

**LEGISLATIVE ASSEMBLY OF THE
NORTHWEST TERRITORIES
6TH COUNCIL, 40TH SESSION**

TABLED DOCUMENT NO. 11-40

TABLED ON OCTOBER 9, 1969

TABLED DOCUMENT NO. 11-40

Tabled on Oct. 9, 1969
November 27, 1969.

From the community council of Belcher Island to the government of the N.W.T. we would like to be told as to the houses we need here.

We have hear that the government in Ottawa will not be putting anymore houses for us in 1970 but they told us in 1969 that we would get our houses and that we would get 10 houses but we did not get the houses.

We have had lot of people going out to the hospital because of no houses and the get sick and have to go out at this time we have 18 people out in the hospital because these people have to live in tents in the winter and it's cold so they get sick we think if the people have houses to live in it would be better.

Also the children here have to go out to school to another place and some of them are very small and their father and mothers are not happy about this and so we the community council would like to help these people but we need a bigger school and we would like to know if we can get a bigger school so it would be better for the people and that they would not have to worry too much about their childrens been away from home.

We would like to know if in 1970 we will be getting any houses at all and if you people would let us know we would be happy to know we know there are other communitys that get houses every year and we out here would like to get our houses we have about 231 people here at Belcher Island but there are lots of people here who don't have houses and we would like to help these people to get houses here so we would like to hear from you about this.

From the
community council
Belcher Island N..W.T.
