A Message From The Chairperson

On behalf of the Board of Directors, I am pleased to present the first annual report of the newly created Northwest Territories Business Development and Investment Corporation (BDIC).

On April 1, 2005, the BDIC was created to streamline and improve the coordination of the GNWT's business assistance programs, allowing for more flexibility in the delivery of programs and a broader range of services, including business information services. The operations and programs of both the former NWT Business Credit Corporation and the former NWT Development Corporation continue to be delivered by the BDIC. In addition, the BDIC also has a new focus area – Business Services. In that light, responsibility for Canada Business NWT was also transferred to the BDIC.

The Board met seven times during the 2005/2006 fiscal year, either in person or via teleconference. The initial nine members of the BDIC Board included five individuals who were on the Board of one of the BDIC's predecessor corporations. I would like to express my appreciation to the Board for their hard work in establishing a strategic direction for this new organization.

In 2005/2006, the BDIC also welcomed a new Chief Executive Officer, Mr. Pawan Chugh. I would like to thank Pawan and the rest of the BDIC staff for maintaining seamless program delivery through the transition period. We have accomplished a lot and are looking forward to continuing to provide a valued service to the NWT business community and building on the momentum created in 2005/2006.

Mahsi.

D. Beaulieu

The BDIC made significant progress towards meeting all of the Board's strategic objectives, thus creating a strong foundation for additional efforts in 2006/2007.

2005/2006 has been a year of many changes and some challenges. One area in which the BDIC experienced a significant change was financial reporting requirements. These changes affected the completion, presentation and audit of our 2005/2006 financial statements. As a result, the 2005/2006 figures will appear in the 2006/2007 Annual Report, along with the figures for that fiscal year.

At its first meeting, in April 2005, the BDIC Board approved a Corporate Plan that included several strategic objectives. The main objective was to undertake a full review of all existing business assistance programs. The other strategic objectives included the development of an evaluation system to measure program performance, the implementation of a strategy to reduce credit program losses, and the development of an engagement plan with the NWT business community, and the development of a plan for partnership with financial institutions and other organizations.

In 2005/2006, the BDIC approved \$7,814,000 in loans and \$24,800 in contributions. It continued to support six active subsidiary companies, which provide much-needed employment opportunities in smaller communities across the NWT, and maintained venture investments in fourteen companies. Through the Canada-NWT Business Service Centre, the BDIC also provided information and support in response to 639 enquiries from entrepreneurs and other members of the public.

During its first year, the BDIC made progress towards achieving a streamlined, coordinated approach to business program delivery. It integrated the credit facilities programs of the former NWT Business Credit Corporation with the venture investment, contribution, and subsidiary programs of the former NWT Development Corporation. Through its contribution program and the Canada-NWT Business Service Centre, the BDIC now provides one-stop access to business support – from pre-application inquiries to aftercare.

A Message From The Chief Executive Officer

Thank you.

P. Chugh

The BDIC's vision is:

A Northwest Territories business sector leading a diversified, sustainable economy that attracts investment and provides Northerners with opportunities to be self-reliant.

The BDIC's mission is:

To strive for excellence in providing community and regional economic development services, including the provision of financial assistance; meaningful, timely and relevant business information; and support, promotion and mentoring to existing and potential businesses.

The BDIC's vision and mission emphasize the importance of business development in ensuring long-term prosperity for the Northwest Territories (NWT). They also recognize that a sustainable economy is based on Northerners' capacity to establish and maintain successful businesses, allowing them to be self-reliant and to participate fully in the economic and social life of the NWT.
