites will continue to be monitored as part of the Government's ongoing environmental protection program.

(All figures in thousands of dollars)

14. PENSIONS

(a) Plans description

The Government administers the following pension plans for Members of the Legislative Assembly (MLAs) and Territorial Court Judges. The Government is liable for all benefits. Benefits provided under all four plans are based on years of service and pensionable earnings.

| Plan recipient | Name of plan | Funded status |
|----------------|---|---------------|
| MLAs | Legislative Assembly Retiring Allowance Plan (MLAs Regular) | Funded |
| MLAs | Legislative Assembly Supplemental Retiring Allowance Plan (MLAs | Non Funded |
| | Supplemental) | |
| Judges | Judges Registered Plan (Judges Regular) | Funded |
| Judges | Judges Supplemental Pension Plan (Judges Supplemental) | Non Funded |

The Regular Plans for both the MLAs and Judges are contributory defined benefit registered pension plans and are prefunded. The funds related to these plans are administered by independent trust companies.

The Supplemental plans for both the MLAs and Judges are non-contributory defined benefit pension plans and are unfunded; however, the Government has designated assets for the purposes of meeting the obligations of the MLA Supplemental plan (*note* 4 (*b*))

The average age of the 19 active members of the MLAs plans is 49. The basic formula of the MLAs plans is 2 percent per year of pensionable service multiplied by the average of the best four consecutive years of earnings. Plan assets consist of Canadian and foreign equities, and Canadian fixed income securities and bonds.

The average age of the 4 active members of the Judges' plans is 59. The basic benefit formula of the Judges' plans is 2 percent per year of pensionable service multiplied by the average of the best six consecutive years of earnings, reducing at age 65 by an amount equal to 0.7% of the average Year's Maximum Pensionable Earnings (YMPE) (as defined in the Canada Pension Plan) determined over 3 years at the time of retirement. Plan assets consist of a diversified portfolio of Canadian and foreign equities and bonds.

All plans provide death benefits to spouses and eligible dependants. All plans are indexed.

The remaining government employees participate in Canada's Public Service Pension Plan (PSPP). The PSPP provides benefits based on the number of years of pensionable service to a maximum of 35 years. Benefits are determined by a formula set out in the legislation; they are not based on the financial status of the pension plan. The basic benefit formula is 2 percent per year of pensionable service multiplied by the average of the best five consecutive years of earnings.

The public service pension plan was amended during 2013 which raised the normal retirement age and other age related thresholds from age 60 to age 65 for new members joining the plan on or after January 1, 2013. For existing members, the normal retirement age remains age 60. Furthermore, contribution rates for current service for all members of the public service will increase gradually to an employer: employee cost sharing ratio of 50:50 by 2017. The employer contribution rate effective at the end of the year is 1.15 times (2015 - 1.28) the employees' contributions for employees who started prior to January 2013 and 1.1 times (2015 - 1.28) the employees' contributions for all other employees.

Other benefits include survivor pensions, minimum benefits in the event of death, unreduced early retirement pensions, and disability pensions.

| Change to pension liability(asset) from accrual items: | | | |
| Current period benefit cost | 995 | 1,203 | 2,198 |
| Amortization of actuarial (gains) losses | 773 | 388 | 1,161 |
| Interest on average accrued benefit obligation | 1,237 | 1,525 | 2,762 |
| Expected return on plan assets | (1,237) | - | (1,237) |
| Net change to pension liability (assets) from accrual items | 1,768 | 3,116 | 4,884 |
| Ending balance | (979) | 30,922 | 29,943 |

(d) Pension expense

The components of pension expense include current period benefit cost, amortization of actuarial net (gains)/losses and interest on average accrued benefit obligation net of the expected return on average plan assets and contributions from plan members. The total pension expense is 4,107 (2015 - 4,614). The interest cost on the accrued benefit obligation is determined by applying the discount rate determined at the beginning of the period to the average value of the accrued benefit obligation for the period. The expected return on plan assets is determined by applying the assumed rate of return on plan assets to the average market-related value of assets for the period. The difference between the expected and the actual return on plan assets is a gain of 2,057 (2015 - 4,649).

In addition to the above, the Government contributed \$33,666 (2015 - \$32,792) to the Public Service Superannuation Plan. The employees' contributions to this plan were \$24,612 (2015 - \$21,434).

(e) Changes to pension plans in the year

There have been no plan amendments, plan settlements and curtailments or temporary deviations from the plan in 2016 (no changes in 2015).

Notes to Interim Financial Statements (unaudited)

(All figures in thousands of dollars)

14. PENSIONS (continued)

(f) Valuation methods and assumptions used in valuing pension liability

Valuation date

The actuarial valuation for the Legislative Assembly was completed as of April 1, 2012 and the results were extrapolated to January 31, 2016. The effective date of the next actuarial valuation is April 1, 2016. The actuarial valuation for the Judge's plan was completed as of April 1, 2013 and the results were extrapolated to March 31, 2016. The effective date of the next actuarial valuation is April 1, 2016.

Liability valuation method

The actuarial valuations were performed using the projected accrued benefit method. The valuations are based on a number of actuarial assumptions about matters such as mortality, service, withdrawal, earnings and interest rates. The assumptions are based on the Government's best estimates of expected long-term rates and short-term forecasts.

Asset valuation method

The asset valuation method, for the MLA's plans is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period and is then adjusted for payments due to, and payable from, the pension plan. The fair market value of the MLA's regular plan is \$22,524 (2015 - \$25,775). The asset valuation method for the Judges' plans is market value. The market value of the Judges' regular plan is \$5,637 (2015 - \$5,530).

Actuarial gains and losses

Actuarial gains and losses occur when actual experience varies from estimates or when actuarial assumptions change. The adjustments needed are amortized on a straight line basis over the estimated average remaining service lives of the contributors. The estimated average remaining service lives of the contributors is 3 years (2015 - 4 years) for the MLA's plans and 2 years (2015 - 3 years) for the Judges' plans.

Actuarial assumptions

| | Judges' plans | MLAs' plans |
|--|---------------|-------------|
| Expected rate of return on plan assets | 4.8% | 4.8% |
| Rate of compensation increase | 2.3% | 2.3% |
| Annual inflation rate | 2.3% | 2.3% |
| Annual interest rate | 4.8% | 4.8% |

Retirement assumptions

- Members of Legislative Assembly may retire at the earliest of age 60, thirty years of service or when age plus service equals 80.
- Judges may retire at the earlier of age 60 or when age plus service equals 80.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

15. OTHER EMPLOYEE FUTURE BENEFITS AND COMPENSATED ABSENCES

In addition to pension benefits, the Government provides severance (resignation and retirement), removal and compensated absence (sick, special, maternity and parental leave) benefits to its employees. The benefit plans are not pre-funded and thus have no assets, resulting in a plan deficit equal to the accrued benefit obligation.

Severance benefits are paid to the Government's employees based on the type of termination (e.g. resignation versus retirement) and appropriate combinations that include inputs such as when the employee is hired, the rate of pay, the number of years of continuous employment, age and if the benefit is subject to maximum benefit limits. Removal benefits are subject to several criteria, the main ones being location of hire, employee category and length of service. The benefits under these two categories were valued using the projected unit credit methodology.

Compensated absence benefits generally accrue as employees render service and are paid upon the occurrence of an event resulting in eligibility for benefits under the terms of the plan. Events include, but are not limited to employee or dependent illness and death of an immediate family member. Non-accruing benefits include maternity and parental leave. Benefits that accrue under compensated absence benefits were valued using the expected utilization methodology.

Valuation results

The actuarial valuation was completed as at March 31, 2016. The effective date of the next actuarial valuation is March 31, 2017. The liabilities are actuarially determined as the present value of the accrued benefits at March 31, 2016. The values presented below are for all of the benefits under the Compensated Absences and Termination Benefits for the Government.

| | Severance and Removal | Compensated Absences | 2016 | 2015 |
|--------------------------------|--------------------------|-------------------------|---------|---------|
| | \$ | \$ | \$ | \$ |
| Changes in Obligation | | | | |
| Accrued benefit obligations, | | | | |
| beginning of year | 30,174 | 5,913 | 36,087 | 36,233 |
| Benefits earned | 2,474 | 3,482 | 5,956 | 5,827 |
| Interest | 740 | 154 | 894 | 893 |
| Benefits paid | (3,893) | (2,287) | (6,180) | (6,866) |
| Actuarial gains | (4,153) | (779) | (4,932) | - |
| Accrued benefit obligations, | | | | |
| end of year | 25,342 | 6,483 | 31,825 | 36,087 |
| Unamortized net actuarial gain | 4,153 | 779 | 4,932 | - |
| Net future obligation | 29,495 | 7,262 | 36,757 | 36,087 |
| Other employee future benefits | 1,131 | _ | 1,131 | 9,204 |
| Other compensated absences | - | 529 | 529 | 582 |
| Total employee future benefits | | | | |
| and compensated absences | 30,626 | 7,791 | 38,417 | 45,873 |

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

15. OTHER EMPLOYEE FUTURE BENEFITS AND COMPENSATED ABSENCES (continued)

| | Severance and Removal | Compensated Absences | 2016 | 2015 |
|--------------------------------------|--------------------------|-------------------------|--------------|--------------|
| Benefits Expense | \$ | \$ | \$ | \$ |
| Benefits earned Implicit Interest | 2,474 740 | 3,482 154 | 5,956 894 | 5,827 893 |
| | 3,214 | 3,636 | 6,850 | 6,720 |

The discount rate used to determine the accrued benefit obligation is an average of 3.2%. The expected payments during the next five fiscal years are:

| | Severance and Removal | Compensated Absences | Total | |
|------|--------------------------|-------------------------|--------|--|
| | \$ | \$ | \$ | |
| 2017 | 5,996 | 1,477 | 7,473 | |
| 2018 | 4,648 | 1,039 | 5,687 | |
| 2019 | 3,499 | 846 | 4,345 | |
| 2020 | 2,790 | 710 | 3,500 | |
| 2021 | 2,381 | 626 | 3,007 | |
| | 19,314 | 4,698 | 24,012 | |

16. PETROLEUM PRODUCTS STABILIZATION FUND

The Petroleum Products Stabilization Fund is included in the accumulated surplus. The purpose of the Fund is to stabilize the prices of petroleum products purchased, sold and distributed by the Government. The annual net profit or loss of the Petroleum Products Revolving Fund is charged to the Stabilization Fund. The accumulated surplus or deficit balance in the fund cannot exceed \$1,000.

| | 2016 \$ | 2015 \$ |
|--|------------|------------|
| Surplus (deficit) at beginning of the year Add: Petroleum Products Stabilization Fund | 791 | (102) |
| Net income (loss) for the year | (182) | 893 |
| Surplus at end of the year | 609 | 791 |

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

17. TRUST ASSETS UNDER ADMINISTRATION

The Government administers trust assets on behalf of third parties, which are not included in the reported Government assets and liabilities. These consist of cash, term deposits, investments, real estate, and other sundry assets.

| | 2016 \$ | 2015 \$ |
|--|------------|------------|
| Correctional Institutions | 418 | 429 |
| Government of New Brunswick - Deh Cho Bridge | 713 | 760 |
| Natural Resources | 236 | 238 |
| Others | 20 | 6 |
| Public Trustee | 5,605 | 6,134 |
| Securities - land use permits, water licences and oil and gas deposits | 5,495 | 3,730 |
| Supreme and Territorial Courts | 1,224 | 1,019 |
| | 13,711 | 12,316 |

In addition to the above trust assets under administration, the Government holds cash and bank guarantees in the form of letters of credit and promissory notes in the amount of \$499,844. The majority of these guarantees are held against water licenses issued to regulate the use of water and the deposit of waste.

18. CONTRACTUAL OBLIGATIONS

The Government has entered into agreements for, or is contractually committed for the following expenses that will be incurred subsequent to March 31, 2016:

| | Expiry Date | 2017 \$ | 2018- 2048 \$ | Total \$ |
|---|----------------|------------|---------------------|-------------|
| Operational commitments* | 2048 | 92,377 | 127,467 | 219,844 |
| RCMP policing agreement | 2032 | 44,122 | 615,571 | 659,693 |
| Commercial leases | 2028 | 17,282 | 71,766 | 89,048 |
| Equipment leases | 2020 | 621 | 758 | 1,379 |
| Tangible capital asset projects in progress at year end | 2020 | 93,563 | 14,936 | 108,499 |
| | | 247,965 | 830,498 | 1,078,463 |

*Included in the operational commitments above is a contract for \$62,000. Subsequent to year end the contract was re-negotiated and the new commitment is \$4,419.

The Government has 1 (2015 - 1) cost recovery service agreement with the Government of Nunavut for the provision of various corporate and program delivery services. The expenses for and costs recovered from these projects are estimated at \$23 for the fiscal year ended 2016 (2015 - \$1,067). The Government has 2 agreements with the Government of Nunavut (GNU) for the delivery and chargeback of health services for eligible Nunavut residents. The 2 agreements with the GNU have no firm cost recovery amounts or end dates.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

18. CONTRACTUAL OBLIGATIONS (continued)

In addition to the contractual commitments above the Government has the following commitments related to P3s.

The Government entered into an agreement with Northern Lights General Partnership (NL) on October 30, 2014 to design, build, operate and maintain 1,154 km of high-speed fiber optic telecommunications cable from McGill Lake to Inuvik. Construction is expected to be completed in May 2017 with service commencement anticipated for June 2017 with NL operating and maintaining the system until 2037. The total cost of construction is \$90,900, of which \$24,393 remains to be completed. The total of \$90,900 plus interest is due over a twenty year term (*see note 14*) with no payment required until the in service date. Upon completion operations and maintenance costs of \$3,190 per year will total \$63,810 for the duration of the contract.

The Government entered into an agreement with Boreal Health Partnership (BHP) on September 22, 2015 to design, build, operate and maintain the Government's new Territorial hospital. Construction is to be completed in November 2018 with BHP operating and maintaining the new facility until 2048. Remaining construction commitments related to the new facility are \$257,475. Of this, \$131,789 is due during the expected remaining 32 months of the construction period and the remaining \$125,686 plus interest is payable over a thirty year term starting at the in-service date (*see note 14*). Upon completion operations and maintenance costs of \$7,203 per year will total \$216,090 for the duration of the contract.

19. CONTINGENCIES

(a) Contractual obligations

| The Government is contingently liable for the following guarantees: | 2016 |
|---|---------|
| Debentures issued by the Northwest Territories Power Corporation: | \$ |
| Sinking fund debentures issued by the Northwest Territories Power Corporation | |
| maturing October 27, 2018 | 10,000 |
| maturing February 27, 2026 | 8,700 |
| Debenture series issued by the Northwest Territories Power Corporation | |
| maturing December 18, 2032 | 11,333 |
| maturing September 13, 2040 | 46,545 |
| maturing May 1, 2025 | 5,002 |
| maturing July 11, 2025 | 15,000 |
| maturing October 1, 2025 | 5,085 |
| maturing September 1, 2026 | 5,883 |
| maturing August 1, 2028 | 25,000 |
| maturing December 15, 2034 | 25,000 |
| maturing November 25, 2052 | 25,000 |
| Loans payable by the Northwest Territories Housing Corporation to | |
| Canada Mortgage and Housing Corporation | 7,004 |
| Guaranteed residential housing loans of the Northwest Territories Housing Corporation | 3,260 |
| Total Guarantees | 192,812 |

The Government has also provided a guarantee to the Canadian Blood Services and Canadian Blood Services Captive Insurance Company Ltd. to cover a share of potential claims made by users of the national blood supply. The Government's share is limited to the ratio of the Northwest Territories' population to the Canadian population.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

19. CONTINGENCIES (continued)

(b) Claims and litigation

There are a number of claims and pending and threatened litigation cases outstanding against the Government. In certain of these cases, pursuant to agreements negotiated prior to the division of the territories, the Governments of the Northwest Territories and Nunavut will jointly defend the suits. The cost of defending these actions and any damages that may eventually be awarded will be shared by the two Governments 55.66% and 44.34%, respectively. The Government has recorded an allowance for any claim or litigation where it is likely that there will be a future payment and a reasonable estimate of the loss can be made. At year-end the Government estimated the total claimed amount for any claims and litigation for which the outcome is not determinable at \$8,229. No provision for such claims has been made in these financial statements as it is not determinable that any future event will confirm that a liability has been incurred as at March 31.

20. RELATED PARTIES

Transactions with related parties and balances at year-end, not disclosed elsewhere in the financial statements, are disclosed in this note. During the year the Government provided grants and contributions to the following related parties.

| | 2016 \$ | 2015 \$ |
|---|------------|------------|
| | ¥ | Ψ |
| Arctic Energy Alliance | 3,753 | 2,484 |
| Aurora College | 35,723 | 35,513 |
| Inuvialuit Water Board | 913 | 900 |
| Divisional Education Councils and District Education Authorities | 171,136 | 138,297 |
| Health and Social Services Authorities | 268,392 | 291,072 |
| Northwest Territories Power Corporation | 26,665 | 28,492 |
| Northwest Territories Energy Corporation | - | 1,260 |
| Northwest Territories Business Development and Investment Corporation | 3,789 | 3,707 |
| Northwest Territories Heritage Fund | 4,772 | 250 |
| Northwest Territories Housing Corporation | 86,132 | 89,153 |
| Northwest Territories Human Rights Commission | 221 | 306 |
| Northwest Territories Surface Rights Board | 289 | - |
| Northwest Territories Sport and Recreation Council | 650 | 650 |
| Status of Women Council of the Northwest Territories | 452 | 553 |
| | 602,887 | 592,637 |

The Government funds communities, boards and agencies and other organizations offering services to the public. These organizations operate independently of normal Government operations. The Government may be held responsible for any liabilities or deficits on behalf of related boards and agencies. An estimate of the potential liability, if any, cannot be determined.

Under agreements with related boards and agencies, the Government provides services at cost or for a service fee where direct costs cannot be determined. The fees charged for indirect costs are not necessarily the cost of providing those services. Services provided includes personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal and interpretation services.

Notes to Interim Financial Statements (unaudited)

March 31, 2016

(All figures in thousands of dollars)

21. OVEREXPENDITURE

During the year 1 department (2015 - 2) exceeded their operations vote by \$2,959 (2015 - \$3,505) and 1 department (2015 -0) exceeded their capital vote by \$68,916 (2015-\$0).

Overexpenditure of a vote contravenes subsection 71 of the *Financial Administration Act* which states that "No person shall incur an expenditure that causes the amount of the appropriation set out in the Estimates for a department to be exceeded".

| The voted items that were over expended in th | e current year is as follows: |
|---|-------------------------------|
| Department of Transportation (operations) | \$2,959 |
| Department of Finance (capital) | \$68,916 |

These overexpenditures have been deemed a supplementary appropriation in accordance with section 77 of the *Financial Administration Act* S.N.W.T 2015 which states that "Where the charging of expenditures to an appropriation would cause the appropriation to be exceeded, the Comptroller General may, at the end of a fiscal year, record the amount by which the liability exceeds the appropriation as a deemed appropriation for that fiscal year".

22. SUBSEQUENT EVENTS

Building Canada Plan

On June 13, 2016, Canada signed an eight year, \$72 million, agreement with the Department of Transportation for the new Building Canada Fund. This agreement will allow the Government to rehabilitate selected portions of existing highways and roads, improve safety, and improve access to and from remote communities.

Health Board Consolidation

On April 1, 2016, new legislation came into effect giving the Minister of Health and Social Services the authority to create a Territorial Health and Social Services Authority (NTHSSA). The Minister of HSS announced that the effective date for the NTHSSA to commence operations was August 1, 2016. When the NTHSSA was created, six of the eight current Health and Social Authorities (HSSAs) became part of the NTHSSA and would no longer be separate legal entities. Hay River Health and Social Services Authority (HRHSSA) and Tlicho Community Services Agency (TCSA) remain outside the NTHSSA; however, the legislation does include provisions to bring the HRHSSA into the NTHSSA at a later date. The NTHSSA serves as a single integrated delivery system for Northwest Territories health and social service programs while recognizing that the TCSA retains a unique role through the provisions of the Tli Cho Agreement. Through the Chief Executive Officer, the NTHSSA reports to and takes direction from the Chair of Health and Social Services Leadership Council that is comprised of persons appointed in accordance with legislation. The financial impact of this change is not significant to the Government.

Disaster Financial Assistance

On June 3, 2016, Canada approved an Order in Council, P.C. 2016-436, to permit the Government to proceed with a disaster financial assistance arrangements claim of \$4.1 million, which is for extraordinary expenses associated with the civil emergency response incurred by the Government as a result of the 2014 wildfire.

23. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted for the current year.

Schedule A

| | 2016 Main Estimates (note 1b) | 2016 Actual | 2015 Actual | |
