TABLED ON JUNE 28, 1984

TABLED DOCUMENT: 21-84(2)

TABLED: June 28, 1984

SANIKILUAQ EDUCATION COMMITTEE
Meeting - June 12/84

Education Committee members agree that:

Regarding: Inmates' Passes

THEREFORE, we recommend, (due to the fact that the Correction Institute is too close to the residence) that the Correction Institute be moved farther away from the student residence for the safety of the students just in case, there is an escape and because the student residence will be there for a long time, that is why we would like the Correction Institute to be moved away from the student residence.

This comes from Education Committee in Sanikiluaq -

I move that, the facility being constructed located adjacent to Ukkivik be moved. We would like the Corrections facility moved because inmates might bother the students at the residence. We feel that the Education funds would go to waste due to students being bothered by the inmates and have no more incentives for schooling/or might affect their schooling due to being bothered, and also we want the students in the residence to have a home environment and learn in school properly. Please reply as soon as possible. Thank you for your assistance.

We would like the proposed Correction facility moved away from Ukkivik residence because we would like the students to learn properly, and because they should not feel threatened by inmates and they do not have any other home in Frobisher.
