Introduction

The Main Estimates represent the Government of the Northwest Territories' proposed appropriations for the 2018-2019 fiscal year. The Estimates detail all expenditures projected to be incurred, and all revenues projected to be earned for the period April 1, 2018 to March 31, 2019, in order to implement strategies and achieve the goals of the Government.

The 2018-2019 Budget Address is an integral part of these Estimates. The Budget Address and the Main Estimates together constitute the budget of the Northwest Territories.

The Legislative Assembly is being requested to appropriate funds at the departmental level, as detailed in the Main Estimates, for operations expenditures for the fiscal year ending March 31, 2019.

The GNWT presents the Operations Expenditures (Main Estimates) and the Infrastructure Investment Expenditures (Capital Estimates) in two separate documents. The Capital Estimates are approved by the Legislative Assembly during its fall sitting.

Operations Expenditures

Operations Expenditures include only the proposed operating expenses for each department.

The following detailed information is provided for each department:

- **Organizational Chart** shows the departmental structure for administrative reporting purposes.
- **Accounting Structure Chart** shows the department's structure for financial reporting purposes.
- **Graphs** illustrate the allocation of proposed expenditures to major activities and a multi-year comparison of actual and proposed expenditures.
- **Department Overview** includes the mandate of the department.
- **Department Summary** presents the following information:
 - **Operations Expenditure Summary shows** the total appropriation requirements by control object for the department. The expenditure categories are presented to provide further detail of the nature of the expenditures (e.g. compensation and benefits, grants, contributions and transfers, amortization, several other categories).
 - **Revenue Summary** presents departmental revenues by the type of revenue.
 - **Active Position Summary** shows the total number of positions, by category (full-time, part-time, or seasonal), serving the department in each region, and the total number of positions, by category, serving the department by community groupings.
- **Activity Summary** provides the following information for each activity;
 - **Activity Description** provides an explanation of the purpose or programs for each activity.
 - **Operations Expenditure Summary** shows the appropriation requirements for the activity, summarized by expenditure category. Comparative figures are provided for the prior year in the Revised Estimates and Main Estimates columns. Actual expenditures for the second prior year in the far right hand column..

- o **Program Delivery Details** show amounts for each of the major program functions. This schedule is not provided for those activities that only have one major function.
- o **Grants, Contributions and Transfers** provides descriptions and amounts for proposed grants, contributions and transfers.
- o **Summary of Active Positions (Regional Allocation)** shows the number of positions, by category, in each region.
- o **Summary of Active Positions (Community Allocation)** shows the number of positions, by category, by community groupings (Headquarters, Regional Offices, Other communities).
- **Summary of Work Performed on Behalf of Others** presents information about certain functions that the Government performs in the Northwest Territories on behalf of the Government of Canada or others. Expenditures incurred for these activities are fully recovered and are not required to be appropriated by the Legislative Assembly.
- **Other Information Items** includes proposed departmental expenditures or financial activities related to various public agencies or revolving funds.

For further clarification on terms used in the Main Estimates and the budget development process, please consult the Glossary in Appendix A and the Budget Development Process in Appendix B.

Education Authorities Programs and Services

(Information Item)

In 1996, the Government of the Northwest Territories (GNWT) adopted a new *Education Act* that renamed existing governance structures and enhanced their responsibilities. The Education Act gives Divisional Education Councils (DECs) and District Education Authorities (DEAs) the legislative authority to provide leadership and guidance to the educational community.

Each DEA is comprised of elected or appointed representatives responsible for the school(s) in their community. There are a total of 49 public schools in 32 of the 33 communities in the NWT.

The GNWT certifies teachers and determines curricula that guide teaching in NWT schools, while the DECs and DEAs provide each NWT community with the authority to meet the educational and cultural needs of students.

Aurora College Programs and Services

(Information Item)

Aurora College delivers adult and postsecondary education and training programs under the direction of a Board of Governors or an Administrator appointed by, and accountable to, the Minister of Education, Culture and Employment. Aurora College has three regional campuses and 23 community learning centres

Aurora College offers a number of certificate and/or diploma programs and degree programs out of three regional campuses in partnerships with universities. Through its 23 community learning centres, Aurora College provides community-based Adult Literacy and Basic Education programs as a means to facilitate greater access to postsecondary education, training and employment.

Aurora College operates through third-party contracts and an annual contribution from the Department as approved by the Legislative Assembly. Contributions to the Aurora College are allocated by academic year, which runs from July 1 to June 30.

The School of Trades, Apprenticeship and Industrial Training provides technical training that supports people in achieving journeyman status, becoming a technician or technologist in a designated occupation, or obtaining basic skills to begin careers in trades, construction or mining-related occupations.

The Aurora Research Institute is responsible for licensing and coordinating research in accordance with the *Scientists Act*.

Environment and Natural Resources

Conservation, Assessment and Monitoring

Activity Description

The Conservation, Assessment and Monitoring activity works to ensure that the NWT environment figures prominently in conservation planning and proposed developments. This activity also leads the monitoring of cumulative impacts related to development.

The Conservation Planning division advances a comprehensive and collaborative approach for conservation planning and conservation area establishment across the NWT that recognizes the need to balance conservation and economic development and respects Aboriginal rights and third party interests.

The Environmental Impact and Assessment section coordinates ENR participation and ensures ENR's mandate and expertise figures prominently in the review of proposed development activities within the environmental assessment and regulatory system. The section also administers the environmental agreements for the territory's three diamond mines. As well, the section administers funding to Aboriginal organizations in unsettled areas to assist in capacity building and participation in land and resource related activities.

The NWT Cumulative Impact Monitoring Program conducts and supports environmental monitoring and research using all sources of knowledge to support better resource management decision-making by furthering our understanding of cumulative impacts and environmental trends on the environment. The program is a product of legislation and settled land claims; Aboriginal governments have a legislated role in its design and function.

Corporate Management

Activity Description

The Corporate Management activity provides overall management, strategic planning, communication, and leadership to the Department's divisions and regions. Divisions and Units within this activity enable the Department to respond effectively to the environmental and resource management priorities of NWT residents.

The Corporate Management activity is carried out through Directorate, Corporate Services and the Field Support Unit.

Directorate provides the overall leadership, management, and strategic planning for the Department.

Corporate Services coordinates the policy, planning, legislative, communications, financial, administrative, and reporting activities for the Department. These services include providing advice and support to the Minister, Deputy Minister, and senior managers on the annual business plan, annual budget and reporting on results.

The Field Support Unit provides regional and divisional support on activities related to traditional knowledge, traditional economy, licensing, compliance, public education, and employee training. This unit also coordinates the Department's occupational health and safety activities.

This activity also includes Corporate Costs, which captures the Department-wide costs such as lease payments, Technology Service Centre Chargebacks, employee leave and termination benefits, and vehicle and building maintenance.

Information management services including information systems and internet development, implementation and operations, geomatics and geographic information systems, data and analysis, and records and library services are provided through Informatics Shared Services housed in the Department of Lands.

Arctic Inspiration Prize - The Arctic Inspiration Prize is an award celebrating the North and its innovative people. It is currently supported by all Territorial governments (NWT, Yukon and Nunavut), the Federal government, a number of Aboriginal governments and investment arms of Aboriginal governments, and companies with a strong presence in the Arctic.

Canadian Red Cross – Donation to the Canadian Red Cross to aid in relief efforts for the Fort McMurray forest fires.

Disaster Compensation (15) - Grants are available to hunters and trappers to replace equipment lost as a result of a natural disaster.

Fur Price Program (405) - Grants to trappers in the form of a minimum price for the fur of selected species. The grant is available on good quality and well handled pelts.

Community Harvester Assistance Program (1,074) - Contributions to local wildlife committees which have been recognized by the Minister of Environment and Natural Resources to provide assistance to resource harvesters.

Country Foods (100) - Contributions to support the engagement process in the development of a country food strategy.

Inuvialuit Water Board (913) - Core funding for the Inuvialuit Water Board.

Environment and Natural Resources

Environment

Activity Description

The Environment activity works to prevent or reduce the impact of human activities on the natural environment so that a high quality environment is maintained.

The Climate Change section works with other governments and external partners to coordinate the NWT's response to climate change, including mitigation of greenhouse gas emissions, identifying climate change impacts, and adapting to a changing climate.

The Contaminated Sites and Remediation section develops programs and policies to manage and remediate contaminated sites that fall under the responsibility of the GNWT as well as managing the assessment and remediation of sites that are a priority due to environmental, health and safety issues such as the Giant Mine Site.

The Environmental Protection section provides information and technical advice through environmental assessments, Land and Water Board processes, develops, implements and delivers programs with respect to hazardous substances (e.g., spills, contaminated sites and pesticides), solid and hazardous waste management, air quality protection and monitoring, and is moving into the role as the territorial regulator for air emissions and air management in the NWT.

The Knowledge Agenda establishes a strategic framework for knowledge in the NWT, identifies GNWT research priorities, and sets a path for future research and traditional, local and scientific integration for the GNWT.

The Waste Reduction section develops, administers, evaluates and promotes innovative strategies, policies, regulations, programs and initiatives in source reduction, waste diversion, and residual waste management. The unit works with municipalities, businesses, non-profit organizations, and other levels of government to advance sustainable policies and programs in integrated waste management and leads the development, coordination, and implementation of cross-departmental and GNWT-wide strategies and policies in greening government.

Environment and Natural Resources

Forest Management

Activity Description

The Forest Management activity supports and maintains the responsible stewardship of the NWT's forests for the benefit of all northerners.

The Fire Suppression section provides for the analysis of wildland fire and protection of people, property, and values at risk from wildfire through presuppression preparedness as well as suppression of wildland fires. It is recognized that fire plays a natural role and importance in the boreal ecosystem.

The Forest Resources section provides for quantifiable and sustainable forest management for economic and social needs, the determination of ecological diversity and forest health while recognizing the rights of Aboriginal people and other third party interests.

Program Management and Presuppression provides for strategic, financial and functional planning for assets, legislation and forest compliance.

Environment and Natural Resources

Water Resources

Activity Description

The Water Resources activity ensures the water resources stewardship and management objectives of the GNWT and of the Department are met in an integrated and timely manner.

The Taiga Environmental Laboratory performs a wide range of organic and inorganic chemical analyses on water, industrial effluents, sewage, and soil. In addition to standard services, a variety of special services are offered, including laboratory quality assurance/quality control assessments, rush sample services, scientific training and public education.

The Water Regulatory section provides information and expert advice to resource management boards and other clients on the effects of proposed water and land activities on the aquatic environment and the amount of reclamation security to be held within a water licence. The sections also works to prepare decision packages for the Minister pertaining to Type "A" water licence approvals and Type "B" water licence approvals where a public hearing is a component of the process.

The Water Research and Studies section undertakes a variety of short research studies and long-term monitoring projects with internal and external partners, including water quality, water quantity, weather/climate, and snow monitoring, to help fill data gaps in the NWT. The section provides scientific information for use in developing Transboundary Water Management Agreements and territorial or national technical guidance documents for use in making sound resource management decisions.

The Watershed Management section leads the establishment and implementation of Transboundary Bilateral Water Management Agreements, and undertakes the Community-Based Monitoring Program, Source Water Protection, Aquatic Ecosystem Indicators, and Research Partnerships and Traditional Knowledge Initiatives which contribute to the implementation of the NWT Water Stewardship Strategy.

Environment and Natural Resources

Wildlife

Activity Description

The Wildlife activity is responsible for the stewardship of wildlife resources.

The Biodiversity Conservation section develops wildlife legislation, implements the *Species at Risk (NWT) Act*, maintains a wildlife data repository, reports on the general status of all NWT species, and provides information to the public and stakeholders about wildlife and wildlife management initiatives.

Wildlife programs and services are delivered by regional and headquarters staff. Regional staff works closely with wildlife co-management boards to co-ordinate wildlife research and monitoring programs. Regional and headquarters staff undertake wildlife surveys and involve communities and co-management boards in these activities. Regional and headquarters staff also participate in the development of management plans. Headquarters staff help co-ordinate and provide expertise to regional staff conducting wildlife research and monitoring programs. Headquarters staff liaise with national and international wildlife organizations and co-ordinate NWT-wide programs, such as biodiversity monitoring, major legislative reviews (e.g., *Wildlife Act*), species at risk programs, wildlife health studies, wildlife standard advice, wildlife cumulative effects studies, wildlife databases, and wildlife study publications. All wildlife and sport fishing compliance programs are delivered by regional renewable resource officers.

The Wildlife Research and Management section is responsible for guiding the overall direction of Departmental wildlife, wildlife health and wildlife habitat research and monitoring programs, developing management plans and range plans, providing technical expertise and advice on wildlife issues in environmental assessment and regulatory processes. This work includes addressing individual and cumulative effects of disturbance on wildlife and wildlife habitat, and supporting the needs of other wildlife management authorities and co-management partners to achieve shared goals and priorities.

Cabinet Support

Activity Description

Cabinet Support is responsible for ensuring systems are in place to support informed decision-making and to successfully implement Cabinet direction. Cabinet Support offers objective, independent policy and legislative analysis, as well as operational support through the Cabinet Secretariat, the Commissioner's Office and the Public Utilities Board.

Cabinet Secretariat provides broad policy advice on priorities, strategies, policies and legislation to the Premier and Cabinet; and support for all Cabinet operations, including communicating, monitoring compliance with, and assisting (as required) in the implementation of Cabinet direction. The Secretariat has ultimate responsibility for maintaining the security and integrity of the official Cabinet Record.

The Commissioner's Office provides office space and operational support for the federally appointed Commissioner of the Northwest Territories.

Legislation and House Planning is responsible for the provision of broad policy advice to the Government House Leader, Executive Council, Ministers' offices and departments on the Rules and procedures of the Legislative Assembly, the Legislative Process, preparation and assessment of legislative initiatives and draft bills, support for the development of the legislative agenda, and a full range of administrative services in support of Cabinet with respect to business in the Legislative Assembly.

The Public Utilities Board is an independent regulatory agency responsible for the regulation of the energy utilities in the Northwest Territories. The main function of the Board is derived from the *Public Utilities Act* and operational support is provided by the Department of Executive and Indigenous Affairs.

Executive and Indigenous Affairs

Directorate

Activity Description

The Directorate includes the Office of the Secretary to Cabinet, Regional Operations and the Women's Advisory division.

Office of the Secretary to Cabinet is responsible for leading the senior management of the territorial public service, managing the executive functions of the bureaucracy, supporting Executive Council decision making, and coordinating the development and implementation of government-wide direction. The Office is also responsible for the management of the Department of Executive and Indigenous Affairs and the planning and administration of functions necessary to further the Department's mandate. The Secretary to Cabinet is accountable to the Premier for the proper conduct of business of the Department.

Regional Operations are responsible for implementing Cabinet priorities and direction, communicating and coordinating GNWT programs and services in the regions, as well as the overall management of the Single Window Service Centres in 21 of the smaller communities in the NWT. Regional Operations is also responsible for ensuring an open line of communication between the regions and headquarters, as well as conveying Cabinet strategic priorities and messages to members of the Regional Management Committees.

The Women's Advisory division supports the Minister Responsible for the Status of Women, and serves as a point of contact within the GNWT for governmental and non-governmental organizations that enhance the cultural, economic, political and social participation of women in society.

The Premier's Office provides the Premier and Minister's offices with political, communications, and strategic operations advice and coordination. The Premier's office leads government activities related to all political commitments/priorities of the 18th Legislative Assembly, intergovernmental and key stakeholder relationships. The Premier's Office supports the Premier with the management of the executive functions of government and takes a lead in coordinating the government's activities related to the political development of the Northwest Territories.

Ministers' Offices provide support for the Ministers, their offices and support staff. This includes salaries and operational expenses for the Ministers and their staff.

Cabinet Communications and Protocol provides strategic communications advice to the Premier, Cabinet Ministers and departments to support effective and coordinated communications that promote public awareness and understanding of GNWT positions, policies and initiatives to advance the priorities of the Legislative Assembly and fulfill GNWT mandate commitments. Cabinet Communications supports the Premier and Cabinet in their engagement with news media and provides media relations leadership and advice to departments, as well as issues management advice. It is responsible for providing protocol services to visiting dignitaries and representatives of foreign governments on behalf of the Premier and for supporting and advising on the holding and organizing of government ceremonies and events.

Indigenous and Intergovernmental Affairs

Activity Description

Indigenous and Intergovernmental Affairs is comprised of the following divisions: Aboriginal Consultation and Relations, Office of the Deputy Secretary for Federal Engagement, Office of the Deputy Secretary of Indigenous and Intergovernmental Affairs, Implementation, Intergovernmental Relations, and Negotiations.

The Aboriginal Consultation and Relations division promotes and advances the GNWT's commitment to develop and maintain mutually respectful intergovernmental relations between the GNWT and Indigenous governments and is also responsible for the provision of advice to all departments in relation to meeting the GNWT's duty to consult. As part of its role in Indigenous intergovernmental relations, the division is responsible for providing support to the Intergovernmental Council on Land and Resource Management.

The Office of the Deputy Secretary for Federal Engagement is located in Ottawa, and is responsible for supporting and promoting the interests of the NWT within the Federal government.

The Office of the Deputy Secretary of Indigenous and Intergovernmental Affairs provides overall direction to the Indigenous and Intergovernmental Affairs Secretariat, including the provision of policy advice from Aboriginal Rights analysts on Aboriginal rights, negotiations and implementation issues.

The Implementation division is responsible for negotiating implementation plans, financing agreements and intergovernmental program and service delivery arrangements associated with land, resources and self-government agreements. This includes the development of collaborative models of self-government implementation. The division is also responsible for monitoring and facilitating ongoing GNWT implementation obligations and activities pursuant to settled land, resources and self-government agreements, and representing the GNWT on trilateral Implementation Committees tasked with monitoring and coordinating the overall implementation of the agreements.

The Intergovernmental Relations division promotes and advances the GNWT's commitment to develop and maintain mutually respectful intergovernmental relations between the GNWT and federal, provincial, territorial, and international governments. In doing so, the division protects, develops and promotes the interests and aspirations of NWT residents in the GNWT's intergovernmental relations activities.

The Negotiations division is responsible for leading the GNWT's participation at land, resources and self-government negotiations in the NWT. Successfully concluding land, resources and self-government agreements throughout the NWT will lay the foundation for attaining political certainty, building mutually respectful intergovernmental relations and realizing the economic potential of the NWT.

Directorate

Activity Description

The Office of the Chief Information Officer (OCIO) serves as the GNWT's senior authority on corporate activities associated with Information and Communications Technology. This includes Information Systems, Information Technology, and Information Management. The OCIO provides strategic, policy and operational advice via the Informatics Policy Council, and ensures corporate activities related to strategy, policy implementation, planning and information security are undertaken in a timely and consistent manner.

Deputy Minister's Office includes the Office of the Deputy Minister/Secretary to the Financial Management Board. The duties and responsibilities of the Deputy Minister of Finance/Secretary to the Financial Management Board are described in the *Financial Administration Act (FAA)*. In addition, this Division provides support to the Financial Management Board and provides financial and administrative leadership to the GNWT.

The Shared Corporate Services division is responsible for developing and maintaining policies and legislation, coordinating budget development and tracking financial performance, providing information and records management support including the coordination of responses to requests made under the *Access to Information and Protection of Privacy Act (ATIPP)*, coordinating departmental communication efforts, and providing strategic advice to the senior management team with respect to performance and emerging issues for the Departments of Finance and Executive and Indigenous Affairs. □

Liquor Revolving Fund

Activity Description

The Liquor Revolving Fund is established under the *Liquor Act (Act)* and provides working capital to finance the operations of the Liquor Commission (Commission), the Liquor Licensing Board (Board), Liquor Licensing and Liquor Enforcement. Revenues are generated by the sale of alcoholic beverages.

The Commission is responsible for the purchase, classification, distribution and sale of all alcoholic beverages in the Northwest Territories.

The Board is responsible for the issuance of all types of liquor permits, and for all hearings and proceedings pertaining to liquor permits. Liquor Licensing and Liquor Enforcement provide support to the Board, and are responsible for the enforcement of liquor-related regulations and restrictions, and assists communities in respect of matters arising under the Act. The Commission, Liquor Licensing and Liquor Enforcement are located in Hay River.

The accounting and management of the Liquor Revolving Fund is administered by the Commission; however, there are separate audited financial statements for the Commission and the Board. The financial statements are audited on an annual basis by an independent external auditor.

Management Board Secretariat

Activity Description

The Bureau of Statistics ensures the Government of Northwest Territories (GNWT) has appropriate statistical information and provides statistical advice, analysis, and assistance to Departments, regional offices, and central agencies.

The Deputy Secretary to the Financial Management Board (FMB) oversees the management functions of the Activity, including the GNWT Public Private Partnership Policy and Management Framework.

Fiscal Policy is responsible for providing research, analysis and recommendations on the fiscal policies of the government, monitoring economic conditions as they affect the government's fiscal position, providing macroeconomic research and policy advice, providing analysis and advice on Canadian and NWT tax policies, monitoring and advising on intergovernmental fiscal relations, and preparing the annual budget address. The division also provides technical support for the Minister and Deputy Minister of Finance in federal-provincial-territorial discussions and represents the GNWT on intergovernmental Finance committees.

The Management Board Secretariat supports the operations of the FMB, and is also responsible for the GNWT's budget, planning and reporting cycle.

Office of the Comptroller General

Activity Description

The Comptroller General is responsible for the control and administration of the Consolidated Revenue Fund which involves: the receipt and payment of public money; accounting policies; the financial records of the GNWT; reporting responsibilities; financial analysis, advice and interpretation; internal auditing; treasury functions; financial and employee shared services; informatics shared services; insurance; and any related matters.

The Financial and Employee Shared Services (FESS) division provides financial transaction processing services to all GNWT departments and the Northwest Territories Housing Corporation as outlined in a Service Partnership Agreement with clients. FESS also provides compensation and benefits management and related Helpdesk services to all public servants in the GNWT. FESS ensures compliance with all federal and territorial financial legislation, regulations, policies and agreements. The division has service centres in Yellowknife, Inuvik, Norman Wells, Hay River, Fort Smith, Fort Simpson, and Behchoko.

The Informatics Shared Services division implements, maintains, and supports existing and new functionality within the GNWT's Enterprise Resource Planning (ERP) solution. GNWT's ERP is based on Oracle's PeopleSoft line of products and is comprised of a core financial and procurement system called the System for Accountability and Management and a core human resource system called the Human Resource Information System.

The Internal Audit Bureau provides an independent, objective, internal audit and consulting service to improve the GNWT's operations by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, internal controls and governance processes.

The Reporting, Treasury and Risk Management division is responsible for the development of corporate accounting procedures and policies, administration and integrity of the government's financial information systems, accounts receivable and accounts payable functions, making territorial power subsidy payments, management of the environmental liability fund, external financial reporting, and providing collections and credit granting functions. The division is also responsible for Treasury functions including licensing and regulating insurance companies, agents, brokers and adjusters operating in the Northwest Territories, administering legislated tax programs, administering the GNWTs' insurance and self insurance programs, and the GNWT Heritage Fund.

Health and Social Services

Administrative and Support Services

Activity Description

Under the authority of the Minister, the Directorate provides strategic leadership to the Department and the Health and Social Services Authorities. This includes responsibility for the overall establishment of strategic direction and co-ordination of reform initiatives aimed at ensuring the long-term sustainability of the health and social services system. The Directorate is also responsible for co-ordination of broad system planning and providing innovative leadership.

Administration activities include planning, organizing, directing and controlling the delivery of health and social programs and services in accordance with government policy and legislation with focus on quality improvement, risk management, privacy protection, infection control and communications.

Finance provides financial planning and management services for the health and social services system. Services include financial planning, analysis and reporting, implementation and monitoring of internal controls, accounting and audit functions, and the administration of agreements.

Human Resources include system human resource planning which provides coordination of system-wide planning for and promotion of health and social services careers. This includes collaboration with the Department of Finance, Human Resources to forecast health and social services human resource needs, and the design, delivery and evaluation of programs to support recruitment and retention specifically related to health and social services professionals. Personnel services such as employee compensation and benefits management, staff recruitment, and personnel record keeping services are provided to the Department and the Authorities by the Department of Finance with the exception of the Hay River Health and Social Services Authority which administers its own personnel services.

Systems Support administers and supports enterprise-wide health and social services application systems that are critical to health and social services delivery in the NWT.

Facility Maintenance and Support units within hospitals across the health and social services system provide general servicing, repair and maintenance of the grounds, buildings, and equipment of the health and social services facilities. Units also provide operational support services such as housekeeping, security, laundry and linen services, material management, bio-medical engineering, and the coordination of volunteer services.

Client Support Services include the Health Services Administration office in Inuvik that registers clients for vital statistics and health care eligibility and is responsible for the administration of Health Benefit Programs. Also included in Client Support Services are those units in health facilities that co-ordinate admission and discharge of patients, maintain health records, and administer official languages and interpretation programs.

Health and Social Services

Community Health Programs

Activity Description

Community Clinics and Health Centres provide primary care services, which are considered the first level of contact for individuals, families, and communities within the health system. These services are provided through health centers, community clinics and public health clinics.

Home Care and Support Services provide support to eligible northern residents for acute, chronic or palliative care clients, including personal care, nutrition and respite services.

Health Promotion and Community Wellness units work directly with community groups and Aboriginal Governments to address key community specific priorities such as injury prevention, cancer, tobacco reduction and health promotion. Early Childhood Development and Anti-Poverty initiatives are also included here.

Population Health services are aimed at broad population health through the co-ordination and ongoing management of health and wellness surveillance activities for the NWT. This includes the development of program standards, monitoring and evaluation in the areas of public health, environmental health, disease control and epidemiology.

As legislated by the *Mental Health Act* and through the establishment of program standards and monitoring, support is provided to front line staff, supervisors and managers in the delivery of Community Mental Health and Addictions programming. Programs include those aimed at addressing alcohol and drug addictions, including land-based programming and addictions treatment facilities.

Residential Care programs for Adults and Children provide supportive living arrangements in residential/group home settings for extended periods of time to meet physical, emotional, spiritual, and psychosocial needs. This includes long term care facilities, group homes for adults, and residential care both inside and outside the NWT.

Economic Diversification and Business Support

Activity Description

The Economic Diversification and Business Support activity consists of the Business Support, Trade and Economic Analysis (BSTEAs) Division and the Economic Diversification (ED) Division within ITI.

ITI encourages investment in the NWT by providing economic analysis and regional market and economic data for both business and government and attracts foreign investment through the Northwest Territories Nominee Program. It supports informed decision-making by providing economic data, market intelligence, sector information, and opportunity studies. In conjunction with the NWT Business Development and Investment Corporation (BDIC) and the Community Futures Development Organizations, ITI provides business advice and access to investment capital. These activities are delivered through BSTEA, ED, Regional Offices, the BDIC, and funding Community Futures Development Organizations.

ITI Regional Offices supply program guidance, support, advice, and assistance at the community level. Regional representatives are experienced, knowledgeable and well networked with organizations, financial institutions, and government departments and agencies. ITI works with business associations such as the NWT Chamber of Commerce, the NWT Construction Association, and the NWT Manufacturer's Association, as well as with professional associations to promote the NWT as a place to work, invest and live.

Minerals and Petroleum Resources

Activity Description

The Mineral and Petroleum Resources activity consists of the Mineral Resources Division (MRD), the Petroleum Resources Division (PRD), the Northwest Territories Geological Survey (NTGS), the Diamond, Royalties and Financial Analysis (DRFA) Division, and the Client Service and Community Relations (CSCR) Unit. The Minerals and Petroleum Resources activity includes marketing and promotion of NWT mineral and petroleum resources to attract investment in exploration, development and production for the benefit of all NWT residents. The five Regional Offices across the NWT ensure that businesses and entrepreneurs receive access to programs and resources to help maximize the economic benefits from development in their regions.

MRD develops and delivers policy, programs and services related to minerals, exploration and development, and through the Mining Recorder's Office, manages land tenure associated with mineral resource rights for public lands in the NWT. MRD supports the implementation and negotiation of Socio-Economic Agreements with mineral and petroleum developers. This is accomplished through collaboration with communities, industry and other government departments.

PRD develops and delivers policy, programs, and services related to petroleum exploration, development, and transportation to markets. PRD manages land tenure associated with petroleum resource rights for public lands in the NWT. PRD also oversees the management of the Environmental Studies Research Fund and Benefits Plans. PRD also provides input to land use initiatives and environmental assessments.

DRFA is responsible for the management, administration and collection of royalties from mineral and petroleum resource development in the NWT, including performing and overseeing royalty audits and diamond valuation processes. DRFA also analyzes and evaluates the economic impacts of planned or potential petroleum and mineral resource developments. DRFA is also responsible for administering the Diamond Policy Framework and negotiating agreements guaranteeing Approved NWT Diamond Manufacturers access to rough diamonds produced by NWT mines, and for ensuring implementation of those agreements. DRFA also administers the GNWT Diamond Certification Program, and negotiates and administers agreements that license the use of GNWT diamond trademarks by Approved NWT Diamond Manufacturers.

NTGS undertakes and supports original geoscience studies that contribute to a modern, comprehensive public geoscience database for the NWT to support evidence-based decision making. NTGS also provides advice and outreach services to individuals, communities, governments, industry, academics and researchers.

CSCR is the first point of contact within the GNWT to assist industry and communities to maximize economic opportunities from resource exploration and development. CSCR provides guidance on regulatory and community engagement practices, project facilitation and pathfinder services, and works with GNWT departments as well as Indigenous governments, industry, business, communities, non-government organizations and other public government agencies.

Note 1: Revenues of the ESRF are derived from levies paid by holders of petroleum exploration, significant discovery and production licences on NWT lands. The expected levy and budget are submitted to the Minister 60 days prior to the end of the preceding fiscal year.

Note 2: The PRA allows for reasonable expenses incurred for the management, operation and administration of the Environmental Studies Management Board (ESMB) to be charged against the ESRF. The PRA sets out the duties and functions of the ESMB, including that the ESMB establish guidelines and procedures of the Fund. Departments of Industry, Tourism and Investment (ITI) and Environment and Natural Resources (ENR) provides staff services in support of the ESRF board secretariat. ITI staff manages the Legislative reporting responsibilities and the revenue collection of the fund and ENR provides the secretariat staff that is required to administer the research programs and the expenditure management of the Board and the fund.

Infrastructure

Asset Management

Activity Description

The Asset Management activity includes the planning and design of buildings and works, highways, marine facilities, and airports throughout the Northwest Territories on behalf of the GNWT. This activity includes the delivery of operations, maintenance, and project management services to ensure that client needs are met and facility life cycle costs are minimized. Asset Management functions support regional operations by providing technical support on: planning; technical expertise for program and design standards; leasing options and space management; evaluations and commissioning; production of granular materials; environmental site remediation assessment, planning, and coordination; project management support; risk assessment; and overall general technical support to ensure regional operations can be successful.

Descriptions of Contributions

Alternative Energy Program (150) - Funds are provided to assist communities, businesses and residents to install renewable energy systems.

Arctic Energy Alliance (1,600) - Contribution to deliver energy management programs on behalf of the Government of the NWT.

Biomass Energy (200) - This program will support new initiatives to assist increased use of modern wood burning technologies to heat homes and buildings in communities.

Business Support Program/CECEP (200) - This program is designed to help businesses in the NWT implement renewable energy and energy efficiency projects.

Community LED Swap-Out Program - One-time funding to trade low efficiency light bulbs with light emitting diode bulbs in NWT communities.

Community Government Retrofits (200) - Contribution to Arctic Energy Alliance to administer a program to perform energy audits and retrofits to community government buildings.

Community Government Solar - One-time funding for solar panels on community government buildings.

Community Renewable Energy Program (100) - Contribution to Arctic Energy Alliance to administer a program to provide application based grants to NWT communities for renewable energy projects.

Condo Corporation Biomass - One-time funding to condominium corporations to install biomass.

Electricity System Analysis (30) - For electricity rates advisory and analysis services.

Energy Efficiency Incentive Program (EEIP) (100) - The energy conservation program provides financial assistance to support projects that reduce our usage of electrical and heat energy, and water.

Energy Guide for Houses (190) - The program provides funding to Arctic Energy Alliance to assist homeowners and businesses to complete energy efficiency audits.

Energy Information & Awareness - One-time funding for energy information and communication.

Energy Rating Service Follow up Rebate - One-time funding to follow-up on energy rating service recipients.

HVAC Re-Commissioning Commercial - One-time funding to maintain and repair commercial heating, ventilation and air conditioning systems.

HVAC Re-Commissioning Communities - One-time funding to maintain and repair community government heating, ventilation and air conditioning systems.

Infrastructure

Programs and Services

Grants, Contributions and Transfers

NWT Electricity System - Funding used for follow-up work associated with the Electricity Review and to support the development of NWT Energy Plan.

Wood Stove Purchase - Install efficient wood stoves for community residents.

Alternative and Renewable Energy Research (70) - This funding will be used for academic or leading edge R&D work to push the technology envelope for remote community energy research in line with the 2030 Energy Strategy Objectives.

City of Yellowknife Transportation - Funding used for the City of Yellowknife to implement more energy efficient transportation.

Data Logging and Monitoring - Funding agreement with Northwest Territories Power Corporation (NTPC) to acquire remote monitoring and data logging equipment for the Colville Lake battery storage facility.

NWT Generator Efficiency (300) - The department is working with NTPC to integrate residual heat, variable speed generators and other energy efficiency technologies that can reduce fossil fuel consumption in power plants.

Pellet Storage Shed - Funding provided to the Rat River Development Corporation to construct a wood pellet storage shed for the biomass heating system in Fort McPherson to heat the Tetlit Gwich'in Office and the Community Health Centre.

Quyta Lake Gauge Water Survey of Canada (10) - Service fees to install and maintain a flow meter at the outlet of Quyta Lake on the Yellowknife River.

Snare Snowpack Study - University researchers are reviewing and modifying the methods for sampling snow pack water equivalence data in the North Slave region.

Solar Report Card Project - Funding to provide an inventory of existing solar power installations in the NWT.

Tree Ring Hydrology Study (30) - Field work to collect core samples of jackpine trees in the north slave will provide a long term data set to compare against water level information over the last 30 years and potentially build in up to 200 years of historical data on water levels in the Snare system.

Whati Biomass Heating - To provide biomass district heating in Whati.

Wind Monitoring - Aurora Research Institute (40) - ARI coordinates the installation of monitoring and data gathering equipment for testing the wind potential of specific sites of interest to the GNWT.

Chargeback
(Information Item)

The Technology Service Centre (TSC) is responsible for providing information technology support and services to meet the business objectives of the GNWT, including delivering programs to NWT residents and maximizing the effectiveness of GNWT employees.

Primary TSC services provided include computer workstation upgrades and support, electronic mail, file management, Internet access, and application hosting. The foundation for these services is the Wide Area Network managed by the TSC. Education boards, Aurora College and some Health Authorities receive a subset of these services.

The TSC recovers its costs from GNWT departments through chargeback agreements using rates approved annually by the Financial Management Board. The rates reflect the infrastructure, human resources, licensing and maintenance costs to provide these services.

Descriptions of Work Performed on Behalf of Others

Airline Glycol Recovery (50) - An agreement with Air Canada, First Air, West Jet and Canadian Airlines who use Glycol (De-icing fluid) to ensure no ice build up on the aircrafts. The Department charges these airlines to dispose of the Glycol.

Beaufort-Delta Divisional Education Council - Leasing Services (140) - Through a Memorandum of Agreement with the Beaufort-Delta Education Board, the Department of Infrastructure provides direct services by leasing office space. Costs incurred by the department on behalf of the education board are recovered through chargeback.

Canadian Northern Economic Development Agency (CanNor) - The Government of Northwest Territories has signed a multi year funding agreement with CanNor for the Wind Farm Design and Engineering Feasibility for high penetration, utility-integrated, wind turbine project in Inuvik.

Gwich'in Land Claim Implementation (5) - Under the terms of a 10-year Bilateral Funding Agreement between the Department of Indigenous and Northern Affairs Canada (INAC) and the Government of the Northwest Territories (GNWT), INAC will provide funding to the GNWT to assist with Gwich'in implementation activities pursuant to the Gwich'in Implementation Plan.

Infrastructure

Work Performed on Behalf of Others

(Information Item)

Hay River Access Corridor (70) - The Department of Infrastructure has signed a Memorandum Of Understanding (MOU) with the Town of Hay River. This MOU approves the Department to incur expenditures on behalf of the town for the maintenance of 5.2 kilometers of road known as the Hay River Corridor. The Town will reimburse the Department for cost of this maintenance.

Healthy Family Centre - YHSSA - Project management services provided by the Department of Infrastructure for kitchen renovations at the Healthy Family Centre.

Hold Baggage System - Yellowknife Airport (93) - An agreement with the airlines to have Yellowknife Airport's janitorial staff assist with baggage un-jamming.

National Safety Code (153) - On behalf of Transport Canada, this agreement provides funding for the monitoring and enforcement of standards under the National Safety Code (NSC) with respect to commercial motor carriers. The Standard Funding Agreement supports the delivery function of the NSC program in the NWT.

REACHE Funding (350) - The Government of the Northwest Territories has signed a funding agreement with Department of Indigenous and Northern Affairs Canada for a number of Energy Projects including: community wood stoves, Wha Ti solar energy for seniors housing complex, a solar energy power system in Tulita, and wind diesel feasibility in Sachs Harbour and Norman Wells. □

Remote Monitoring and Data Logging - Department of Infrastructure has received funding from NRCan through a letter of agreement for the acquisition and installation of a remote monitoring and data logging package for the Colville Lake Solar-Diesel-Battery system.

Royal Canadian Mounted Police (8,000) - Through a Memorandum of Agreement (MOA) with the RCMP, the Department of Infrastructure will provide maintenance and utility management services along with minor project management services for commercial and residential properties in the Northwest Territories. This MOA will be in effect until mutually renewed, amended or terminated. □

Sahtu Land Claim Implementation (5) - Under the terms of a 10-year Bilateral Funding Agreement between INAC and the GNWT, INAC will provide funding to the GNWT to assist with Sahtu implementation activities pursuant to the Sahtu Implementation Plan.

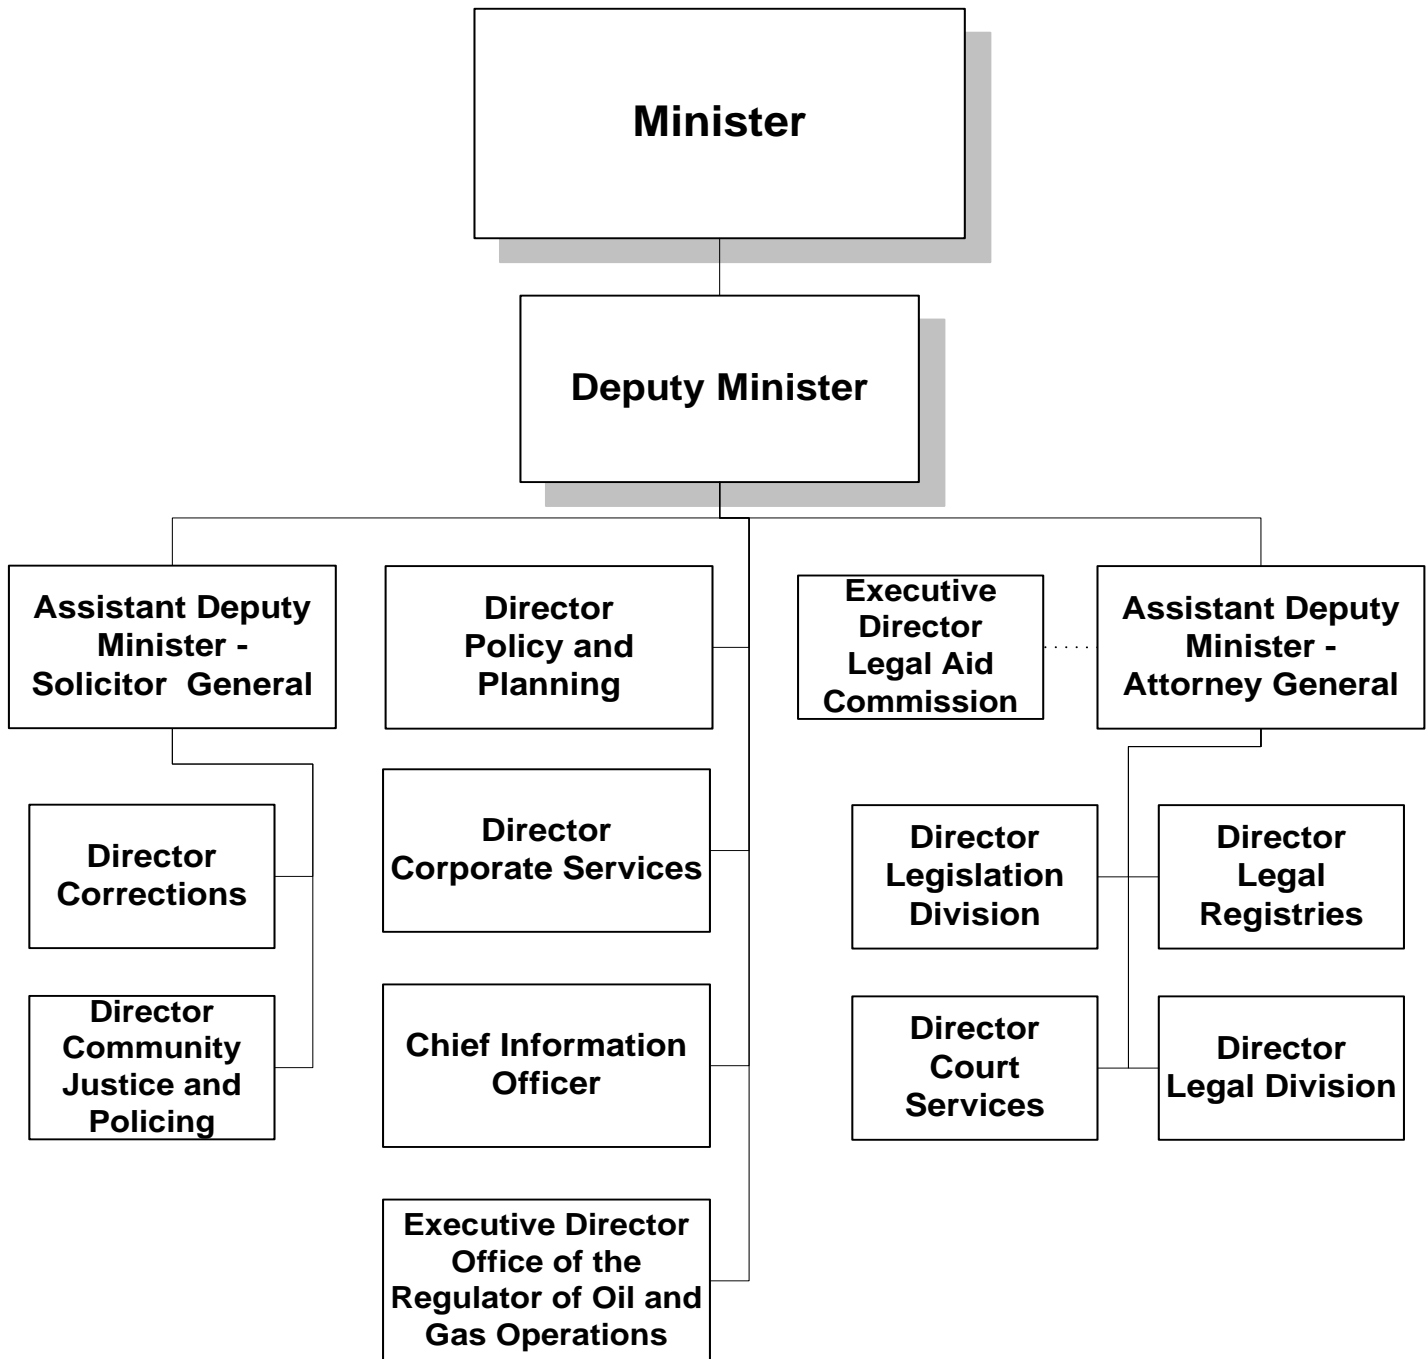

Tłıchǵ Agreement Implementation Funding (46) - Under the terms of a 10-year Bilateral Funding Agreement between INAC and the GNWT, INAC will provide funding to the GNWT to assist with Tłıchǵ implementation activities pursuant to the Tłıchǵ Implementation Plan.

The Alberta Road Maintenance (506) - The Alberta Road Maintenance program is for the maintenance of 50.9 kilometers of highway in northern Alberta. This road is a continuation of NWT Highway #5 in the Fort Smith area connecting to the community of Fort Fitzgerald and the Wood Buffalo National Park Highway system. The Department has a Memorandum of Understanding with the Regional Municipality of Wood Buffalo, (Fort McMurray), to maintain the Fort Fitzgerald road and the Regional Municipality of Wood Buffalo pays for the work.

Wood Buffalo National Park (1,500) - An Agreement with Parks Canada for the maintenance of approximately 117 km of Highway #5 within the Wood Buffalo National Park.

Community Justice and Policing

Activity Description

The Community Justice and Policing Division provides support to communities to develop and implement sustainable local justice programming in the areas of restorative justice, victim services, community policing and crime prevention. This includes the diversion program where communities assist youth and adults to deal with matters outside the formal justice system. Support is also provided to communities to enhance crime prevention activity at the local level. The Division also has the lead on the GNWT Integrated Case Management (ICM) pilot project, provides supports under the *Protection Against Family Violence Act* and works closely with the RCMP on policing priorities and community safety initiatives.

Corrections

Activity Description

The Corrections Service provides safe custody and supervision of adult and youth offenders. This is achieved through the operation of correctional facilities and the supervision of offenders sentenced to community based orders such as conditional sentences and probation orders. The Corrections Service also delivers culturally relevant programs to support offender rehabilitation and reintegration, including wilderness programming and Elder support.

Justice

Court Services

Activity Description

The NWT has four levels of court which collectively represent the judicial branch of government: Court of Appeal, Supreme Court, Territorial Court and Justice of the Peace Court. The courts are independent of the executive (GNWT departments/boards) and legislative (Legislative Assembly) branches of government. The Court Services Division is responsible for providing administrative support to the courts through the Court Registry, and the Sheriff's Office. These support services ensure courts are accessible, impartial and timely. The Division is also responsible for family law services, including mediation and the Parenting After Separation Program.

Informatics Shared Service Centre

Activity Description

The Informatics Shared Service Centre (ISSC) leads the planning, development and implementation of information and technology-related services and solutions for the Departments of Environment and Natural Resources, Industry Tourism and Investment, and Lands as well as the Office of the Regulator of Oil and Gas Operations, and the Business Development and Investment Corporation. ISSC delivers professional, high quality, proactive, and innovative service and support that enables clients to provide effective, efficient and relevant programs and services. The ISSC is comprised of four divisions.

The NWT Centre for Geomatics provides geomatics, remote sensing, and geographic information systems services throughout the GNWT.

The Information Services division supports client departments in all areas of recorded information management including the development of department-wide policies and standards, and facilitating the records storage, retrieval, and disposition processes.

The Information Systems and Technology division provides help-desk support for ready-made and custom developed information systems, and provides application support such as system maintenance, upgrades, and disaster recovery planning to their clients.

The Projects and Planning division leads efforts related to information systems projects and the introduction of new web tools and technology for client departments. This division oversees project planning and prioritization functions for systems and web initiatives.

Operations

Activity Description

Operations activities are carried out through two land administration divisions in Yellowknife and five regional offices. Land management, enforcement and compliance programs control, manage, and administer all public lands in the Northwest Territories, on behalf of the Commissioner of the NWT, pursuant to the appropriate land and water legislation, policies, and procedures.

Land Administration provides the overall leadership, management, expertise, and development of operational policies and procedures for territorial and Commissioner's land administration.

Commissioner's Land Administration manages Commissioner's land under the *Commissioner's Land Act* and Regulations. Territorial Lands Administration manages territorial lands under the *Northwest Territories Lands Act* and Regulations pertaining to surface rights. Responsibilities for territorial and Commissioner's land administration include maintaining land inventories, managing and administering leases and other dispositions of land, land valuation, quarry permits, securities, processing survey applications, land tenure administration, record keeping, maintaining the land databases, revenue collection, and unauthorized use and occupancy processes.

The Resource Management units in regional offices inspect all types of land use from diamond mines to activities related to cabin construction. This includes inspecting land leases, land use and quarry permits, mineral claims, and water licences at diamond mines; investigating potential unauthorized uses of land; conducting hazardous materials and spills inspections and inspections of abandoned sites that are undergoing remediation by the GNWT; and issuing trespass notices and warning letters or orders, for unauthorized occupancy or violations of the permits or licences issued by the land and water boards.

Planning and Coordination

Activity Description

Planning and Coordination performs an interdepartmental and intergovernmental role in coordinating Government of the Northwest Territories' input and decision making in the NWT integrated resource management regime.

The Policy, Legislation and Communications (PLC) division provides intergovernmental coordination for input into federal amendments to the *Mackenzie Valley Resource Management Act (MVRMA)* and its regulations, development of new regulations under the MVRMA, and represents the Department on intergovernmental working groups. PLC also provides overall leadership and strategic advice on all policies, planning initiatives, legislation, and communications and coordinates responses to Access to Information and Protection of Privacy requests for the Department.

The Land Use and Sustainability division is responsible for land use initiatives, including land use planning, on behalf of the GNWT, develops processes to support balanced decision making, and develops and recommends policy for the management, administration, and sustainable use of land to ensure maximum benefit to the people of the NWT.

The Securities and Project Assessment division is responsible for the overall coordination of GNWT participation in environmental impact assessment processes, support for GNWT Ministers' environmental assessment decisions, and management of land and water securities.

Municipal and Community Affairs

Regional Operations

Activity Description

Regional Operations are responsible for the coordination, implementation and delivery of most of the Department's programs and services to community governments and other stakeholders at the regional level. Regional staff provide advice and support to community governments on a range of issues and topics. They advise community governments on governance, budgeting, debt recovery, and sound financial management and reporting. They support community governments in the planning exercises for land use, emergency management, capital investment and asset management. They have a key role as the primary contact working with community governments to support them in developing good governance and operational practices. They also play a role with other government agencies in an effort to support the community governments. Regional Operations holds responsibility for the delivery for federal infrastructure programs. Implementation of the programs, oversight and reporting on use of federal funds is primarily collected through the regional offices with support from headquarters.

Activity Description

The School of Community Government (SCG) supports community government capacity building for community elected officials and community government staff. The SCG provides training, development opportunities and resources in broad areas of community government responsibilities including: governance, management, finance, infrastructure, bylaw enforcement, fire protection, water and waste water, emergency management, recreation, asset management and first responder. The SCG provides an integrated approach to local governance capacity building through partnerships with government departments, Aboriginal and territorial organizations, professional associations, and educational institutes. The SCG also manages several support programs that include occupational standards, certification, training needs assessments, and the Public Sector Capacity Initiative.

Sport, Recreation and Youth

Activity Description

Sport, Recreation and Youth provides advice and assistance regarding sport, physical activity and recreation and represents the GNWT in its work with non government organization stakeholders. The activity also coordinates volunteer recognition and development programs.

The Minister Responsible for Youth is now the Minister of Education, Culture and Employment. The Youth section has developed a collaborative approach to promote youth development initiatives and works with the Department of Education, Culture and Employment on the alignment of programs aimed at NWT youth.

The Community Services is a new section that was created through a divisional restructuring to improve support for community recreation programs.

The Northwest Territories Lottery Commission manages and operates the Western Canada Lottery Program in the Northwest Territories and the operation of the Physical Activity, Sport and Recreation Fund.

NWT Housing Corporation

Community Housing Services

Activity Description

The NWTHC operates approximately 2,800 rental housing units in 32 communities across the Northwest Territories including subsidized public housing and affordable housing units. The Local Housing Organizations (LHOs) provide, under an agency agreement with the NWTHC, property management services including the allocation of units, the assessment and collection of rents, and the provision of preventative and demand maintenance services. In addition, LHOs provide assistance and support to housing clients in accessing NWTHC homeownership programs. Each LHO has an advisory board to oversee their operations.

The Community Housing Services key activities include resources to operate the NWTHC rental housing portfolio including LHO contribution funding for administration, maintenance, apprentices, and training and support workshops. Also included in this activity are the cost of utilities, leasing of supplemental housing units and LHO office and warehouse space, LHO audit fees, minor modernization and improvements and property tax and land lease fees that are paid centrally by the NWTHC.

NWT Housing Corporation

Programs and District Operations

Activity Description

The Programs and District Operations activity oversees the development, implementation, monitoring, and delivery of programs and initiatives that support the NWT HC's responsiveness to housing needs in the NWT. The Branch provides corporate support, training, and oversight to the NWT HC's five District Offices for the delivery of housing programs and services in order to ensure a continuity of approach to program delivery.

The Program Development and Implementation division works closely with District Offices and LHOs to ensure compliance with existing program policies and procedures. This section also develops and updates ongoing operational policies and procedures to ensure housing programs remain updated and responsive, and to ensure that District Offices and LHOs have the support, training and capacity required to effectively and efficiently deliver the NWT HC's programs and services.

District Operations is responsible for the administration of district capital, program delivery, maintenance, training, assisting in land acquisitions and development, and working closely with stakeholders at the community level. In addition, they also work with LHOs and NWT residents to identify options for programming to assist individuals and families in decision making regarding their housing needs. This assistance includes the delivery of the Corporation's Providing Assistance for Territorial Homeownership (PATH), Contributing Assistance for Repairs and Enhancements (CARE), Contributing Assistance for Repairs and Enhancements Preventive Maintenance (CARE PM), Contributing Assistance for Repairs and Enhancements Mobility for Seniors (CARE Mobility), and Securing Assistance for Emergencies (SAFE) homeownership programs.

Appendix A - Glossary

Valuation Allowance

An amount recorded to recognize the potential reduction in value of a recorded financial asset or non-financial asset due to the recorded amount not likely to be fully recovered or fully realized. The valuation allowance is an offset to the recorded amount of the asset to determine the carrying value, net book value, or net realizable value of the related asset.

Work-in-progress (WIP)

An account used to record capital expenditures prior to the applicable tangible capital asset being substantially complete or put into service.

Work Performed on Behalf of Others

The Government undertakes to perform certain functions in the Northwest Territories on behalf of the Government of Canada or others. Funds expended for these activities are fully recovered and are not required to be appropriated by the Legislative Assembly.

Appendix B - Budget Development Process

1. Fiscal Strategy Development

Under the direction of the Minister of Finance, the Department of Finance prepares a multi-year fiscal framework. The framework is an overview of the projected financial position of the government based on a set of assumptions about revenues, expenditures, and federal transfer payments.

In the development of a fiscal strategy, the framework is used as a modeling tool to project the fiscal position of the government, assuming current policies and trends are maintained, as well as alternate positions based on various policy changes, new policies and new initiatives. This allows the Financial Management Board and the Executive Council to assess whether the current mix of expenditures and taxes are appropriate. If the mix cannot be sustained, or change is desired for policy reasons, it allows for an evaluation of alternatives in expenditures, taxation, and borrowing.

Based on the government's current financial position, program objectives and the fiscal alternative chosen, targets for each department are approved by the Financial Management Board and instructions are issued to departments for the development of multi-year business plans.

2. Business Plan Development and Review

The multi-year business planning approach links strategic planning with resource allocation. The business planning process includes setting goals, developing strategies to achieve the goals, and establishing targets and outcome measures. The Executive Council approves a Business Plan, which sets goals and strategic priorities for the Government. The departmental business plans are developed to support the overall Government's goals. As part of the process, departments identify the challenges and pressures confronting them, and map out how to meet those challenges within available resources. Business Plans identify key strategies that each department will implement to achieve its goals, and also identify outcome measures and targets to be achieved.

Business plans focus on two areas of expenditures: Operations and Infrastructure.

a) Operations Expenditures

The Financial Management Board establishes departmental planning targets. Individual departments develop and document projections of forced expenditure growth in existing programs on the basis of demographics or utilization trends, possible expenditure reductions, required service level increases and other anticipated changes for each departmental program. This is done in accordance with Financial Management Board instructions.

New or expanded programs are justified in relation to government priorities, policy directives, and/or changes to industrial norms or national standards.

Departmental business plans are submitted for review, analysis, and compilation by the Departments of the Executive and Finance before presentation to the Executive Council and Financial Management Board. They are then referred to Legislative Standing Committees for review.

b) Infrastructure Investment

In the 2009-10 fiscal year, the Government moved the consideration of the Capital Plan to the fall session of the Legislative Assembly. The capital planning process provides for one capital investment target with all Departmental projects competing for the available funding. The result is that projects are prioritized on a government wide basis versus a departmental basis.

Appendix B - Budget Development Process

The capital planning process for each planning cycle starts with community consultations. Community consultations are conducted to ensure communities are:

1. Consulted annually on their capital needs;
2. Provided explanations on the allocation of resources to capital investment; and the application of priority criteria along with the political and other influences on the process will be provided; and,
3. Provided direct feedback on the consultations, including feedback to communities on the inclusion or exclusion of community projects in the capital plan or capital needs assessment; and if requested, a follow-up meeting with the communities to explain the capital plan and disposition of their proposed projects.

The results from community consultations are taken into consideration in the development of the initial capital needs assessments completed by departments. Projects included in the first five years of the needs assessment are then rated against a common set of criteria.

The rating of the proposed Infrastructure projects and the available funding are taken into consideration in developing a preliminary Infrastructure acquisition plan. The preliminary plan is first reviewed by a Deputy Ministers Steering Committee and secondly by the Financial Management Board prior to a review by Standing Committees and the final approval when presented in the Main Estimates to the Legislative Assembly. Changes to the plan can be effected through any of the reviews prior to final approval.

3. Main Estimates Development Process

Once the business plans and infrastructure acquisition plan have been reviewed by Standing Committees, departments proceed to prepare their annual estimates.

There is a minimum level of detail required in the development of the Main Estimates. Departments may budget at more detailed levels for internal purposes, as deemed necessary. Each department is responsible for the development of their budget. In this development, a minimum level of detail is established which will meet the requirements of the Main Estimates and provide for the budget to be loaded into the System for Accountability and Management (SAM).

The Department of Finance coordinates all departmental information to produce the Main Estimates and it is responsible for coordinating the input of the budget into SAM once it is approved by the Legislative Assembly.

The Main Estimates are reviewed by the Department of Finance for uniformity, consistency of presentation and adherence to targets and guidelines. The Financial Management Board then approves the Draft Main Estimates for forwarding to the Legislative Assembly Standing Committees for their review prior to the commencement of the Budget Session.

4. Budget Address Development

Under the direction of the Minister of Finance, the Department of Finance drafts the text of the Budget Address.

The Budget Address includes an outline of current trends and anticipated developments, and identifies the Government's plan of action related to its established strategies and priorities, for the upcoming fiscal year.

In addition, the Budget Address highlights new tax and program initiatives and their expected impacts on the economy and Government revenues or expenditures.

Appendix B - Budget Development Process

5. *Presentation to the Legislative Assembly*

Following the presentation of the Budget Address to the Legislative Assembly by the Minister of Finance, the Main Estimates are tabled in the Legislative Assembly. After the Legislative Assembly has completed its review, the Assembly approves the *Appropriation Act (Operations Expenditures)* for the fiscal year.

6. *Preparation and Entry of Approved Budgets into the System for Accountability and Management*

The departments are required to provide the detailed data and coding structure, in a format established by the Department of Finance, for entry of the budget into the System for Accountability and Management.

The actual transfer is automated and is organized so that departmental budgets are in place on April 1.

7. *Variance Reporting - Monitoring of Expenditures and Revenues against Budgets*

During the course of the year, the System for Accountability and Management produces monthly reports comparing year-to-date revenues and expenditures to the year-to-date budget.

Departments must respond monthly to the Financial Management Board on the status of their expenditures and revenues, as compared to budget, and provide projections to year-end.

The variance information and revised year-end projections, obtained through the expenditure and revenue monitoring mechanisms, are used during the year to monitor actual performance against the Government's fiscal framework and anticipate requirements for supplementary appropriations and any incremental borrowing.

8. *Supplementary Estimates*

During the course of the year, increases may be required to a department's spending authority. This is accomplished by way of Supplementary Estimates or Special Warrants. They are presented to the Legislative Assembly for approval during regular sittings of the Assembly.

Upon approval of Supplementary Estimates by the Legislative Assembly, budget entries are prepared and entered into the System for Accountability and Management.

9. *Special Warrants*

In emergency situations, the Financial Management Board may recommend a Special Warrant to the Commissioner for spending authority, to allow a department to respond quickly to a new or unforeseen need that meets the criteria as defined by the *Financial Administration Act*.
