

MLA Robert Hawkins Timeline Recent

The #NWT Minister of MACA (Municipal and Community Affairs) has agreed to revisit the 911 Issue and when they are ready, they will bring it forward to the Assembly/Committees.

He committed to sending me a letter to show that they are finally working on this issue and in my view, we are truly making a real step forward on the 911 issue for all Northerners.

Well the #NWT Speaker ruled against me and he felt my words were to harsh for the Minister of Health.

First off, I am happy to withdraw them fully. But it should be said it is difficult if not enormously challenging not to be passionate about the job we are doing here. And when the Minister cannot do his job, I question why they are left there at the cost of all Northerners.

One serious challenge for me is, should it not be my job to call the Minister out when he won't or cannot do his job. And at the same time, isn't it in many ways the greater crime to ignore that fact.

- Cindy Rowe I would much rather have a passionate man with both a voice and an opinion, standing up and protecting my city and our tax dollars, than a YES MAN sittng in a government chair
