INTRODUCTION

I am pleased to present this interim report to the Legislative Assembly to illustrate the progress made by officials of my department since they began administering the Business Incentive Policy to December 31, 1985.

Of considerable satisfaction to my colleagues of the Executive Council, and myself, is the favorable reception, voiced by the NWT Business Council, to the way in which the policy has been administered.

This interim report was not designed to go into the economic impact the policy has had on the territorial economy. A final in-depth report will be prepared by the Priorities and Planning Secretariat for presentation to the Executive Council in 1987, the results of which will determine the future direction of the policy.

Tom Butters,
Minister.

ACKNOWLEDGEMENTS

I wish to acknowledge, with thanks, the assistance of the following Ministers of contract authorities without whose help this report could not have been prepared:

Hon. Gordon Wray

Public Works & Highways

Hon. Michael Ballantyne

Northwest Territories
Housing Corporation

Hon. Bruce McLaughlin

Workers Compensation
Board

HISTORY

From December 13, 1984 when the Business Incentive Policy was approved the following are the more important events that have occurred:

1. All businesses approved under the former policy were advised of the change and invited to apply for registration under the Business Incentive Policy.
2. New resources were added to allow Government Services to administer the policy.
3. Qualification Committees were struck in each Regional headquarters and in Yellowknife to rule on the eligibility of applicants.
4. Following a revision to the policy on February 28, 1985 an Appeal Committee was established to hear appeals from businesses who believed their application had been unfairly dealt with.
5. Lists of approved and rejected contractors were distributed to all government contract authorities.
6. A Business Incentive handbook was developed to explain the more important aspects of the policy distribution.
7. A Business Incentive registry was developed which contained:
 - i copy of the Business Incentive Policy,
 - ii standard commodity code listing covering goods and services
 - iii classified listing of approved contractors by commodity code,
 - iv alphabetical listing of approved contractors,
 - v alphabetical listing of rejected contractors
 - vi copy of the Business Incentive handbook.
8. The Business Incentive registry has been distributed to all government contract authorities plus:
 - i NWT Chambers of Commerce
 - ii Government libraries
 - iii NWT Construction Association
 - iv NWT Business Council
 - v Senior Liaison Officer - Edmonton

9. The registry is updated and distributed regularly.

10. As of December 31, 1985, there were:

- 650 approved contractors,
- 73 rejected contractors,
- 16 appeals filed, all of which were rejected.

OBJECTIVES FOR 1986

My Department's plans for 1986 consist of the following activities, in addition to the ongoing review of new applications and appeals:

- i Contact all approved contractors and request they reaffirm their businesses continue to meet the Policy criteria under which they were originally approved.
- ii Visit and speak to Chambers of Commerce explaining the reaffirmation plan.
- iii Ask approved contractors to advise us of goods and services supplied and use this information to update the classified listing by commodity code.
- iv Review similar policies from other jurisdictions and compare their features to the Business Incentive Policy.
- v Produce the Business Incentive handbook in the Eastern and Copper inuktitut dialects and produce it on cassettes in the Dene languages.
