

Business Development Fund

April 1, 2006 - March 31, 2007

Annual Report / Recipients Report

**Northwest
Territories Industry, Tourism and Investment**

Introduction

This Annual Report provides an overview of the contributions made to Northwest Territories (NWT) businesses in 2006/2007 under the Department of Industry, Tourism and Investment (ITI) Business Development Fund (BDF).

The BDF total program funding was \$1,417,405. The Annual Report is broken down into two categories. Category I refers to Schedules A to E and I, under which \$885,844 was provided in assistance, and Category II refers to Schedule G under which \$531,606 was provided in assistance.

Purpose of Fund

The BDF is a contribution fund aimed at stimulating employment and economic development throughout the NWT.

The BDF adheres to the Department of ITI vision to be recognized as a client-focused organization and supports ITI's goal to promote and support a diversified economy that provides opportunities for NWT residents.

Program Description

The BDF is made up of the following Program Schedules:

Planning and Other Development Costs (schedule A-1) - assists businesses to meet pre-establishment or pre-expansion costs when there is a good possibility of increasing regional sales or displacing imported goods and services. This may include the cost of engineering or other pre-construction costs, feasibility studies, business plans and assisting with legal and regulatory costs.

Pilot or Demonstration Projects (schedule A-2) - assists businesses to establish pilot or demonstration projects to determine/assess the applicability of new technology.

Business Creation or Expansion (schedule B-1) - encourages the expansion and development of trade, services, renewable resources and manufacturing businesses through new business start-ups or expansions. Assistance is primarily directed to expansion related capital costs.

Market and Product Development (schedule C) - assists businesses to generate and increase sales of NWT products, goods and services to new markets or to develop new products for existing markets. Related costs include marketing and product development expenditures.

Business Skills (schedule D) - assists in short term management or business training where not available from other sources.

Business Relief (schedule E) - assists businesses in smaller or less developed communities in financial difficulty to identify problems and develop plans to overcome them.

Community Initiative (schedule G) - assists with initiatives that build on local or regional economic development strategies, addresses impediments to economic growth, and promotes the development of a stable, diversified economy.

Traditional Arts and Fine Crafts – Raw Materials (schedule I) - assists artists and crafters to purchase raw materials for the production of traditional art and fine craft products for sale.

Principles

The BDF is intended to fill the gaps in programs and services offered by other agencies. There are several underlying principles which govern the decision making process.

Need

All other sources of funding must be approached and the applicant must demonstrate that the project cannot economically proceed without BDF financial assistance.

Sustainability

Generally, the project must demonstrate that there is potential for long-term viability.

Shared Risk

The Program recognizes that most business opportunities bring with them varying degrees of risk. Through a BDF contribution, ITI is willing to share the risk with the applicant.

Economic Benefits

Job creation, increased exports and reduced imports are all factors which determine whether a project will receive support.

Communities in the North are divided into three groups for the purpose of this Fund. A business in a less developed community would be eligible to receive a larger proportion of the required funding in the form of a contribution than a business in a more developed community.

Definitions – Community Levels

Level 1: Communities defined as having reasonable to good transportation linkages. Typically they have developed internal and external markets; they have a larger population base and per capita income, low unemployment, a stable business community and related infrastructure. For the 2006/2007 fiscal year, Yellowknife, Hay River, Fort Smith and Inuvik were classified as Level 1 communities.

Level 2: Communities defined as having limited but potential markets, lower per capita incomes, higher unemployment, fewer businesses and less developed physical infrastructure. There were only three communities classified as Level 2 for 2006/2007 – Fort Simpson, Norman Wells and Behchoko.

Level 3: Communities defined as being isolated, having high levels of unemployment, limited transportation, limited business opportunities and economies almost entirely linked to resource harvesting. For 2006/2007, there were 27 communities identified as Level 3.

Program Summary

The objective of the BDF is to help businesses create jobs and income for Northerners.

To do this, ITI has developed a number of programs for small businesses. The BDF is a contribution program for businesses across the NWT. It has been in operation since 1991.

In 1996/1997, Schedule G: Community Initiative Program (CIP) was developed and added to the BDF. Whereas the focus of Schedules A to E is on individual businesses, the CIP focus is on projects that benefit groups of businesses.

In 2002/2003, Schedule H: Young Entrepreneur was developed and added to the BDF. Schedule H focused on NWT residents aged 18 to 29, assisting our emerging youth getting into business. This Schedule expired on March 31, 2004 and has been removed from the BDF Policy.

In 2004/2005, the Departments of Resources, Wildlife and Economic Development (now ITI) and Education, Culture and Employment (ECE) together released the NWT Arts Strategy. Both Departments increased their financial contributions for local artists. Schedule I was developed and added to the BDF with an additional \$50,000 to the program to support the acquisition of traditional materials for arts and fine crafts.

Summary of Results

In the fiscal year 2006/2007, the Department provided \$1.4 million in contributions to 231 individuals, businesses and organizations in the NWT.

Contributions in this Report are considered in two categories: Schedules A to E and I, business programs that provided \$885,844 in approved funding; and \$531,606 in approved funding through Schedule G, Community Initiatives.

Guided by the NWT Arts Strategy, contributions through Schedule I, Traditional Arts and Fine Crafts-Raw Materials, provided \$133,781 in approved funding to 94 individuals and businesses.

Through Schedule G, Community Initiative, 42 Aboriginal businesses were assisted and through Schedule A to E and I, 142 Aboriginal businesses were supported. This resulted in 80% of program funding reaching Aboriginal businesses in the NWT.

The NWT 2006/2007 Main Estimate budget for the BDF was \$1,179,000. As the NWT business economy grows, greater financial assistance by small businesses is required and an additional \$238,450 was allocated to the Program.

Category I

Fund Performance – Schedules A to E, and I

Table 1 summarizes the Program's major funding activity for the past five years for schedules A to E, and I.

Table 1 - Contribution Funding Over Five Years

	Number of Applications	Number of Applications Approved	Approved Funding (\$000)	Approval as a Percentage Of Total Applicants	Number of Aboriginal Applications Approved	Aboriginal Approvals as a Percentage of Total Approved
2002/2003	117	88	\$821	75%	65	74%
2003/2004	116	94	\$810	81%	61	65%
2004/2005	123	98	\$726	80%	66	67%
2005/2006	203	171	\$1,027	84%	145	85%
2006/2007	209	175	\$886	84%	142	81%
Totals	768	626	\$4,270	82%	479	77%

Funding Activity

Category I of this Report summarize contributions provided under Schedules A-E and I for the current fiscal year, 2006/2007. The following are some Program highlights:

- ✓ The Program received 209 applications. One hundred and seventy five (175) were approved. This amounts to an 84% approval rating.
- ✓ \$1,230,674 in assistance was requested and \$885,844 was approved, or 72% of the total amount requested.
- ✓ The \$885,844 in contribution assistance leveraged an additional \$690,939 in equity investment and \$501,683 in other financing.
- ✓ The average amount of an approved contribution was \$5,062.
- ✓ Eight (8) contributions were approved for \$25,000 or greater.

Figure 1 Number of BDF Contributions by Amount.
 (Average contribution amount was \$5,062)

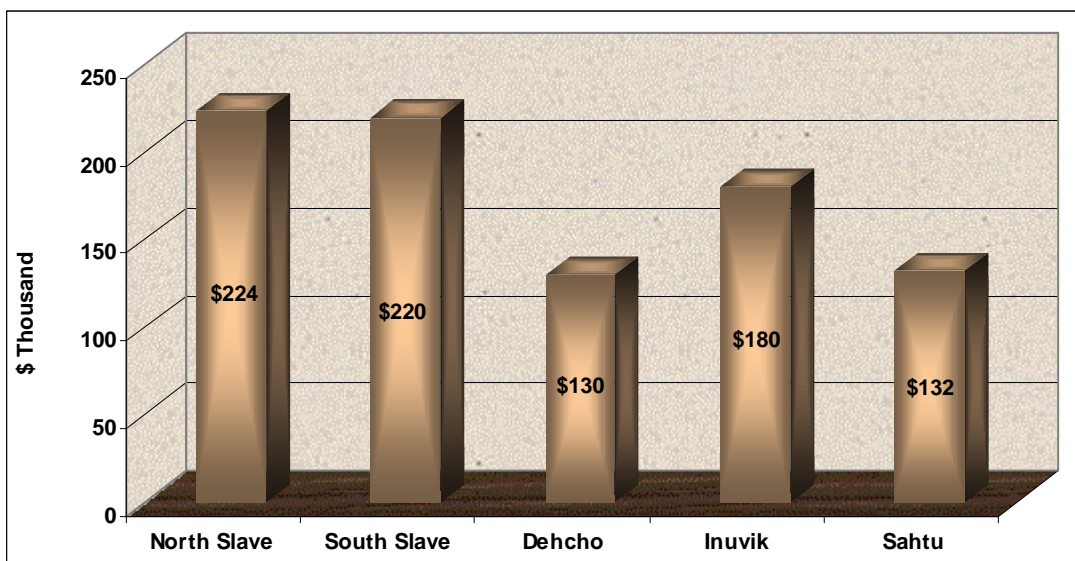

Figure 2 Values of Contributions by Region. (For the purposes of administration, the Department of ITI allocates its contributions in five distinct Regions.)

Impact on Community Levels

Communities in the North are divided into three levels. Level 1 communities have well developed community business infrastructure and air/road transportation links. Level 2 communities have less developed business infrastructure and air/road transportation links. Level 3 communities have the least developed business infrastructure and air/road transportation links.

R	Other Service Industries	\$141,165
	Total	<u>\$885,844</u>

BDF Assistance (Schedule A-E and I) by Type of Program

The BDF has been designed to assist businesses through the various stages of their development. Assistance is available to help plan a business start-up, develop business skills, secure investment and develop new markets and products. These Programs apply to all businesses in every sector of the economy.

Table 5 – Value of Assistance Provided by Program

Programs - Eligible Activities	Schedule	Total Contribution
Planning & other Developmental costs	A-1	\$135,576
Pilot or Demonstration Projects	A-2	\$25,000
Business Creation or Expansion	B-1	\$262,852
Market Development & Product Promotion	C	\$66,959
Business Skills	D	\$31,016
Business Relief	E	\$230,658
Traditional Arts and Fine Crafts - Raw Material	I	\$133,780
Total		\$885,844

Figure 4 – Value of Assistance Provided by Program

BDF Assistance (Schedule A to E and I) to Aboriginal Businesses

During 2006/2007, the BDF assisted 142 Aboriginal Businesses. Aboriginal Businesses are defined as those businesses having 50% or more Aboriginal ownership.

Figure 5 shows Contribution Assistance provided to Aboriginal Businesses distributed by community level.

Figure 5 - Distribution by Community Level to Aboriginal Businesses.

Distribution of BDF Contributions (A to E and I) Approved by Aboriginal and Non-Aboriginal Businesses

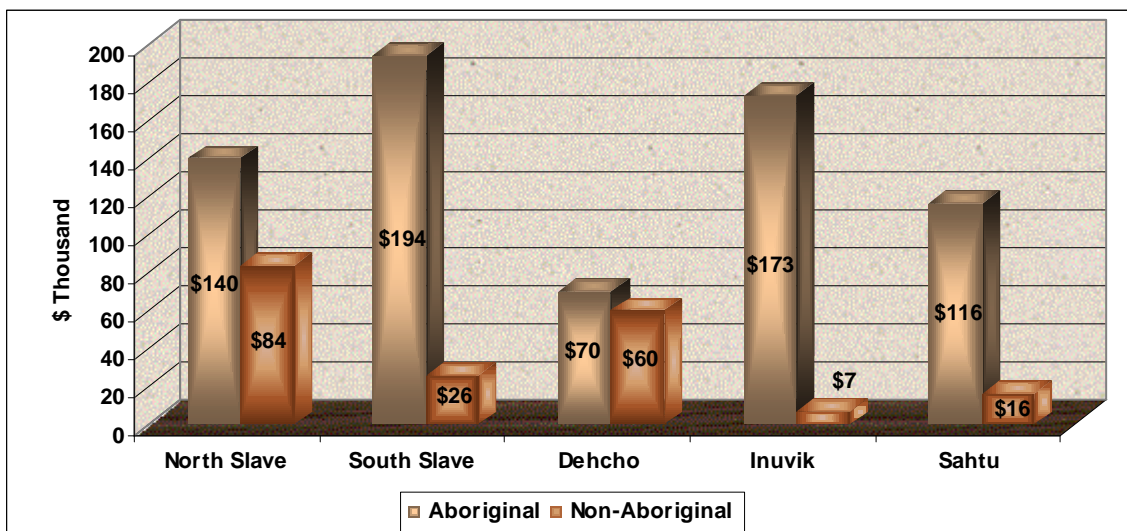

These charts summarize the total value of assistance approved by each Region, broken into Aboriginal and non-Aboriginal Business categories.

Total contribution assistance provided to Aboriginal Businesses was \$692,822, or 78% of total approved funds. The regional distribution of assistance to Aboriginal owned and controlled businesses is shown in Table 6 and Figure 6.

Table 6 - Distribution of Contributions Approved

Region	Aboriginal	Non-Aboriginal	Total Contribution	Aboriginal as a % of Total Contribution
North Slave	\$140,475	\$83,845	\$224,320	63%
South Slave	\$193,704	\$26,110	\$219,814	88%
Dehcho	\$69,734	\$59,820	\$129,554	54%
Inuvik	\$172,839	\$7,163	\$180,002	96%
Sahtu	\$116,070	\$16,084	\$132,154	88%
Total	\$692,822	\$193,022	\$885,844	78%

Figure 6 - Distribution of Contributions Approved.

Number of BDF Contributions Submitted and Approved For Aboriginal and Non-Aboriginal Businesses

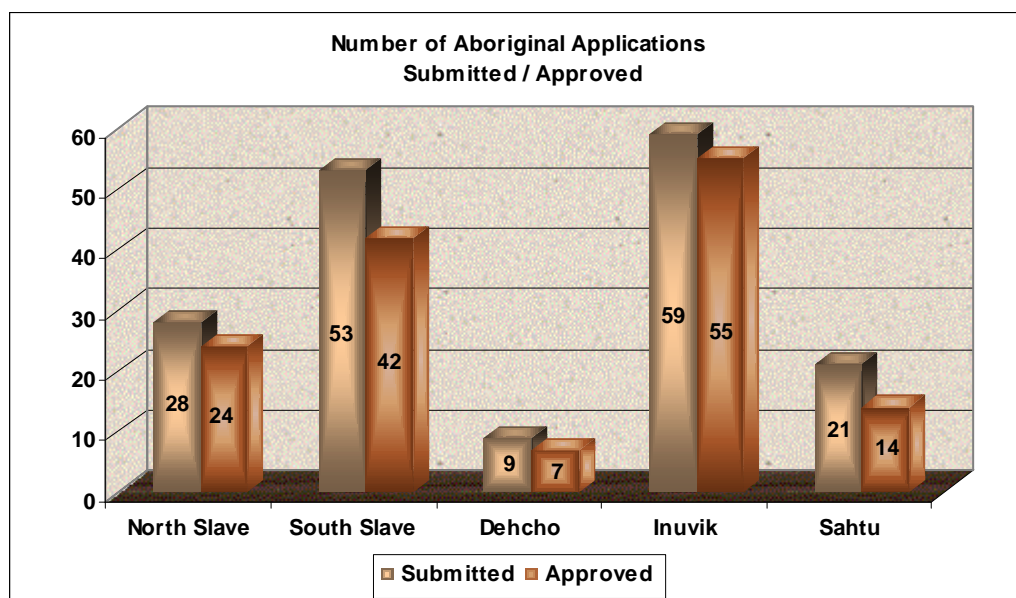

These charts summarize the total number of applications submitted and approved by each Region, split into Aboriginal and non-Aboriginal Business categories.

The total number of approved applications to Aboriginal Businesses was 142, or 84% of total Aboriginal applications submitted. The regional delivery of approved applications to Aboriginal owned and controlled business is shown in Table 7 and Figure 7.

Table 7 – Number of Applications Submitted / Approved

Region	Aboriginal Applications		Non-Aboriginal Applications		Total	Aboriginal Applications
	Submitted	Approved	Submitted	Approved	Number of Applications Approved	% of Total Aboriginal Applications Submitted
North Slave	28	24	13	12	36	86%
South Slave	53	42	17	13	55	79%
Dehcho	9	7	4	4	11	78%
Inuvik	59	55	3	2	57	93%
Sahtu	21	14	2	2	16	67%
Total	170	142	39	33	175	84%

Business Creation or Expansion – Schedule B-1 Distribution of Jobs Created and Jobs Maintained by Region

Approved contributions under the BDF, Business Creation or Expansion, under Schedule B-1 amounted to \$262,852 for 2006/2007. Based on client applications, 16 full-time jobs and 22 part-time jobs were created. Of these positions, 2 full-time jobs and 8 part-time jobs were maintained. Figure 8 shows the number of jobs created by Region.

Category II

Community Initiatives Program (CIP) – Schedule G

CIP was developed in 1996/1997 to replace funding previously provided under the Canada NWT EDA Program.

The CIP is schedule G under the BDF.

The CIP is designed to work in partnership with other community development programs to build a stable economic base at the regional and community level. Through this Program, funds will contribute to initiatives that build on local or regional economic development strategies, address impediments to economic growth and promote the development of a stable, diversified economy.

Through the CIP, ITI contributes funds directly to community and regionally based organizations to support community economic development projects. The Policy supports a broad range of economic initiatives, from community planning and feasibility studies, to infrastructure development, and skills training.

CIP Performance

Table 1-A summarizes the Program's major funding activity for the past five years.

Table 1-A – Contribution Funding Over Five Years

	Number of Applications	Number of Applications Approved	Approved Funding (\$000)	Approval as a Percentage Of Total Applicants	Number of Aboriginal Applications Approved	Aboriginal Approvals as a Percentage of Total Approved
2002/2003	65	48	\$479	74%	41	85%
2003/2004	53	43	\$338	81%	35	81%
2004/2005	32	28	\$209	88%	21	75%
2005/2006	51	48	\$574	94%	37	77%
2006/2007	63	56	\$532	89%	42	75%
Totals	264	223	\$2,132	84%	176	79%

Funding Activity

Category II of this report summarizes CIP Contributions for the fiscal year 2006/2007. The following are some program highlights:

- ✓ The Program considered 63 applications and provided assistance to 56 applicants. This amounts to an 89% approval rate.
- ✓ \$772,816 in assistance was requested and \$531,606 was approved (69% of the total amount requested).
- ✓ The \$531,606 in contribution assistance leveraged an additional \$349,587 in equity investment and \$600,620 in other financing.
- ✓ The average amount of an approved application was \$9,423.
- ✓ There were five (5) contributions approved for \$25,000 or greater.
