## INTRODUCTION

The Main Estimates represent the Government of the Northwest Territories' proposed appropriations for the 2009-2010 fiscal year. The Estimates detail all expenditures projected to be incurred, all revenues projected to be earned and the projected level of capital investment, for the period April 1, 2009 to March 31, 2010, in order to implement strategies and achieve the goals of the Government.

The 2009-2010 Budget Address is an integral part of these Estimates. The Budget Address and the Main Estimates together constitute the budget of the Northwest Territories.

The Legislative Assembly is being requested to appropriate funds at the departmental level, as detailed in the Main Estimates, for operations expenditures for the fiscal year ending March 31, 2010.

Beginning in 2009-2010, the GNWT has gone to presenting the Operations Expenditures (Main Estimates) and the Infrastructure Investment Expenditures (Capital Estimates) in two separate documents. The Capital Estimates are approved by the Legislative Assembly during its fall sitting.

### Operations Expenditures

Operations Expenditures include only the proposed operating expenses and amortization for each department.

The following detailed information is provided for each department:

- **Accounting Structure Chart:** detail on how the department's financial accounts are organized.
- **Organizational Chart:** details how the department is organized for administrative purposes.
- **Department Overview:** includes the mission and goals of the department.
- **Graphs:** illustrate the allocation of proposed expenditures to major activities and a five-year comparison of actual and proposed expenditures.
- **Department Summary:** the following information is provided for each department:
  - **Operations Expenditure Summary:** the total appropriation requirements by control object for the department. The control objects included are compensation and benefits, grants and contributions, other expenses and amortization. This schedule also provides further details of the other expenses category.
  - **Active Position Summary – By Region:** the total number of positions, by category, serving the department in each region.
  - **Active Position Summary – Community Allocation:** the total number of positions, by category, serving the department by community groupings
  - **Revenue Summary.**
- **Activity Summary:** the following are provided for each activity;
  - **Activity Description:** an explanation of the purpose or programs delivered for each activity.
  - **Operations Expenditure Summary:** appropriation requirements for the activity summarized by major categories (control objects).
  - **Program Delivery Details:** details of appropriations required for each of the major program functions within each activity. This schedule is not provided for those activities that only provide administrative service to the department.

---

**INTRODUCTION ( continued )**

- **Grants and Contributions:** details on the proposed grants and contributions included in the required appropriations for each activity.
- **Summary of Active Positions - By Region:** the total number of positions, by category, serving the activity in each region.
- **Summary of Active Positions – Community Allocation:** the total number of positions, by category, serving the activity by community groupings.
- **Summary of Work Performed on Behalf of Others:** the Government undertakes to perform certain functions, in the Northwest Territories, on behalf of the Government of Canada or others. Expenditures incurred for these activities are fully recovered and are not required to be voted on by the Legislative Assembly.
- **Other Information Items:** includes proposed departmental expenditures or financial activities related to various boards, agencies or revolving funds.

**Infrastructure Investment Summary**

An infrastructure investment summary is provided for all departments and/or activities that have assets currently in service, regardless of whether any infrastructure is planned during 2009-10. The infrastructure investment summary provides the following information:

- The total historical cost of capital assets in service acquired in previous years and the total net book value of these assets. The net book value represents that portion of the original cost that has not been amortized. This should not be construed as being representative of market value.
- The changes that are projected to occur during the year. This includes the total cost of assets expected to be put into service during the year and any estimated disposals during the year.
- The estimated amortization expense for the year, based on assets in service at the beginning of the year adjusted for additions or disposals during the year.
- Work-in-Progress is the cost expended on capital projects that will be incomplete at the end of the year.
- A calculation of the value of the assets the department is projecting to come into service.

For further clarification on terms used in the Main Estimates and the budget development process, please consult the Glossary in Appendix A and The Budget Development Process in Appendix B.

# LEGISLATIVE ASSEMBLY

## MISSION

To safeguard and promote the principles of consensus government and the institution of the Legislative Assembly in order to foster an empowered and representative government that is relevant and accountable to the people of the Northwest Territories.

## GOALS

The office of the Legislative Assembly has the following goals over the planning period:

1. Provide the opportunity for meaningful input from all Members and the general public in the passage of laws.
2. The government is authorized to expend public monies in pursuit of clearly defined program and service delivery goals and objectives on behalf of the residents of the NWT.
3. Elected Members of the Legislative Assembly are assisted in achieving their vision for the Northwest Territories, as expressed in the 16<sup>th</sup> Legislative Assembly's Vision and Goals document *Northerners Working Together*.
4. Ensure the independence and effectiveness of Statutory Offices in completing their legislated responsibilities.
5. Collaboration and communication amongst all Members, standing committees and governments.
6. The general public is well informed and has access to Legislative Assembly processes and decisions.
7. To adhere to the highest standards of public sector governance within the consensus system.
8. The promotion of the Legislative Assembly as the "Place of the People".
9. The Legislative Assembly provides a forum for meaningful and relevant debate about the issues and challenges facing the residents of the NWT.
10. Highly motivated, efficient staff with a shared understanding of the organization's future.

## STATUTORY OFFICERS

### Activity Description

This activity provides for the independent operation of the following Statutory Officers: Languages Commissioner, Information and Privacy Commissioner, Conflict of Interest Commissioner, Equal Pay Commissioner, Human Rights Commission, Director of Human Rights and the Human Rights Adjudication Panel. All Statutory Officers must table an annual report to the Legislative Assembly detailing the activities undertaken and discharged during the preceding year.

The Languages Commissioner's duty is to ensure that institutions of the Legislative Assembly and GNWT respect the spirit, intent and provisions of the NWT Official Languages Act and the provisions of any other act or regulation relating to the status or use of official languages.

The Information and Privacy Commissioner provides an independent review of discretionary decisions made by public bodies in response to requests for access to information that government creates and receives. The Commissioner also protects the privacy rights of individuals.

The Conflict of Interest Commissioner provides advice to Members on how to arrange their business and financial affairs to comply with the conflict provisions included in Part 3 of the Legislative Assembly & Executive Council Act. The Commissioner also conducts investigations into conflict of interest complaints against Members as well as maintaining a public disclosure registry, which is available for examination by the general public.

The Equal Pay Commissioner is responsible for ensuring that public service employees are not, on the basis of sex, paid a lower rate than other employees who perform work of equal value. The Commissioner receives complaints, conducts investigations and assists parties in resolving complaints.

The Human Rights Commission is responsible for promoting equality in order to reduce discrimination against territorial residents. The Commission fulfils its responsibilities through public education initiatives. The Director of Human Rights oversees the investigation/mediation and resolution of complaints of discrimination. The Adjudication Panel hears and decides complaints that are not dismissed or resolved through mediation.

# EXECUTIVE

### MISSION

The mission of the Department of Executive is to provide overall management and direction to the Executive branch of Government. The key areas for which we are responsible for achieving results are:

- Coordination and supporting the planning, implementation, monitoring and evaluation of initiatives and actions in support of cross-government goals.
- Providing policy, strategic, legislative and communications advice to support Cabinet and Ministers;
- Negotiating and coordinating the transfer of provincial-type powers and responsibilities with respect to public lands and resources; and
- Supporting effective corporate communications, and dissemination of appropriate economic, social and demographic statistics, to government employees, the public and other governments.

### GOALS

The Department of Executive shall ensure effective:

1. Support for informed decision-making in planning, development and implementation of policies and programming,
2. Conclusion of devolution and resource revenue sharing agreements,
3. Coordination of Government operations, both between departments and between headquarters and the regions,
4. Working relationships with Aboriginal and community governments,
5. Management of the implementation of the GNWT Strategic Plan.

## CORPORATE HUMAN RESOURCES

### Activity Description

The Corporate Human Resources Division is responsible for the provision of human resource management planning frameworks and strategic support services across government.

This Division also coordinates government-wide human resource management planning and programs, particularly in the areas of recruitment, retention, workforce adjustment, employee recognition, management and leadership development, and employee training and development.

The Division also strives to provide a comprehensive and clear framework of terms and conditions of employment that:

- is broadly used and understood,
- promotes harmonious labour management relations,
- results in fair and consistent treatment of staff,
- promotes productive work environments, and
- results in high service and ethical standards within the Public Service.

**Organizational Development** - Provides advice and support to management on organizational development, succession and workforce planning, performance management, change management and competency development.

**Labour Relations** – Provides advanced labour relations advice to GNWT managers and human resource staff to promote effective management of employment relationships with all GNWT employees. This assistance includes collective agreement and other employment contract interpretations, advice on attendance management and performance issues, support in responding to grievances, management of arbitrations and Human Rights complaints, and general labour relations training.

**Recruitment Support Unit** - Responsible for the provision of specialized recruitment advice, analysis and support, as well as the development planning and implementation of specialized recruitment programs, strategies and initiatives. It assists Deputy Heads and Senior Management teams with planning of recruitment and development initiatives to ensure that the Public Service has adequate numbers of skilled individuals who can provide programs and services to the people of the Northwest Territories.

**Total Rewards** - Coordinates the evaluation of GNWT positions, ensuring consistency of evaluations. Provides training on the job evaluation system and maintenance of all GNWT organization charts.

**Employer of Choice** - Manages the development and implementation of government-wide human resource management programs and strategies aimed at the retention, engagement and development of GNWT employees. Programs and approaches include Staff Retention, Employee Recognition, Performance Management, Health and Wellness, Entry and Exit Surveys and GNWT Orientation. The unit coordinates an Employee Learning and Development process and coordinates benefits analysis and the liaison with benefits providers.

# **ABORIGINAL AFFAIRS AND INTERGOVERNMENTAL RELATIONS**

## MISSION

The Department of Aboriginal Affairs and Intergovernmental Relations is responsible for negotiating, implementing and monitoring land, resources and self-government agreements, including Treaty land entitlements; managing the GNWT's relationship with the federal government and with provincial, territorial and Aboriginal governments and circumpolar countries, in all matters of intergovernmental significance; and providing strategic advice on matters pertaining to federal-provincial-territorial-Aboriginal relations.

## GOALS

The Department wants to achieve:

1. The conclusion of land, resources and self-government agreements in a manner that respects the inherent right of self-government and ensures an overall effective, affordable and workable system of governance, capable of providing an adequate and comparable level of quality programs and services to all NWT residents.
2. The successful ongoing implementation and monitoring of land, resources and self-government agreements by ensuring all GNWT obligations within the agreements are met.
3. Constructive and co-operative intergovernmental relations with federal, provincial, territorial, Aboriginal and foreign governments that are based on mutual respect.
4. Coordinated and consistent advice to departments in support of the GNWT's legal duty to consult Aboriginal governments and organizations.

## CORPORATE MANAGEMENT

### Activity Description

The **Directorate** manages the internal operations of the department and provides strategic advice and support to the Minister on the department's mandate. The division is also responsible for coordinating financial and business planning activities and providing support and leadership in the areas of human resource and records management. The division administers the grants and contributions program available to Aboriginal governments and organizations.

The **Policy, Legislation and Communications** division provides policy advice, information and assistance to the department and the Minister in all aspects of the department's mission. A central function of the division is to develop and periodically review the negotiating mandates that guide the GNWT's negotiating teams at all land, resources and self-government negotiations. The division is responsible for the department's communication projects and strategies, including the fulfillment of GNWT communication responsibilities arising from negotiations. The division is also responsible for implementing the GNWT's Consultation Framework by providing government-wide coordination and support in support of the GNWT's legal obligation to consult Aboriginal governments and organizations. Finally, the division leads the development of the legislation required to implement land, resources and self-government agreements.

## IMPLEMENTATION

### Activity Description

The **Implementation** division is responsible for negotiating implementation plans and related financing agreements, including incremental costs, associated with implementing land, resources and self-government agreements. It is also responsible for negotiating a comprehensive approach for self-government financing with the federal government.

Fulfilling the GNWT's obligations under land, resources and self-government agreements ensures that Aboriginal governments and the people they represent enjoy the benefits of their agreements, builds the foundation for mutually respectful government to government relations and promotes comparable levels of programs and services throughout the NWT.

### Liquor Revolving Fund

The Liquor Revolving Fund was established under the *Liquor Act* and provides working capital to finance the operations of the Liquor Licensing Board, the Liquor Commission and the administration and enforcement of the Act. The Liquor Licensing Board is responsible for the issuance of all types of liquor permits. Liquor Licensing and Enforcement provides support to the Board, is responsible for the enforcement of liquor-related regulations and restrictions, and assists communities in respect of matters arising under the Act. The Liquor Commission is responsible for the purchase, warehousing, distribution and sale of all alcoholic beverages in the Northwest Territories. The Board, Commission and Liquor Licensing and Enforcement are funded by the sale of alcoholic beverages.

# NWT HOUSING CORPORATION

## MISSION

The mission of the Northwest Territories Housing Corporation is to ensure, where appropriate and necessary, that there is a sufficient supply of affordable, adequate and suitable housing stock to meet the housing needs of Northwest Territories residents.

## GOALS

The following long-term goals of the Northwest Territories Housing Corporation support the direction set out by the 16<sup>th</sup> Legislative Assembly in its strategic document "Northerner's Working Together":

1. Increased supply of suitable and affordable housing stock in communities to meet the housing needs of NWT residents;
2. Sufficient land is acquired and developed for the purpose of providing affordable housing in all communities;
3. Homeownership programs and services provide access for clients and secure and protect Housing Corporation assets;
4. Long term sustainability and energy efficiency of the housing stock; and
5. Greater personal responsibility for housing through community based training and support and strengthened collection policies and procedures.

# MUNICIPAL AND COMMUNITY AFFAIRS

## MISSION

The Minister and the Department are responsible for the development and maintenance of community governments, responsive and responsible to the residents, with sufficient legal authority and resources to carry out community responsibilities, to provide their public programs and services essential to good community life and to deal effectively with other governments and organizations.

## GOALS

To support this vision and mission, the Department of Municipal and Community Affairs works to achieve the following goals:

1. Increase community government authority and responsibilities through policy, legislation and funding arrangements.
2. Enhance knowledge, skills and abilities of community staff, officials and other partners to better manage community affairs.
3. Contribute to the development of effective, accountable and democratic community governance structures, including self-government arrangements.
4. Support communities in their efforts to provide a safe, healthy and vibrant environment for residents.

**DIRECTORATE****Activity Description**

Departmental Management coordinates the development and the implementation of the Department's strategies with the senior management team and links the Department's activity to the goals of the Minister and Government. Territorial Emergency Management is also coordinated through the Directorate.

Regional Management oversees operations in the regional offices and the Office of the Fire Marshal (OFM), which administers the *Fire Prevention Act*, reviews plans for new construction and major renovation projects, conducts fire safety inspections and takes enforcement action when fire safety regulations are contravened.

Corporate Affairs coordinates planning and reporting activities for the Department, provides expert financial, policy and information systems advice and manages many administrative services. Policy and Planning provides strategic planning, legislative, research and policy support to the Minister and Deputy Minister and supports many Departmental information and communications activities. Financial Services provides financial and administrative support to the Department and coordinates services such as the development and monitoring of departmental business plans and annual budgets. Information Systems supports the Department by providing expert advice on department-specific applications and information systems.

## COMMUNITY OPERATIONS

### Activity Description

Community Operations coordinates many of the functions that support community governments. Program Management coordinates the work of the division, administers consumer, lottery, business and real estate agent licensing and responds to consumer complaints.

The Community Financial Services section coordinates financial advisory services to community governments to help promote their financial viability, good financial management and proper financial reporting practices.

The Community Governance section coordinates the Department's involvement in the implementation of Aboriginal land claims and self-government processes; provides advice on community governance issues at the request of community governments; and processes bylaws requiring Ministerial or Executive Council approval. The Chief Municipal Electoral Officer function provides advice and support related to community government elections.

The Financial Policy and Infrastructure Leveraging section analyzes fiscal policy related to supporting community governments and pursues options for accessing alternate sources of revenue for community governments. This section is also responsible for the coordination and implementation of various federal infrastructure funding programs.

The Capital Planning and Infrastructure section coordinates capital planning and infrastructure acquisition and provides technical advice and support regarding capital programs and infrastructure. This section is also responsible for completing remaining items on the MACA Capital Plan.

## LANDS ADMINISTRATION

### Activity Description

The Lands Administration Division administers Commissioner's Land, provides advice and assistance to community governments on land use and community planning, performs property assessments, undertakes environmental planning and regulatory review, provides technical mapping and surveying services to community governments and the public, and provides policy advice related to the administration of Commissioner's Land.

The Property Assessment Section values all land and improvements in the Northwest Territories, with the exception of the City of Yellowknife, by conducting property assessments in accordance with the *Property Assessment and Taxation Act and Regulations*.

The Land Program Section leases or disposes of Commissioner's Land in the Northwest Territories, in accordance with the *Commissioner's Land Act and Regulations* and within a policy framework approved by the Government of the Northwest Territories. It also assists community governments to plan for the physical development of their communities by providing advice and reviewing subdivision plans, community plans, zoning By-laws, and development schemes. This Section arranges and manages legal surveys on Commissioner's Land. It prepares satellite imagery, aerial photography, and topographical mapping of Commissioner's Lands within municipal boundaries of communities in the Northwest Territories, and administers the Department's Geographic Information System.

## REGIONAL OPERATIONS

### Activity Description

Regional Offices are responsible for the coordination, implementation and delivery of most of the Department's programs and services to community governments and other stakeholders.

Regional staff provide advice and support to community governments on a range of issues. They advise community governments on governance, budgeting, debt recovery, financial reporting and other activities to support the use of sound management and financial practices. They also support communities in the development of community capital investment planning, project management and the operation and maintenance of community infrastructure and equipment.

Assistant Fire Marshals support fire prevention and response in communities by undertaking training activities, local inspections and investigations.

Regional lands staff assist community governments with community land administration and planning activities and administer leases for Commissioner's Lands.

Senior Recreation Development Coordinators support healthy choices and physical activity and recreational development activities through partnerships with a wide variety of stakeholders across each respective region.

**DIRECTORATE****Activity Description**

The Directorate includes the Deputy Minister's office and Corporate Services Division at Headquarters. In the regions, the Directorate includes the Superintendent and the Finance and Administrative services. The Directorate is responsible for the overall management of the department, managing human and financial resources and providing overall direction and planning. Activities in the Directorate include financial administration, policy and planning, information systems and records management, and regional program delivery.

Records Management is responsible for the delivery of services to GNWT departments, boards, and agencies. Responsibilities include developing government-wide policies, standards and guidelines, support and training, records storage and retrievals and maintaining systems such as the Administrative Records Classification System (ARCS) and the Integrated Recorded Information Management System (iRIMS). It also coordinates the operation of four GNWT records centres, located in Yellowknife, Inuvik, Fort Smith and Fort Simpson.

The Directorate co-ordinates activities in support of GNWT priorities and departmental goals, and maintains effective communication within the department, and with other departments, governments including aboriginal self-governments, the private sector, and other interest groups.

**ASSET MANAGEMENT****Activity Description**

The Asset Management activity is responsible, on behalf of government departments, for the planning, design, construction, operation and maintenance of buildings and works throughout the NWT. Regional offices manage the delivery of maintenance and project management services, ensuring that client needs are met and facility life cycle costs are minimized. Headquarters supports the regions by providing facility planning, technical expertise for program and design standards, facility evaluations, troubleshooting, facility commissioning, granular materials planning and coordination, procurement and project management support, and technical support for safe drinking water initiatives.

Asset Management also coordinates the GNWT's Capital Planning process as well as the planning, acquisition and management of general office space for the GNWT, including leases, and the disposal of the GNWT's surplus real property assets.

PWS assumes responsibility for energy management within the government facilities it maintains. For existing buildings, this includes energy consumption analysis and benchmarking, detailed energy audits, infrared thermal scanning, and the inspection of electrical and mechanical systems. For new buildings, the EcoEnergy Validation Program Protocol is used, which includes computer modeling of energy use. As part of the modeling, an energy workshop with designers, clients, and operators allows various equipment options to be discussed and simultaneously modeled for energy consumption and savings.

The role of Contracting and Procurement Services is to monitor and provide advice with respect to GNWT and PWS policies, procedures and standards related to contracting. This includes contracts for construction, the acquisition of goods and services, architectural/engineering consulting contracts, and the acquisition of real property.

The building infrastructure Risk Management and Safety Program addresses the Wood Pile Remediation Program and the Deferred Maintenance Initiative. This activity is focused on assessing the condition of key GNWT building infrastructure and identifying and undertaking remedial work to ensure that buildings continue to be safe for occupancy, and to ensure that critical deferred maintenance items are addressed to maximize the useful life of these assets.

Inspection Services is responsible for the administration and regulation of electrical, elevator, boiler, pressure vessel and gas safety. These tasks protect the public by ensuring that all installations are constructed, all equipment is approved, and all workers are certified in accordance with the various codes and NWT Acts.

**TECHNOLOGY SERVICE CENTRE****Activity Description**

The Technology Service Centre (TSC) provides information technology (IT) services and support to all GNWT departments. This includes desktop/laptop support, application hosting, storage management, networks, e-mail, and computer operations. GNWT boards, agencies, and Crown corporations receive a subset of TSC services, which varies based on the organization. The TSC is funded through chargeback of its services and support to its clients.

The TSC manages the government's primary data centre in the Stuart M. Hodgson Building. The TSC is also responsible for two smaller data centres in Fort Smith and Inuvik.

The TSC provides services to all clients on a 24/7 basis, as most systems are available around the clock. The Service Desk has staff on call to respond to critical situations encountered by its clients.

**PETROLEUM PRODUCTS****Activity Description**

The Petroleum Products Division (PPD) purchases, transports, and stores the annual requirements for petroleum products in 16 NWT communities not served by the private sector. The products are then sold to residents of the communities through local contractors, who are paid a commission. PPD also provides fuel delivery and maintenance services to NWT Power Corporation tank farm facilities in 20 communities.

PPD has its financial and administrative headquarters in Fort Simpson, with responsibilities for credit, invoicing, collections and financial planning. The Fuel Services unit oversees PPD functions in the communities and manages local delivery contractors. Fuel Services staff determines re-supply quantities and provides quality control, capital standards and planning, and environmental management.

The PWS Asset Maintenance (Deh Cho Area) function within PPD manages the operations, maintenance and disposal of GNWT goods and buildings, and when requested supports community governments in the management of their infrastructure responsibilities.

### TECHNOLOGY SERVICE CENTRE (CHARGEBACK)

The Technology Service Centre (TSC) is responsible for providing information technology support and services to meet the business objectives of the GNWT, including delivering programs to NWT residents and maximizing the effectiveness of GNWT employees.

Primary TSC services include computer workstation upgrades and support, electronic mail, file management, Internet access, and application hosting. The foundation for these services is the Wide Area Network managed by the TSC. All services are provided to GNWT departments, while schools, colleges, health authorities, boards, and agencies throughout the GNWT received a subset of these services.

### Petroleum Products Revolving Fund

The Petroleum Products Revolving Fund was established January 19, 1973. The fund provides working capital to finance inventory, accounts receivable and operating expenses, such as salaries, commissions, taxes and quality control, required for the distribution of petroleum products. The authorized limit of the Petroleum Products Revolving Fund is \$55,000,000. Operating expenses are recovered through the price structure to achieve a break-even operation.

**PROGRAM DELIVERY SUPPORT****Activity Description**

Program Delivery Support provides a system-wide focus and assistance in the delivery of health and social service programs.

The Information Systems Division is responsible for implementing and maintaining appropriate systems technology throughout the HSS system. The Division is also responsible for providing leadership and direction in information management, information technology and support services for the Department.

The Health Service Administration Division is responsible for the administration of the Health Benefits payment programs (including Insured Health Benefits, Supplementary Health Benefits, Catastrophic Health Benefits, Métis, Non-Insured Health Benefits and inter-jurisdictional billings for Hospital and Physician Services). The Division is also responsible for administration of Vital Statistics and health benefits registration.

The Public Health Division is responsible for health protection, environmental health and disease registries. The Director holds the statutory appointments of Chief Medical Health Officer and Registrar of Disease Registries.

The Primary Care Division is responsible for acute and long term care planning, homecare, seniors and persons with disabilities, rehabilitation, community health nursing, maternal and child health, and oral health.

This activity includes funding to Health and Social Services Authorities/Agency for activities associated with management and administration.

This activity also includes funding for recruitment and retention programs specifically related to activities to develop, recruit and retain health and social services professionals.

## COMMUNITY HEALTH PROGRAMS

### Activity Description

Community Health Programs are delivered outside health facilities and include institutional care, assisted living, counselling, intervention and health promotion.

This activity, under the coordination of the Child and Family Services Division, includes direct program delivery funding for community based health and social services programs and services, as well as for program planning and development, including:

- community social service workers in the areas of prevention, assessment, early intervention, counselling and treatment services related to children, youth and families;
- prevention, assessment, intervention, counselling and treatment programs and services to children and families, in compliance with the *Child and Family Services Act* and *Adoption Act*;
- promotion, prevention, assessment, treatment and rehabilitation services for addictions, mental health, disabilities, chronic illnesses, and seniors;
- long term care facilities, including group homes and residential care, inside and outside the NWT;
- programs to enable individuals with special living requirements to stay in their homes as long as possible and services designed to assist living in the home;
- in accordance with legislation and policy, the Office of the Public Guardian responds to persons requiring assisted decision-making;
- emotional and social problems such as suicide, homelessness, and dealing with residential school issues;
- emergency shelters and counselling services for victims of spousal assault and other forms of family violence;
- Health Promotion provides resources and professional assistance to community-based programs that encourage healthy lifestyles and healthy children.

**JUSTICE**

## **MISSION**

Our mission is to serve the residents of the NWT by:

1. Working with community members so that communities are safe and secure;
2. Ensuring that all residents have access to justice, including legal aid, the courts, alternatives to the courts and other justice-related services;
3. Providing legal services to the Government of the Northwest Territories (GNWT) and its agencies;
4. Protecting the rights and freedoms of individuals and groups; and
5. Promoting respect for the law and the Constitution of Canada.

## **GOALS**

1. Communities have increased capacity and a role in addressing justice issues.
2. Programs, safe and secure custody, and community supervision are in place to support the rehabilitation of offenders.
3. Communities are safer.
4. Victims of crime are supported and have meaningful roles in the justice system.
5. Families in conflict are supported.
6. All residents have access to justice.

**SERVICES TO GOVERNMENT****Activity Description**

“Services to Government” includes the corporate management activities of the Directorate, Policy and Planning, and Finance. It also includes services provided to other GNWT departments, boards and agencies. Legal Division provides advice and representation to all GNWT departments and specified public agencies. Lawyers conduct litigation, provide legal opinions, and advise on a wide range of matters. One position is dedicated to prosecution of Territorial offences. GNWT bills and regulations are prepared by or under the direction of legislative drafters in the Legislation Division, and legal translators prepare French versions of these documents. The Department is also responsible for providing advice and information on the Access to Information and Protection of Privacy Act.

## EDUCATION AND CULTURE

### Activity Description

**The Early Childhood and School Services Division** is responsible for the development of direction, standards, support programs and curriculum for children from early childhood through to the end of grade 12. The Early Childhood Development Program licenses, monitors and funds early childhood programs. The Division works to ensure teaching standards are maintained and conducts curriculum review, revision, or replacement, as appropriate. It also supports school staff to implement the *Inclusive Schooling* and the *Aboriginal Languages and Culture Based Education Directives*.

**The Education Operations and Development Division** supports, monitors and reviews operations and service delivery by education authorities responsible for K-12 education. The Division is responsible for the certification of teachers and principals, provides education leadership development and the management of student records. It also provides direct support to teachers through the Teachers' Qualification Service, the NWTTA Professional Improvement Fund and by assisting with recruitment and retention.

**The NWT Public Library System (PLS)** provides all residents of the Northwest Territories with quality library services that meet their educational, informational and recreational needs. A central library collection is maintained and used to rotate materials in libraries across the NWT. In communities without libraries, residents can search the online catalogue on the Public Library Services (PLS) Website and receive materials by mail. Professional library staff provide training and technical support for community library staff. Special programs, such as the Summer Reading Club and Canadian Children's Book Week, are also coordinated centrally. PLS also provides the automated library system for the NWT Library Network that provides service to community libraries, the Legislative Library, Aurora College libraries, Aurora Research Institute Library and PWNHC Reference Library.

**The Culture and Heritage Division** has responsibilities for enhancing the arts, culture and heritage of the NWT in partnership with community, regional and national organizations. The Community Programs Section provides support to community museums, cultural organizations, cultural projects, artists and arts organizations. The NWT Cultural Places Section conducts archaeological research, participates in land use regulatory processes and administers archaeological permits. It also delivers the Geographic Names Program and the federal Historic Places Initiative. The NWT Archives identifies, acquires, preserves and makes accessible government records of historic significance. The Museum Operations Section (Collections, Conservation, Exhibits, Education and Public Programs) works with communities to collect, preserve, document, study, exhibit and educate the public about artifacts, specimens and works of art significant to the culture and heritage of the Northwest Territories.

**The Official Languages Division** is responsible for supporting the acquisition, maintenance and revitalization of Official Aboriginal languages in the NWT and for overseeing the delivery of GNWT programs and services in French. The Division supports Aboriginal and French broadcasting in the NWT. Funding for language development activities is provided on an annual basis through contribution agreements with official languages organizations in the NWT. Other programs are delivered in partnership with various agencies and organizations.

## ADVANCED EDUCATION AND CAREERS

### Activity Description

**The College, Career and Employment Development Division** provides a range of programs and services related to career development, apprenticeship, employment preparation, training and development, college and continuing education and labour services.

The Division supports Aurora College to plan, deliver, evaluate and develop adult and postsecondary education and training programs including Adult Literacy and Basic Education. The Division also supports various literacy initiatives.

The Division works closely with industry and Aurora College to provide apprenticeship training and certification in trades and occupations. The Division also negotiates and monitors training and employment provisions of socio-economic agreements.

It plays a major role in coordinating partnerships for expanding employment opportunities in the North and increasing participation in the workforce. It provides support to industry to ensure that the scope and delivery of programs meet regional needs. Career Centres offer career-counselling, needs assessment, education planning, workshops, resource libraries, career and labour market information, and career fairs. The Division is also working with the federal government to provide immigration supports through a territorial nominee program for the NWT.

Employment Standards administers the *Employment Standards Act* while independent adjudicators handle complaints from employees and employers regarding non-compliance with this legislation.

**Regional Operations** are responsible for managing area offices for apprenticeships, career and employment development as well as income security programs. Regional offices also provide early childhood program support on behalf of the Early Childhood and School Services Division.

## AURORA COLLEGE PROGRAMS

Aurora College coordinates northern research and delivers adult and postsecondary education and training programs under the direction of a Board of Governors appointed by, and accountable to, the Minister of Education, Culture and Employment.

The Aurora Research Institute is responsible for licensing and coordinating research in accordance with the *NWT Scientists Act*. It is also responsible, under the GNWT's Traditional Knowledge Policy, to maintain a database of traditional knowledge research conducted in the Northwest Territories; promote and support the study, documentation and application of traditional knowledge; and pursue and support the development of traditional technology for economic development purposes. It promotes communication between researchers and the communities impacted by their work. Increasing public awareness of the importance of science, technology and indigenous knowledge is a key goal. Aurora Research Institute has offices in Inuvik and Fort Smith.

Aurora College, through its three regional campuses and 23 community learning centres, provides community-based adult literacy and basic education programs for learners who wish to access specific postsecondary education and training.

The Trades and Technology Program supports trades people in achieving journey status or becoming a technician or technologist in a designated occupation.

A number of certificate and/or diploma programs are offered through Aurora College. These include:

- Aboriginal Language and Cultural Instructor;
- Adult Education;
- Career Development;
- Community Health Representative;
- Community Wellness Worker;
- Early Childhood Development;
- Management Studies;
- Natural Resources Technology;
- Nursing;
- Office Administration;
- Social Work;
- Teacher Education; and
- Traditional Arts.

Degrees are offered in the Bachelor of Science in Nursing and the Bachelor of Education programs.

The College operates through third-party contracts and an annual contribution from the Department as approved by the Legislative Assembly. Contributions to the College are allocated for each academic year, which runs from July 1 to June 30.

## MISSION

Our Mission is to provide for the safe, secure, accessible and reliable movement of people and goods to serve the social and economic needs and aspirations of the people of the Northwest Territories.

The Department accomplishes its Mission through seven main activities:

### 1. AIRPORTS

To provide airport facilities and services and to encourage and support the provision of regular, safe, cost effective and reliable air services.

### 2. HIGHWAYS

To provide highway facilities and to encourage and support the provision of safe, reliable and cost-effective inter-community travel and road transportation services.

### 3. MARINE

To provide safe and reliable ferry crossing services on the highway system.

### 4. ROAD LICENSING & SAFETY

To protect public safety and the environment by supporting the safe operation of motor vehicles in the NWT.

In addition to its regulatory responsibilities for transportation safety, the Department delivers public education programs, in conjunction with the federal government and other GNWT Departments, on transportation safety, such as the Strategy to Reduce Impaired Driving and Occupant Restraint Campaigns.

### 5. LOCAL COMMUNITY ACCESS ROADS

To provide assistance to communities for building locally owned roads and trails to points of interest, tourism and recreational opportunities and renewable resource harvesting areas.

### 6. COMMUNITY MARINE INFRASTRUCTURE

To provide assistance to communities to implement marine facilities for the construction of breakwaters, docks and wharves in support of subsistence marine harvesting and recreational boating.

### 7. CORPORATE SERVICES

To provide support and department-wide corporate programs in 10 areas.

## GOALS

The Department of Transportation has six goals that support the achievement of the Government's vision for the future of the Northwest Territories.

1. The NWT transportation system continues to improve,
2. The NWT has an ongoing high level of Northern business and employment opportunities in the public and private transportation sectors,
3. The NWT has a safe and secure transportation system in all modes,
4. The Department has a high performance workplace that is adaptable, effective, efficient and innovative in delivering programs and services,
5. The high quality of the NWT environment is maintained, and
6. The Department provides funding for local transportation infrastructure.

## AIRPORTS

### Activity Description

The purpose of the Airports Program is to provide airport facilities and services and to encourage and support the provision of regular, safe, cost-effective and reliable air services. The Department is responsible for the maintenance, operation, and rehabilitation and upgrading of airports.

The Department operates 27 airports in the Northwest Territories, of which one is a Gateway hub, (Yellowknife), two are Regional hubs, (Norman Wells and Inuvik), and the remaining 24 are community airports. Connected with the Airports Program, the Department maintains a close watch over air transportation legislation, regulation and policy activities of other governments, overall trends in air transportation safety, costs, infrastructure technology development/change and opportunities for partnership to finance the improvement of airport infrastructure.

There are four areas of program support:

- Management
- Facilities
- Program Development
- Operations

## HIGHWAYS

### Activity Description

The purpose of the Highways Program is to provide highway facilities and to encourage and support the provision of safe, reliable and cost-effective inter-community travel and road transportation services. The Department is responsible for operating, maintaining, rehabilitating and upgrading all highway infrastructures.

The Department maintains 2,200 kilometers of all-weather highways and 1,425 kilometers of seasonal winter roads. The Highway system also includes over 70 bridges and well over 3,000 culvert structures. Connected with the Highways Program, the Department monitors current trends in highway construction, engineering, safety, design and technology. The Department actively seeks new partnership opportunities with other governments and industry to finance the development of new highway infrastructure and to finance enhanced operations.

There are four key areas of program support:

- Management
- Infrastructure
- Winter Roads
- Operations

## MARINE

### Activity Description

The purpose of the Marine Program is to provide safe and reliable ferry crossing services on the highway system. The Department is responsible for the planning, safety, operation and maintenance of the vessels and support facilities at the ferry crossings. The Department also provides comments and advice on other marine transportation initiatives.

The Department provides ferry services at five river crossings where the territorial all-weather highways traverse waterways. Connected with the Ferries Program, the Department maintains a close watch over federal marine legislation, regulation and policy activities.

There are three areas of program support:

- Management
- Maintenance and Refits
- Operations

**ROAD LICENSING AND SAFETY****Activity Description**

The purpose of the Road Licensing & Safety Program is to ensure the protection of public safety and the environment in all areas related to the use of motor vehicle and commercial vehicles.

The Department is responsible for the testing, registration and inspection of all drivers and vehicles that use the Territorial transportation network. The Department establishes and enforces the Acts, Regulations and Safety Codes that apply to drivers and motor vehicles including commercial motor carriers throughout the Territory.

Connected with the Road Licensing & Safety Program, the Department ensures the safe operation of all commercial vehicles through transportation legislation, inspections, regulations and policy activities. The Program ensures compliance with national policies and initiatives. The Program researches trends in highway transportation safety, technology development, and future opportunities for partnerships to ensure regulatory harmonization, implementation of new ideas and ensuring all drivers and vehicles are safe to share the roadways.

There are three areas of program support:

- Management
- Motor Carrier Services
- Safety & Regulations

## CORPORATE MANAGEMENT

### Activity Description

The Corporate Management activity consists of Directorate; Policy, Legislation and Communications; Corporate Costs; and Shared Services (Finance and Administration, and Informatics).

**Directorate** is responsible for overall direction and coordination of Departmental programs.

**Policy, Legislation and Communications** provides policy, legislative, strategic planning, coordination and communications support to enable the Department to respond effectively to economic and resource development issues of concern to the Northwest Territories (NWT). This function is responsible for coordinating environmental assessment and land use planning activities for the Department of Industry, Tourism and Investment (ITI). This function also coordinates ITI's participation in Aboriginal lands, resources and self-government negotiations, and provides input to negotiations for devolution of land and resources management from the Federal Government.

**Corporate Costs** captures Department wide specific costs such as lease payments, vehicle and building maintenance, fuel, and computer chargebacks.

**Shared Services** provides services to ITI and the Department of Environment and Natural Resources (ENR). Finance and Administration provides financial management and administrative services to the Departments. These services include budget development and control, authorizing financial transactions, financial reporting and the delivery of financial management training. Although the Informatics Division rests within ENR, Informatics also provides information management services to ITI: to assist in the delivery of ITI programs and services; improving research; decision support; information systems management/support; records management coordination; and library services.

## MINERALS AND PETROLEUM RESOURCES

### Activity Description

Minerals and Petroleum Resource activities are delivered through the Minerals, Oil and Gas; Mackenzie Valley Pipeline Office, and Industrial Initiatives Divisions.

**Minerals, Oil and Gas** participates in the development and promotion of initiatives and strategies to increase NWT economic benefits from resource development to NWT residents and businesses, and works with communities and other government departments and agencies to identify and realize opportunities from resource extraction activities in the NWT. It also participates in developing strategic plans for the transfer of provincial-type responsibilities with respect to oil, gas and mineral resources from the Federal Government to the GNWT.

Minerals, Oil and Gas also has responsibility for the administration of rough diamond supply agreements; monitoring of Approved NWT Diamond Manufacturers' rough, cut and polished diamonds; and management of the GNWT Diamond Certification Program.

The NWT Geoscience Office is a partnership between ITI and the Federal Department of Indian and Northern Affairs Canada and the Geological Survey of Canada. Its mandate is to advance geoscience knowledge of the NWT for the benefit of northerners, through delivery of geoscience research, analysis of mineral and petroleum resources, excellence in data management, and collaboration with partners.

**Mackenzie Valley Pipeline Office** delivers focused Government-wide coordination, planning and strategy formulation to maximize the benefits and mitigate the adverse impacts of the development of the proposed Mackenzie Gas Project (MGP). The Mackenzie Valley Pipeline Office also coordinates interdepartmental planning and information and communications on the MGP.

**Industrial Initiatives** facilitates the GNWT industry-related socio-economic activities that ensure northern resources provide northern benefits. It negotiates and implements agreements with industry on commitments made to NWT residents to mitigate adverse social and economic impacts relating to large-scale non-renewable resource development.

## ENERGY

### Activity Description

The Energy activity is delivered through the Energy Planning Division.

**Energy Planning** coordinates the development of GNWT-wide energy policy and planning that supports the sustainable development, generation, transmission and use of all non-renewable, non-conventional and renewable energy sources in the NWT. Energy Planning is also responsible for providing broad energy sector intelligence and representing GNWT energy policy interests at the provincial/territorial and national level.

**ECONOMIC DIVERSIFICATION AND BUSINESS SUPPORT****Activity Description**

Economic Diversification and Business Support activity is realized through programs and service activities in Investment and Economic Analysis, and the NWT Business Development and Investment Corporation.

**Investment and Economic Analysis** provides advice, coordination and support to a number of sectors, including businesses, arts and crafts, trade and investment, manufacturing and marketing, and acts as a link to national and international businesses and organizations. The function provides economic information and analyses to inform program and priority development. This function is also responsible for the administration of the Business Incentive Policy, GNWT Contract Registry, and manages and administers GNWT Certified Diamond marketing and promotion programs.

Traditional Economy is part of Investment and Economic Analysis and is responsible for the coordination, support and promotion of NWT agriculture, fisheries, trapping and commercial game harvesting to increase economic benefits for NWT residents, communities and businesses.

**Northwest Territories Business Development and Investment Corporation (BDIC)** Though not an entity of Industry, Tourism and Investment, ITI does provide the BDIC with an annual contribution agreement that supports the economic objectives of the GNWT by encouraging the creation and development of sustainable businesses in the NWT. BDIC does this by providing financial assistance on its own or in partnership with other financial institutions; by providing information relating to the establishment and operation of businesses; and by directly investing in business enterprises.

## CORPORATE MANAGEMENT

### Activity Description

The Corporate Management activity is carried out through the Directorate; Policy, Legislation and Communications; Corporate Shared Services (Finance and Administration and Informatics); and Field Support.

Divisions within this activity enable the Department to address environmental and resource management issues of concern to NWT residents. This activity promotes and undertakes: strategic planning; policy development; public education and information; compliance with environmental and renewable resource law; financial management and administration services; and geographic information system (GIS) and database system development and management so timely information is available to decision-makers and the public.

Corporate Management leads GNWT efforts to promote water resources management that protect water quality, quantity and aquatic ecosystem integrity. As well, Corporate Management coordinates Departmental input into negotiation of Aboriginal lands, resources and self-government agreements; federal land and water legislation reviews; land use planning; cumulative effects assessment and management; federal-provincial-territorial initiatives; and negotiations for devolution of land and resources management with the federal government.

Through Shared Services, Corporate Management provides budget development and control, financial reporting and management training, information systems management, records management coordination and library services.

This activity also includes Corporate Costs, which capture Department-wide specific costs such as lease payments, vehicle and building maintenance and fuel.

## ENVIRONMENT

### Activity Description

The Environment Division works with other departments, governments, industry and citizens to maintain a high quality environment for the benefit of current generations.

The Environmental Protection section works to prevent and reduce the impact of human activities on the natural environment by providing information, advice and programs in the areas of contaminated sites, hazardous substances, solid and hazardous wastes, and air quality.

The Energy Management section coordinates the GNWT's response to climate change by developing strategies and activities to control and inventory greenhouse gas emissions, identify climate change impacts, increase awareness of climate change and adapt to a warming climate. Working in partnership with the Arctic Energy Alliance, this section encourages energy conservation and the use of energy efficient technologies and alternative energy sources.

The Environmental Assessment and Monitoring section coordinates Departmental input into preliminary screenings of regulatory applications and renewal of permits and licences as well as the GNWT's participation in environmental assessments and environmental impact reviews.

**FOREST MANAGEMENT****Activity Description**

The Forest Management Division promotes stewardship of NWT forests through sustainable management of forest resources and forest fire management.

Sustainable forest management is ensured through the collection of information on the state of forest resources; forest management planning; monitoring of forest health and changes to forest landscapes; regulation of forest practices and planning; and compliance and reporting.

Forest fire management is achieved through prevention, preparedness and forest fire response. Using the best science, technology and effective use of available fire response resources, forest fire management provides for the protection of people, property and other values at risk from forest fire.

One priority is to increase the capacity of individuals, communities, industry and others to reduce fire hazards and hence forest fire risk.

## WILDLIFE

### Activity Description

The Wildlife Division works with co-management boards and others to assess and monitor wildlife, habitat, species at risk, wildlife health and biodiversity. Initiatives that address impacts on wildlife from human activity are coordinated. Plans and programs to support stewardship and the sustainable use of wildlife resources are developed. Sport fishing licences and wildlife research permits are issued. Public information materials are developed to address wildlife management, biodiversity, species at risk, as well as fishing and hunting regulations.

The Wildlife Division coordinates territorial input into national wildlife, species at risk and biodiversity programs. Regional enforcement staff undertake all compliance actions for wildlife and species at risk legislation.

Protected Areas provides a secretariat function to assist with the implementation of the NWT Protected Areas Strategy (PAS) in partnership with Indian and Northern Affairs Canada and Aboriginal, environmental and industry organizations.

## GLOSSARY

<b>Activity</b>	A division of a Program.
<b>Accumulated Amortization</b>	The total to date of the periodic amortization charges relating to tangible capital assets since they were placed in use.
<b>Amortization</b>	The systematic process of allocating the cost of capital assets to expense for the periods in which they provide benefits. For the purpose of tangible capital asset accounting in the Government of the Northwest Territories, amortization is calculated using the straight-line method, which assumes that an equal benefit is received in each year of the asset's estimated useful life. This term is used interchangeably with depreciation and is generally understood to mean the same thing.
<b>Appropriation</b>	A budget approved by the Legislative Assembly that permits obligations to be incurred and expenditures to be made. Appropriations are usually made for fixed amounts and are typically for a period of one year.
<b>Capital Assets in Service</b>	Assets currently being used in the production or supply of goods, delivery of services or program outputs.
<b>Budget</b>	An estimate of proposed expenditures for a given period and the proposed means (revenue estimates) of financing those expenditures.
<b>Capital Asset</b>	Property of a relatively permanent nature used in the operations of the government, and not intended for sale. Capital assets will have a useful life that extends over more than one fiscal period.
<b>Capital Expenditures</b>	An outlay of government resources, normally not of a recurring or continuing nature, for the purchase or construction of a capital asset, or an outlay which increases the expected useful life of an existing capital asset.
<b>Capital Projects</b>	Projects established for the purchase or construction of capital assets. Typically a capital project encompasses a purchase of land or equipment and/or the construction of a building or other facility. Small Capital projects are projects with a value less than \$400,000. Large Capital projects are projects with a value greater than \$400,000.
<b>Capital Recovery</b>	Receipt from a second or third party for the acquisition or construction of a capital asset by the Government of the Northwest Territories.
<b>Contribution</b>	A conditional transfer of appropriated funds to a public agency, community government or other organization that is accountable to the government for the use of the funds and fulfillment of the objectives for which the funding is provided.
<b>Control Object</b>	Appropriations for operations expense are further broken down into control objects. The control objects are as follows: <ul style="list-style-type: none"><li>• Compensation and Benefits;</li><li>• Grants and Contributions;</li><li>• Other Expenses; and,</li><li>• Amortization Expense.</li></ul>

**GLOSSARY**

<b>Department</b>	Organizational entity established by Cabinet to deliver programs and services within a specified mandate.
<b>Departmental Overview</b>	A summary of the vision, mission and goals of a government department.
<b>Disposals</b>	Voluntary (through sale, exchange, etc.) or involuntary (through damage or theft) disposal of capital assets. Upon disposal, the net book value of the asset is removed from the accounts.
<b>Estimates</b>	The estimated expenditures, to be approved by the Legislative Assembly, and forecasted revenues, for all government departments.
<b>Expenditure</b>	Funds paid or payable to acquire goods and services, consumed in Government operations or an investment in capital assets.
<b>Financial Management Board</b>	The Financial Management Board is a committee of the Executive Council, consisting of all members of the Executive Council, which is responsible for the financial management and administration of the Government of the Northwest Territories.
<b>Fiscal Year</b>	A consecutive twelve-month period designated as the reporting year of a government or organization. The Government of the Northwest Territories' fiscal year starts April 1 and ends March 31 of the following calendar year.
<b>Goal</b>	A high-level statement of the desired outcome of government activities to be achieved over an unspecified period of time.
<b>Grant</b>	An unconditional transfer of appropriated funds to a public agency, group or organization for which the recipient is, with the exception of meeting the eligibility criteria for the grant, not accountable to the government.
<b>Infrastructure</b>	The permanent facilities and organization structure in place for the purpose of delivering government programs.
<b>Infrastructure Contribution</b>	A contribution made to a third party by the Government to purchase, construct, develop or acquire a Tangible Capital Asset, where the ownership of the asset is retained by the third party.
<b>Net Book Value</b>	The cost of a tangible capital asset, less both accumulated amortization and the amount of any write-down.
<b>Position</b>	A job description established within the public service. The term "active positions" includes positions that are occupied, or that are temporarily vacant but will be staffed.
<b>Program</b>	The term used in the Government's Financial Information System to describe a department of the Government of the Northwest Territories.
<b>Public Agency</b>	A statutory body or territorial corporation specified in Schedule A or B of the Financial Administration Act.
<b>Regions</b>	Geographical sub-divisions of the Northwest Territories for administrative purposes.

**GLOSSARY****Tangible Capital Asset**

A non-financial asset of physical substance that is purchased, constructed, developed or otherwise acquired and has the following characteristics:

- It is held for use in the production or supply of goods, delivery of services or program outputs;
- It has a useful life extending beyond one fiscal year and is intended to be used on a continuing basis; and,
- It is not intended for resale in the ordinary course of operations.

The major categories of tangible capital assets are:

- Land (other than land acquired at no cost to the government);
- Roads and Bridges;
- Ferries;
- Airstrips and Aprons;
- Buildings;
- Water and Sewer Works;
- Leasehold Improvements;
- Mobile and Heavy Equipment;
- Other Major Equipment; and,
- Major Medical Equipment.

**Vote**

A specific segregation of spending authority into a broad category according to intended use such as operations expenses or capital investment authority.

**Work in Progress**

Records the value of capital assets under development or construction and not yet substantially complete or in service.

**Work Performed on Behalf of Others**

The Government undertakes to perform certain functions, in the Northwest Territories, on behalf of the Government of Canada or others. Expenditures incurred for these activities are fully recovered and are not required to be voted on by the Legislative Assembly.

## Budget Development Process

### INTRODUCTION

The Government of the Northwest Territories uses a comprehensive business planning approach, which guides the development of the Main Estimates. Business planning is a process used by many governments and other organizations to provide a link between strategic planning and resource allocation. Generally, business plans flow from an organization's longer-term strategic plan, but deal with a shorter time frame, propose further information on implementation, and include details on resource allocation.

The Main Estimates reflect the Government of the Northwest Territories' plan of action for the upcoming fiscal year. Specifically, they represent all anticipated expenditures and all anticipated revenues for the fiscal year.

The Main Estimates seek appropriation authority for the fiscal year, which begins April 1. The Budget Address, presented by the Minister of Finance at the time of presentation of the Main Estimates, is an integral part of the total budget package. In addition, the Government's Business Plans are tabled in the Legislative Assembly at the time of the Budget Speech and tabling of the Main Estimates.

Many individuals and organizations, both from within the government and from the public have been consulted during the planning and development stages of the budget process. However, the exact content of the Main Estimates is not public until tabled in the Legislative Assembly by the Minister of Finance. Traditionally, the budget presentation process prevents special interest advantages being obtained through advance information on government fiscal initiatives.

### PROCESS

The Main Estimates process consists of several phases:

1. *Fiscal Strategy development;*
2. *Business Plan development and review;*
3. *Main Estimates development process;*
4. *Budget Address development;*
5. *Presentation to the Legislative Assembly; and,*
6. *Preparation and entry of budgets into the Financial Information System.*

During the course of any given fiscal year, there are two other processes that are used to monitor and adjust the budget:

1. *Variance Reporting - Monitoring of Expenditures and Revenues against Budgets; and,*
2. *Supplementary Estimates.*

## Budget Development Process

### 1. *Fiscal Strategy Development*

Under the direction of the Minister of Finance, the Financial Management Board Secretariat prepares a multi-year fiscal framework. The framework is an overview of the projected financial position of the government based on a set of assumptions about revenues, expenditures, and federal transfer payments.

In the development of a fiscal strategy, the framework is used as a modeling tool to project the fiscal position of the government, assuming current policies and trends are maintained, as well as alternate positions based on various policy changes, new policies and new initiatives. This allows the Financial Management Board and the Executive Council to assess whether the current mix of expenditures and taxes are appropriate. If the mix cannot be sustained, or change is desired for policy reasons, it allows for an evaluation of alternatives in expenditures, taxation, and borrowing.

Based on the government's current financial position, program objectives and the fiscal alternative chosen, targets for each department are approved by the Financial Management Board and instructions are issued to departments for the development of multi-year business plans.

### 2. *Business Plan Development and Review*

The multi-year business planning approach links strategic planning with resource allocation. The business planning process includes setting goals, developing strategies to achieve the goals, and establishing targets and outcome measures. The Executive Council approves a multi-year Business Plan, which sets goals and strategic priorities for the government. The departmental business plans are developed to support the overall Government's goals. As part of the process, departments identify the challenges and pressures confronting them, and map out how to meet those challenges within available resources. Business Plans identify key strategies that each department will implement to achieve its goals, and also identify outcome measures and targets to be achieved.

Multi-year business plans focus on two areas of expenditure:

#### a) Operations Expenditures

The Financial Management Board establishes departmental planning targets. Individual departments develop and document projections of forced expenditure growth in existing programs on the basis of demographics or utilization trends, possible expenditure reductions, required service level increases and other anticipated changes for each departmental program. This is done in accordance with Financial Management Board instructions.

New or expanded programs are justified in relation to government priorities, policy directives, and/or changes to industrial norms or national standards.

Departmental multi-year business plans are submitted for review, analysis, and compilation by the Financial Management Board Secretariat and the Department of the Executive before presentation to the Financial Management Board and Executive Council. They are then referred to Legislative Standing Committees for review.

#### b) Infrastructure Investment

For the 2009-10 fiscal year, the Government moved the consideration of the Capital Plan to the fall session of the Legislative Assembly. The capital planning process provides for one capital investment target with all Departmental projects competing for the available funding. The result is that projects are prioritized on a government wide basis versus a departmental basis.

---

## Budget Development Process

The capital planning process for each planning cycle starts with community consultations. Community consultations are conducted to ensure communities are:

1. consulted annually on their capital needs;
2. provided explanations on the allocation of resources to capital investment; and the application of priority criteria along with the political and other influences on the process will be provided; and,
3. provided direct feedback on the consultations, including feedback to communities on the inclusion or exclusion of community projects in the capital plan or capital needs assessment; and if requested, a follow-up meeting with the communities to explain the capital plan and disposition of their proposed projects.

The results from community consultations are taken into consideration in the development of the initial capital needs assessments completed by departments. Projects included in the first five years of the needs assessment are then rated against a common set of criteria.

The rating of the proposed Infrastructure projects and the available funding are taken into consideration in developing a preliminary Infrastructure acquisition plan. The preliminary plan is first reviewed by a Deputy Ministers Steering Committee and secondly by the Financial Management Board prior to a review by Standing Committees and the final approval when presented in the Main Estimates to the Legislative Assembly. Changes to the plan can be affected through any of the reviews prior to final approval.

As of April 1, 2007, the Department of Municipal and Community Affairs has implemented the New Deal for NWT Community Governments. As part of this initiative, Community Governments are provided with responsibility for planning, managing and owning their Community Public Infrastructure. Beginning in the 2007-2008 fiscal year, Municipal and Community Affairs has flowed infrastructure funding through a Capital Formula to Community Governments. As Community Governments will have ownership for infrastructure built with these Formula funds, this will be recorded as Infrastructure Contributions and not be part of the Government of the Northwest Territories' Infrastructure Acquisition Planning target. Municipal and Community Affairs has been allocated a \$28 million target to allocate the Formula Funds. Due to the obligation to fund multi-year projects that have already begun, several projects are included in the 2007/08 plan, thus necessitating a phasing in of the Formula funding approach.

Draft Multi-Year Business Plans are reviewed by the Financial Management Board and then released to the Legislative Assembly for review by Standing Committees. Standing Committee comments and recommendations are considered by the Government in finalizing the Business Plans and preparing the Main Estimates.

### **3. Main Estimates Development Process**

Once the multi-year business plans and infrastructure acquisition plan have been reviewed by Standing Committees, departments proceed to prepare their annual estimates.

There is a minimum level of detail required in the development of the Main Estimates; departments may budget at more detailed levels, for internal purposes, as deemed necessary. Each department is responsible for the development of their budget. In this development a minimum level of detail is established which will meet the requirements of the Main Estimates and provide for the budget to be loaded into the Financial Information System.

---

## Budget Development Process

The Financial Management Board Secretariat coordinates all department information to produce the Main Estimates and is responsible for coordinating the input of the budget into the Financial Information System once that is approved by the Legislative Assembly.

The Main Estimates are reviewed by the Financial Management Board Secretariat for uniformity, consistency of presentation and adherence to targets and guidelines. The Financial Management Board then approves the Draft Main Estimates for forwarding to the Legislative Assembly Standing Committees for their review prior to the commencement of the Budget Session.

### 4. *Budget Address Development*

Under the direction of the Minister of Finance, the Department of Finance drafts the text of the budget address.

The budget address includes an outline of current trends and anticipated developments and identifies the government plan of action, related to its established strategies and priorities, for the upcoming fiscal year.

In addition, the address highlights or announces new tax and program initiatives and their expected impacts on the economy and government revenues or expenditures.

### 5. *Presentation to the Legislative Assembly*

Following the presentation of the Budget Address to the Legislative Assembly by the Minister of Finance, the Main Estimates are released to Members of the Legislative Assembly, the general public, and the media. After the Legislative Assembly has completed its review, the Assembly approves the Appropriation Act.

### 6. *Preparation and Entry of Approved Budgets into the Financial Information System*

The departments are required to provide the detailed data and coding structure, in a format established by the Financial Management Board Secretariat, for entry of the budget into the Financial Information System.

This function of budget entry consists primarily of the distribution of the annual budget by months. A number of computer-assisted tools are available to departments for this purpose (e.g. historical records, budget year payroll patterns).

The Financial Management Board Secretariat reviews the monthly budget flows and budget totals are confirmed against the amounts approved by the Legislative Assembly before transference to the Financial Information System.

The actual transfer is completely automated and is organized so that departmental budgets are in place on April 1.

### 7. *Variance Reporting - Monitoring of Expenditures and Revenues against Budgets*

During the course of the year, the Financial Information System produces monthly reports comparing year-to-date revenues and expenditures to the year-to-date budget.

Departments must formally respond monthly to the Financial Management Board on the status of their expenditures and revenues-to-date, as compared to budget, and provide projections to year-end.

The Financial Information System is fully automated and exercises absolute control at the Vote/Department/Regional level. The system will not allow further expenditures by a department if the expenditure will cause the department to exceed its budget. At the activity level, the system issues a warning when an activity budget is about to be exceeded.

## Budget Development Process

In the capital process, this absolute system control extends to the capital project level. A formal project variance/status review is conducted by the Financial Management Board, quarterly, on a schedule that relates to critical stages of the capital expenditure process.

The variance information and revised year-end projections, obtained through the expenditure and revenue monitoring mechanisms, are used during the year to monitor actual performance against the Government's fiscal framework and anticipate requirements for supplementary appropriations.

### 8. *Supplementary Estimates*

During the course of any given year, increases may be required to a department's spending authority. This is accomplished by way of Supplementary Estimates. They are presented to the Legislative Assembly, for approval, during regular sittings of the House.

In emergency situations, the Financial Management Board may recommend a Special Warrant to the Commissioner for advanced spending authority, to allow a department to respond quickly to a new or unforeseen need that meets the criteria of an emergency as defined by the Financial Administration Act. The Special Warrant is included in the subsequent Supplementary Estimate.

Upon approval of Supplementary Estimates by the Legislative Assembly, budget entries are prepared and entered into the Financial Information System.

### 9. *Results Reporting*

All departments establish performance measurement systems to monitor both the administrative outputs and the broader outcomes of their programs and services. In addition, departments publish key outcomes, measures and targets in their multi-year Business Plans.
