**THE HONOURABLE ANTHONY W. J. WHITFORD  
COMMISSIONER OF THE NORTHWEST TERRITORIES**

I am pleased to present the Interim Financial Report of the Government of the Northwest Territories for the year ended March 31, 2008. The report is presented in accordance with subsection 51(3) of the *Financial Administration Act*.

J. Michael Miltenberger

Financial Management Board Secretariat  
Yellowknife, NT  
September 2008

**THE HONOURABLE J. MICHAEL MILTENBERGER  
MINISTER OF FINANCE**

I am pleased to present the Interim Financial Report of the Government of the Northwest Territories for the year ended March 31, 2008. The report is submitted pursuant to subsection 51(3) of the *Financial Administration Act*.

This is a preliminary unaudited report of the Government's operating results, on a non-consolidated basis, for the year ended March 31, 2008. The final version of this report, presented in the Public Accounts, Section II, is also unaudited and will be consolidated into the Government's audited financial statements, presented in the Public Accounts, Section I. Until the Government completes the consolidated financial statements, the preliminary information in this report may change.

I acknowledge the co-operation and assistance provided by the Departments and Regions. I also extend my thanks to the staff of Government Accounting for their support and assistance in the preparation of the Interim Financial Report.

Margaret Melhorn  
Comptroller General

March 31, 2008

(All figures in thousands of dollars)

---

### 1. AUTHORITY, OPERATIONS AND REPORTING ENTITY

#### (a) Authority and operations

The Government of the Northwest Territories (the Government) operates under the authority of the *Northwest Territories Act* (Canada). The Government has an elected Legislative Assembly which authorizes all disbursements, advances, loans and investments unless specifically authorized by statute.

#### (b) Reporting entity

The Government prepares consolidated financial statements. They are presented in Section I of the Public Accounts and provide an accounting of the full nature and extent of the financial affairs and resources for which the Government is responsible. The consolidated reporting entity is defined in those statements. These financial statements have been prepared on a non-consolidated basis to show the operating results of the Government separate from the entities included in the consolidated financial statements.

These financial statements include the assets, liabilities and operating results of the Government and its revolving funds. Revolving funds are established by the Government to provide the required working capital to deliver goods and services to the general public and to Government departments.

The following related Territorial Crown Corporations, boards and agencies are included in these statements only to the extent of the Government's contributions to, or revenues from, them:

- Aurora College
- Divisional Educational Councils and District Education Authorities
- Hospitals and Regional Health Boards
- Northwest Territories Business Development and Investment Corporation
- Northwest Territories Housing Corporation
- Northwest Territories Human Rights Commission
- Northwest Territories Hydro Corporation
- Northwest Territories Power Corporation
- Northwest Territories Opportunities Fund
- Status of Women Council of the Northwest Territories
- Tlicho Communities Services Agency

Detailed financial information for a number of revolving funds and Territorial Crown Corporations, Boards and Public Agencies is included in Section III of the Public Accounts. The balance are available from the individual entities.

#### (c) Main Estimates

The main estimates are the appropriations approved by the Legislative Assembly. They represent the Government's original fiscal plan for the year and do not reflect Supplementary Appropriations.

The estimated supplementary requirements and the estimated appropriation authority lapse are included in the Main Estimates on the statement of operations and accumulated surplus. They are included for the purpose of comparing the actual operating surplus (deficit) to the estimated operating surplus (deficit).

#### 2. SIGNIFICANT ACCOUNTING POLICIES

##### (a) Measurement Uncertainty

The preparation of financial statements in accordance with Canadian generally accepted accounting principles requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenses reported in the financial statements. By their nature, these estimates are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these statements, the Government believes the estimates and assumptions to be reasonable.

The more significant management estimates relate to employee future benefits, environmental liabilities, contingencies, revenue accruals, Students Loan Fund allowances for both forgivable and delinquent loans, and amortization expense. Other estimates, such as the Canada Health Transfer and Canada Social Transfer payments and Corporate and Personal Income Tax revenue are based on estimates made by Canada's Department of Finance and are subject to adjustments in future years.

##### (b) Cash and cash equivalents

Cash and cash equivalents are comprised of bank account balances net of outstanding cheques and short-term highly liquid investments that are readily convertible to cash with a maturity date of 90 days or less from the date of acquisition.

##### (c) Portfolio investments

Portfolio investments are long-term investments in organizations that do not form part of the government reporting entity and are accounted for by the cost method. Such investments are normally in shares and bonds of the investee. When there has been a loss in value of a portfolio investment that is other than a temporary decline, the investment is written down to recognize the loss and is included as a component of investment income. Interest income is recorded on the accrual basis, dividend income is recognized as it is declared, and capital gains and losses are recognized when realized.

##### (d) Inventories

Inventories for resale consist of bulk fuels and liquor products. Bulk fuels are valued at the lower of weighted average cost and net realizable value. Liquor products are valued at the lower of cost and net realizable value. Other inventories are valued at the lower of cost, determined on a first in, first out basis and net replacement value.

##### (e) Prepaid expenses

Prepaid expenses are advance payments made prior to year end to meet April 1 deadlines or a portion of a payment, such as insurance or licensing fees, related to future years.

##### (f) Loans receivable

Loans receivable and advances are stated at the lower of cost and net recoverable value. Valuation allowances, which are recorded to reduce loans receivable, are based on past events, current conditions and all circumstances known at the date of the preparation of the financial statements. Interest revenue is recorded on an accrual basis. Interest revenue is not accrued when the collectibility of either principal or interest is not reasonably assured.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2008

(All figures in thousands of dollars)

---

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

##### (g) Investment in the Northwest Territories Hydro Corporation

The Northwest Territories Hydro Corporation and its subsidiaries are wholly owned and accountable to the Government, and provide utility services in the Northwest Territories. The net assets of the Corporations have been recorded at nominal value.

##### (h) Non-financial assets

Tangible capital and other non-financial assets are accounted for as assets by the Government as they can be used to provide government services in future periods. These assets do not normally provide resources to discharge the liabilities of the Government unless they are sold.

##### (i) Tangible capital assets and leases

Tangible capital assets are buildings, roads, equipment, etc. whose life extends beyond the fiscal year, original cost exceeds \$50 and are intended to be used on an ongoing basis for delivering services. Individual assets less than \$50 are expensed when purchased.

Tangible capital assets are recorded at cost, or where actual cost was not available, estimated current replacement cost converted back to the date of purchase by discounting current year dollars for inflation. Gifted and cost shared tangible capital assets from the Government of Canada are recorded at fair market value upon receipt, with the gifted or cost shared portion shown as a deferred capital contribution. This deferred capital contribution is amortized as revenue on the same basis as the related asset is amortized. Tangible capital assets, when placed in service are amortized on a straight line basis over their estimated useful life as follows:

Asset category	Amortization period
Land	Not amortized
Roads and bridges	40 years
Airstrips and aprons	40 years
Buildings	40 years
Ferries	25 years
Water/sewer works	15 - 25 years
Mainframe and software systems	5 - 10 years
Mobile and heavy equipment	7 - 15 years
Major equipment	5 - 15 years
Medical equipment	5 - 15 years
Leasehold improvements	Lesser of useful life or lease term plus renewal option

Tangible capital assets under construction or development are recorded as work in progress with no amortization until the asset is placed in service. Capital lease agreements are recorded as a liability and a corresponding asset based on the present value of any payments due. The present value is based on the specified rate or the government's borrowing rate at the time the obligation is incurred. Operating leases are charged to expense. Works of art, historical treasures and crown lands are not recorded.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2008

(All figures in thousands of dollars)

---

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

##### (j) Pensions and other employee future benefits

All eligible employees participate in the Public Service Pension Plan administered by the Government of Canada. The Government's contributions are charged as an expense on a current year basis and represent the total pension obligations. The Government is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Pension Plan.

Pension benefits to Members of the Legislative Assembly and judges are reported on an actuarial basis. This is done to determine the current value of future entitlement and uses various estimates. When actual experience varies from estimates, the adjustments needed are amortized on a straight line basis over the estimated average remaining service lives of the contributors.

Under the terms and conditions of employment, government employees may earn non-pension benefits for resignation, severance and removal costs based on years of service. The benefits are paid upon resignation, retirement or death of an employee. The expected cost of providing these benefits is recognized as employees render service. Termination benefits are also recorded when employees are identified for lay-off. The cost of the benefits has been determined based on management's best estimates using expected compensation levels and employee leave credits.

##### (k) Commitments and contingencies

The nature of the Government's activities requires entry into contracts that are significant in relation to its current financial position or that will materially affect the level of future expenses. Contractual obligations pertain to operating, commercial and residential leases, capital projects, and operational funding commitments. Contractual obligations are obligations of a government to others that will become liabilities in the future when the terms of those contracts or agreements are met.

The contingencies of the Government are potential liabilities, which may become actual liabilities when one or more future events occur or fail to occur. If the future event is considered likely to occur and is quantifiable, an estimated liability is accrued. If the occurrence of the confirming future event is likely but the amount of the liability cannot be reasonably estimated, the contingency is disclosed. If the occurrence of the confirming future event is not determinable, the contingency is disclosed.

##### (l) Projects on behalf of third parties

The Government undertakes projects for the Government of Canada, the Government of Nunavut and others. Where possible the Government receives accountable advances and any unexpended balances remaining at year end are recorded as current liabilities. Recoveries are accrued when expenses, as allowed under the project contract, exceed advances.

##### (m) Grant from the Government of Canada

The Grant from the Government of Canada is calculated based on a three-year moving averages of personal and corporate income taxes (with a two year delay), fuel taxes, tobacco tax and alcoholic beverage revenues, changes in national average tax rates, population changes and the growth in provincial/local government spending. The Grant is estimated once for each fiscal year and is not revised.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2008

(All figures in thousands of dollars)

---

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

##### (n) Transfer payments

Government transfers are recognized as revenue in the period in which the events giving rise to the transfer occurred, as long as the transfer is authorized, eligibility criteria have been met and a reasonable estimate of the amount can be made.

##### (o) Taxes and general revenues

Corporate and Personal Income tax revenue is recognized on an accrual basis. Taxes, under the *Income Tax Act*, are collected by the Government of Canada on behalf of the Government under a tax collection agreement. The Government of Canada remits these taxes monthly based on Canada's Department of Finance's estimates for the taxation year, which are periodically adjusted until the income tax assessments for that year are final. Income tax estimates, determined by the Government of Canada, combines actual assessments with an estimate that assumes that previous years' income tax allocation will be sustained and are subject to revisions in future years. Differences between current estimates and future actual amounts can be significant. Any such differences are recognized when the actual tax assessments are finalized.

Fuel, tobacco, payroll and property taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act*, the *Payroll Tax Act*, and the *Property Assessment and Taxation Act*, respectively. Fuel and Tobacco Tax revenues are recognized on an accrual basis, based on statements received from collectors. Payroll Tax is recognized on an accrual basis, based on revenue of the prior year. Property tax and school levies are assessed on a calendar year basis and are recognized in the fiscal year in which the billing occurs. Adjustments arising from reassessments are recorded in revenue in the year they are identified. All other revenues are recognized on an accrual basis.

##### (p) Expenses

Grants and contributions are recognized as expenses in the period in which the events giving rise to the grant or contribution occurred, as long as the grant or contribution is authorized, eligibility criteria have been met and a reasonable estimate of the amount can be made. All other expenses are recognized on an accrual basis.

##### (q) Environmental liabilities

Environmental liabilities consist of the estimated costs related to the management and remediation of environmentally contaminated sites. For contaminated sites, a liability is accrued and an expense recorded based on management's best estimates when the contamination occurs or when the Government becomes aware of the contamination and is obligated, or is likely obligated, to incur such costs. If the likelihood of the Government's obligation to incur these costs is either not determinable, or if an amount cannot be reasonably estimated, the contingency is disclosed in the notes to the financial statements.

##### (r) Recoveries of prior years' expenses

Recoveries of prior years' expenses and reversals of prior years' expense accruals are reported separately from other revenues on the statement of operations and accumulated surplus. Pursuant to the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenses.

##### (s) Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars using exchange rates at year-end. Foreign currency transactions are translated into Canadian dollars using rates in effect at the time the transactions were entered into. All exchange gains and losses are included in net income for the year according to the activities to which they relate.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2008

(All figures in thousands of dollars)

---

#### 3. CASH AND CASH EQUIVALENTS

The Government has a line of credit provided by a chartered bank, secured by the Consolidated Revenue Fund of the Government. There are no fixed repayment terms and the overdraft limits are negotiated over the year based on the forecasted cash flows and borrowing requirements of the Government. Interest is only charged when there is a net overdraft balance of the Government and its investment pool participants. The overdraft interest rate is based on prime and fluctuates during the year. Interest paid in 2008 was \$ nil (2007 - \$3). The average borrowing rate during the year was 6.13% (2007 - 5.75%). As at March 31, 2008 there was no net overdraft balance (2007 - nil).

The surplus cash of the Government is pooled with the surplus cash of certain Territorial Crown Corporations, boards and agencies. This investment pool is invested in a diversified portfolio of high grade, short and long term income producing assets.

Excluding designated investments, at March 31, 2008 the investment pool had total investments of \$236,617 (2007 - \$180,874). The eligible classes of securities, categories of issuers, limits and terms are approved under the Government's investment guidelines, *Financial Administration Act* and Investment Regulations. All short-term instruments, depending on the investment class, are rated R-1 Low or better from the Dominion Bond Rating Service Ltd. Investments are diversified, limiting them to a maximum of 10% to 50% of the total portfolio depending on the type of investment. There is no significant concentration in any one investment.

At March 31, 2008 the average term to maturity was 28 days (2007 - 31 days). The portfolio yield for the year varied from 3.66% to 4.76% (2007 - 3.78% to 4.30%). In 2008, the Government earned interest on short-term investments of \$4,906 (2007 - \$13,968).

Included in cash and cash equivalents are funds designated for use for future student loans as follows:

	2008	2007
	\$	\$
Authorized limit	33,000	33,000
Less: Loans receivable	(31,861)	(31,579)
	<hr/>	<hr/>
Segregated and designated for new loans	1,139	1,421
	<hr/>	<hr/>

#### 4. PORTFOLIO INVESTMENTS

	2008	2007
	\$	\$
Marketable securities (market value \$24,671; 2007 - \$26,750)	23,290	23,204
Treasury bills (market value approximates cost)	1,326	1,165
Cash and other assets (market value approximates cost)	114	106
	<hr/>	<hr/>
	24,730	24,475
	<hr/>	<hr/>

The investment portfolio, while forming part of the Consolidated Revenue Fund, are designated for the purpose of meeting the obligations of the Legislative Assembly Supplementary Retiring Allowance and Judges Supplemental Pension Plans (*note 13*). Supplementary Retiring Allowances Regulations restrict the investments to those permitted under the *Pension Benefits Standards Act*.

#### 6. INVENTORIES

	2008	2007
	\$	\$
Bulk fuels	15,546	11,963
Liquor products	3,175	2,222
Public stores	185	138
	<b>18,906</b>	<b>14,323</b>

---

Bulk fuel inventory write-down for 2008 was \$135 (2007 - \$106).

#### 7. LOANS RECEIVABLE

	2008	2007
	\$	\$
Working Capital advances to the Northwest Territories Business Development and Investment Corporation. The term is indeterminable with the option to repay any portion of principal on any interest payment date. Interest is calculated at selected Government of Canada three-year bond rates at the end of the month.	29,433	33,129
Arslanian Cutting Works Inc. promissory note receivable, due in 82 monthly installments, including accrued interest at a rate of 5.06% per annum, matures in 2013.	5,848	5,900
Deton'Cho Corporation (DCC) non-interest bearing promissory note, repayable in 20 equal installments, matures in 2013. In 2008, the promissory note requires a reassessment of the ability of DCC to pay interest on this promissory note. This note arose from the sale of shares held as security on a \$2,600 loan guarantee by the Government for DCC, that was called by the Bank of Montreal. Foregone interest revenue, recorded as a Grant in Kind, is calculated at the Government's long term borrowing rate and amounted to \$77 in the year (2007 - \$91)	1,300	1,560
Students Loan Fund loans due in installments to 2022, bearing fixed interest between 1.50% and 11.75%	31,861	31,579
Northwest Territories Hydro Corporation \$20,000 line of credit, secured by a promissory note, bearing interest between 3.66% and 4.76%	11,500	8,000
Other	21	531
	<b>79,963</b>	<b>80,699</b>
Allowance for doubtful student loans and student loan remissions	(16,411)	(23,998)
	<b>63,552</b>	<b>56,701</b>

---

During the year, \$1,655 in student loans (2007 - \$1,578) was remised with proper authority.

Mortgage payable to Canada Mortgage and Housing Corporation, repayable in monthly installments of \$9 (2007 - \$9) maturing June 2024, bearing interest at 4.98% (2007 - 4.49%).	1,182	1,230

---

Annual principal repayments are due as follows:

	2009	49
	2010	51
	2011	54
	2012	56
	2013	59
	Beyond 2013	913

---

**1,182**

---

Interest paid during the year was \$56 (2007 - \$53).

#### 13. PENSIONS

##### (a) Plans description

The Government administers the following pension plans for Members of the Legislative Assembly (MLAs) and Territorial Court Judges.

Plan recipient	Name of plan	Funded status
MLAs	Legislative Assembly Retiring Allowance Plan (MLAs Regular)	Funded
MLAs	Legislative Assembly Supplemental Retiring Allowance Plan (MLAs Supplemental)	Non Funded
Judges	Judges Registered Plan (Judges Regular)	Funded
Judges	Judges Supplemental Pension Plan (Judges Supplemental)	Non Funded

The Regular Plans for both the MLAs and Judges are contributory defined benefit registered pension plans and are pre-funded. The funds related to these plans are administered by independent trust companies.

The Supplemental plans for both the MLAs and Judges are non-contributory defined benefit pension plans and are unfunded; however, the Government has made a voluntary restriction on assets for the purposes of meeting the obligations of the Supplemental plans (*Note 4*).

The Government is liable for all benefits. Benefits provided under all four plans are based on years of service and pensionable earnings.

## Government of the Northwest Territories

<b>Net change to pension liability from accrual items</b>	<b>(37)</b>	<b>1,896</b>	<b>1,859</b>
<b>Ending balance</b>	<b>(5,972)</b>	<b>23,136</b>	<b>17,164</b>

#### (d) Pension expense

The components of pension expense include current period benefit cost, amortization of actuarial gains/losses and interest on average accrued benefit obligation net of the return on plan assets and contributions from plan members. The total pension expense as disclosed above is \$1,761 (2007 - \$1,661). The interest cost on the accrued benefit obligation was determined by applying the discount rate determined at the beginning of the period to the average value of the accrued benefit obligation for the period. The expected return on plan assets was determined by applying the assumed rate of return on plan assets to the average market-related value of assets for the period. The difference between the expected return on plan assets and the actual return on plan assets was \$20 (2007 - \$955). In addition to the above, the Government contributed \$25,282 (2007 - \$23,958) to the Public Service Superannuation Plan. The employees' contributions to this plan were \$10,941 (2007 - \$9,939).

#### (e) Changes to pension plans in the year

There have been no plan amendments, plan settlements and curtailments or temporary deviations from the plan in 2008 (no changes in 2007).

#### (f) Valuation methods and assumptions used in valuing pension liability

##### *Valuation date*

Actuarial valuations were completed for the Legislative Assembly plans as of April 1, 2004 and for the Judges' plans as of April 1, 2005. As the actuarial valuations were not valued as at the year-end, the Legislative Assembly Plans were extrapolated to January 31, 2008 and the Judges' plans were extrapolated to March 31, 2008. The effective date of the next actuarial valuation is April 1, 2008 for both the Legislative Assembly and the Judges' plans.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2008

(All figures in thousands of dollars)

---

#### 13. PENSIONS (continued)

##### *Liability valuation method*

The actuarial valuation was performed using the projected accrued benefit method. The valuations are based on a number of actuarial assumptions about matters such as mortality, service, withdrawal, earnings and interest rates. The assumptions are based on the Government's best estimates of expected long-term rates and short-term forecasts.

##### *Asset valuation method*

The asset valuation method, market-related value, for the MLAs' plans is equal to a smoothed market value which spreads the difference between the actual and expected investment income over a four year period and is then adjusted for payments due to, and payable from, the pension plan. The fair market value of the MLA regular plan is \$21,108 (2007 - \$20,283). The asset valuation method for the Judges' plans is market value. The market value of the Judges' regular plan is \$3,913 (2007 - \$3,718).

##### *Actuarial gains and losses*

Actuarial gains and losses occur when actual experience varies from estimates. The adjustments needed are amortized on a straight line basis over the estimated average remaining service lives of the contributors. The estimated average remaining service lives of the contributors is 7 years for both MLA and Judges' plans.

##### *Actuarial assumptions*

	MLA's plans	Judges' plans
Expected rate of return on plan assets	7.0%	7.3%
Rate of compensation increase	5.0%	4.3%
Annual inflation rate	4.0%	3.3%
Annual interest rate	7.0%	7.0%

##### *Retirement assumptions*

- Members of Legislative Assembly at later of age 50, 4 years of service, and end of current session.
- Judges at the earlier of age 60 or when age plus service equals 80.

#### 14. OTHER EMPLOYEE FUTURE BENEFITS

In addition to pension benefits, the Government of the Northwest Territories provides termination and removal benefits to its employees. This benefit plan is not pre-funded and thus has no assets, resulting in a plan deficit equal to the accrued benefit obligation. The expected payments during the next fiscal year are \$3,232 (2008 - \$3,537).

	2008	2007
	\$	\$
Resignation and retirement	20,315	21,178
Removal	5,750	5,823

(All figures in thousands of dollars)

---

#### 15. DEFERRED CAPITAL CONTRIBUTIONS

Deferred capital contributions relate to the portion of a tangible capital asset that was gifted from or cost-shared with the Government of Canada. The most significant of these assets are roads and airports. The capital contributions are deferred and amortized to revenue over the same life as the related asset.

	2008	2007
	\$	\$
Deferred capital contributions at beginning of year	232,714	212,715
Add: Assets gifted or cost shared during the year	9,994	34,490

<b>Deferred capital contributions at end of year</b>	<b>227,636</b>	<b>232,714</b>

---

#### 16. PETROLEUM PRODUCTS STABILIZATION FUND

The Petroleum Products Stabilization Fund is included in the accumulated surplus. The purpose of the Fund is to stabilize the prices of petroleum products purchased, sold and distributed by the Government. The annual net profit or loss of the Petroleum Products Revolving Fund is charged to the Stabilization Fund. The accumulated surplus or deficit balance in the fund cannot exceed \$1,000.

	2008	2007
	\$	\$
Surplus at beginning of the year	853	430
Add: Petroleum Products Stabilization Fund		
Net profit (loss) for the year	(312)	423
<b>Surplus at end of the year</b>	<b>541</b>	<b>853</b>

Supreme and Territorial Courts	748	954
	<b>5,405</b>	<b>4,636</b>

---

#### 18. COMMITMENTS

The Government has entered into agreements for, or is contractually committed to the following expenses to be incurred subsequent to March 31, 2008:

	Expiry Date	2009	2010- 2046	Total
		\$	\$	\$
Operational commitments	2046	26,446	86,530	112,976
Commercial leases	2022	11,643	38,263	49,906
RCMP policing agreement	2012	28,456	113,824	142,280
Tangible capital asset projects in progress at year end	2046	97,141	376,907	474,048
Equipment leases	2013	757	864	1,621
Commissions commitment	2013	1,378	1,492	2,870
Western Harvesters' Assistance Program	2009	132	-	132
Block Funding Agreements with Municipalities	2010	54,910	54,910	109,820
		<b>220,863</b>	<b>672,790</b>	<b>893,653</b>

---

#### Chargeback of Services

The Government has 3 (2007 - 3) cost recovery service agreements with the Government of Nunavut for the provision of various corporate and program delivery services. The expenses on and costs recovered from these projects on behalf of the Government of Nunavut are estimated at \$3,823 for the fiscal year ending 2008 (2007 - \$3,247).

#### 19. CONTINGENCIES

##### (a) Contractual obligations

The Government is contingently liable for the following guarantees:

	<b>2008</b>
	\$
Debtentures issued by the Northwest Territories Power Corporation:	
Sinking fund debtentures issued by the Northwest Territories Power Corporation	
maturing March 9, 2009	19,993
maturing June 6, 2011	14,970
maturing May 28, 2012	19,978
maturing October 27, 2018	9,943
maturing February 27, 2026	8,643
maturing December 18, 2032	16,522
Debtenture series issued by the Northwest Territories Power Corporation	
maturing May 1, 2025	6,879
maturing July 11, 2025	14,902
maturing October 1, 2025	6,908
maturing September 1, 2026	7,824
maturing December 15, 2034	24,834
Loans payable by the Northwest Territories Housing Corporation to Canada Mortgage and Housing Corporation *	23,964
Guarantee of Northwest Territories Opportunities Fund	99,969
Guaranteed residential housing loans	9,950
<b>Total Guarantees</b>	<b>285,279</b>
<b>Uninsured loss</b>	<b>4,827</b>
	<b>290,106</b>

---

\* In addition to this amount, the Northwest Territories Housing Corporation (NWT HC) has mortgages payable to the Canada Mortgage and Housing Corporation (CMHC) under the Social Housing Agreement. The mortgages mature between the years 2008 and 2038, bearing interest ranging from 2.78% to 21.5% (2007 2.78% to 21.5%). These mortgages relate to assets held by NWT HC in trust for CMHC; therefore, these liabilities are not included in the above listing.

The Government has also provided a guarantee to the Canadian Blood Services and Canadian Blood Services Captive Insurance Company Ltd. to cover a share of potential claims made by users of the national blood supply. The Government's share is limited to the ratio of the Northwest Territories' population to the Canadian population.

(All figures in thousands of dollars)

---

#### 19. CONTINGENCIES (continued)

##### (b) Environmental liabilities

The Government has identified a number of sites as possibly requiring environmental remediation. The Government has recorded a liability of \$12,567 for those sites where the Government is obligated, or is likely obligated to incur costs to remediate the sites and the amount is quantifiable. In 2005, the Government also recorded a liability for its share of the above ground remediation of Giant Mine. The balance of the Giant Mine remediation liability at March 31, 2008 is \$20,496. As at March 31, 2008 total environment liabilities of \$33,063 (2007 - \$32,054) were included as a component of accounts payable and accrued liabilities.

The Government's ongoing efforts to assess the remaining sites may result in additional environmental liabilities. These liabilities will be recorded in the year in which they become known.

##### (c) Claims and litigation

There are a number of claims and pending and threatened litigation cases outstanding against the Government. In certain of these cases, pursuant to agreements negotiated prior to the division of the territories, the Governments of the Northwest Territories and Nunavut will jointly defend the suits. The cost of defending these actions and any damages that may eventually be awarded will be shared by the two Governments 56.66% and 44.34%, respectively. The Government has recorded an allowance for any claim or litigation where it is likely that there will be a future payment and a reasonable estimate of the loss can be made.

##### (d) Grant from the Government of Canada

The Grant from the Government of Canada is calculated based on a three-year moving averages of personal and corporate income taxes (with a two year delay), fuel taxes, tobacco tax and alcoholic beverage revenues, changes in national average tax rates, population changes and the growth in provincial/local government spending. The Grant is estimated once for each fiscal year and is not revised.

The Canada Health Transfer is determined by a formula that includes population and personal and corporate income taxes. Revisions to these variables result in prior year adjustments being included in current year revenues.

#### 20. RELATED PARTIES

Transactions with related parties and balances at year-end, not disclosed elsewhere in the financial statements, are disclosed in this note. During the year the Government made grants and contributions to the following related parties.

	2008	2007
	\$	\$
Health and Social Services Authorities	230,259	197,260
Divisional Education Councils and District Education Authorities	136,076	121,168
Northwest Territories Housing Corporation	53,848	54,931
Aurora College	34,258	27,056
Northwest Territories Business Development and Investment Corporation	3,738	3,738
Northwest Territories Human Rights Commission	381	277
NWT Energy Corporation	2,300	395
Status of Women Council of the Northwest Territories	374	333
	<b>461,234</b>	<b>405,158</b>

---

The Government funds communities, boards and agencies and other organizations offering services to the public. These organizations operate independently of normal Government operations. The Government may be held responsible for any liabilities or deficits on behalf of boards and agencies. An estimate of the potential liability, if any, cannot be determined.

Under agreements with related boards and agencies, the Government provides services at cost or for a service fee where direct costs cannot be determined. The fees charged for indirect costs are not necessarily the cost of providing those services. Services provided included personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal and interpretation services. Direct costs of \$243,203 (2007 - \$220,433) were incurred and recovered from related parties.

The Government of the Northwest Territories receives dividend revenue in return for its investment in the Northwest Territories Hydro Corporation. Dividend revenue for the current year is \$3,500 (2007 - \$3,500).

#### 21. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the financial statement presentation adopted for the current year.
