

A NEW RENT SCALE FOR SOCIAL HOUSING

November, 1994

INTRODUCTION - THE NEED FOR CHANGE

The current Rent Scale has not been revised since 1983. It is out of date, and does not treat all tenants fairly. Some of the problems with the current scale and why there is a need for change are:

- The current Rent Scale charges too much rent for low income, employed households.
- The maximum unit rents are not fair. Households living in similar houses with identical incomes in different communities may pay very different rents.
- Households, where a disabled person or a senior is named the head of the household pay a fixed rent, (usually \$32), even if other household members are earning high incomes.
- In communities with artificially low maximum unit rents, GNWT employees living in Social Housing pay much lower rents than they would in comparable GNWT staff accommodation.
- The current Rent Scale results in a significant loss in Federal funding. Failure to change the Rent Scale will result in a loss of \$8 million dollars in Federal funding annually.

CONSULTATION ON THE RENT SCALE

Over the years, in many reports and consultation meetings, tenants, community leaders and MLAs have urged that the Rent Scale be changed.

In April, a proposal for a new Social Housing Rent Scale was tabled in the Legislative Assembly. Copies of the complete proposal were also sent to every Housing Association and Authority, and every community government, Band Council, Metis Local and Inuvialuit Development Corporations.

Community and District Consultation meetings were held across the NWT during the spring and summer and residents made many suggestions for changing the Rent Scale. The impact of implementing various Rent Scale options has been analyzed extensively.

As well, the Legislative Assembly's Special Committee on Social Housing met to review the Rent Scale Proposal, the comments on the proposal raised at the District Consultation meetings, and to make recommendations on the content of the new Rent Scale.

Consultation on the Rent Scale, cont'd

Based on what has been said during the consultation process, the new Rent Scale contains the following:

- 1) The new Rent Scale will be applied in the same way in every community. It will treat all tenants fairly, regardless of where they live.
- 2) Low income tenants will pay less rent.
- 3) Seniors will not lose their housing because other family members fail to pay rent. In fact, seniors, 60 years of age and older, will have their rents 100% subsidized. They will be charged no rent. Other household members, living with seniors, will be assessed rent based on their income.
- 4) Income earned by individuals from the following sources will be exempted for purposes of calculating rent:
 - Disabled persons receiving Disability Pensions.
 - Social Assistance payments.
 - Workers' Compensation Board Benefits.
 - Income earned traditionally by independent operators principally engaged in hunting, fishing or trapping.
 - Widows or Survivors' Pensions.

Consultation on the Rent Scale, cont'd

- 5) The Corporation is working with the Department of Education, Culture and Employment to ensure that rents charged to students living in Social Housing will be consistent with rents charged for student housing.
- 6) All rents will be affordable. Everyone will pay less than 30% of their assessable income for rent. No one will pay more than the economic rent.
- 7) Increases will be phased in over four years beginning April 1, 1995. This will ensure that those whose rents will increase, have time to plan and budget for the increase.
- 8) Rent decreases will be implemented beginning April 1, 1995.
- 9) High income tenants will be encouraged to become homeowners. Options for homeownership and specially targeted counselling for those high income tenants most affected by the new Rent Scale, will be available to help them make the transition to homeownership. Higher income tenants moving into Homeownership units will free up Social Housing units for lower income families who are most in need of this type of housing.

Consultation on the Rent Scale, cont'd

- 10) The Social Housing program offered by the Corporation is an important component of the social programs offered to people in the NWT by the Government of the Northwest Territories. The Corporation is participating in the government-wide Income Support Review now underway and the new Rent Scale will be reviewed as part of the overall Income Support project.
- 11) Education will be encouraged. Training allowances and government funded child care subsidies will not be included as assessable income. Also, tenants who leave their home communities temporarily to get training in another community, will be able to get Social Housing immediately when they return.
- 12) Employment will be encouraged. In any rent geared to income scale, rent goes up as income increases. With the current Rent Scale, tenants on Social Assistance who take low paying jobs, have their rents increased to 25% of their gross income. Under the new Scale, the lowest income tenants rents will start at just 6.4% of income.

SUMMARY OF THE NEW RENT SCALE

- Seniors, 60 years of age and older, who qualify to get into Social Housing, will have their rents 100% subsidized.
- The minimum rent remains at \$32.00 per month.
- Rent calculations are based on a scale starting at 6.4% to a maximum of 30% of assessable income.
- Rental increases will be phased in over four years based on the following schedule.

Annual Increase

Total Increase

April 1, 1995 - 30% of the increase

April 1, 1996 - 30% of the increase → 60% of total

April 1, 1997 - 30% of the increase → 90% of total

April 1, 1998 - 10% of the increase → 100% of total

APPENDIX A shows how to calculate rent using the new Rent Scale.

Summary of Rent Scale Cont'd.

DEDUCTIONS FOR SPECIAL CIRCUMSTANCES

The new Rent Scale features a number of deductions for specific circumstances, in addition to a basic household deduction:

Basic Household Deduction

The new Rent Scale includes a deduction of \$400.00 per month (\$4,800.00 per year) from the total household assessable income. This is an across-the-board deduction that does not vary with community or household size. Using a fixed amount rather than a percentage of income, provides greater assistance to lower income families.

Summary of Rent Scale Cont'd.

Cost of Living Deduction

The purpose of the cost of living deduction is to charge **families living in more remote communities less rent**, so they can better afford high cost items like food, clothing and fuel for boats and snow machines. In this way, the Social Housing Program will continue to subsidize expensive, non-housing items.

The proposed cost of living deduction varies by community and is based on the Northern Cost Index established by the Department of Municipal and Community Affairs, for communities. This scale was selected as a result of Special Committee on Housing meeting discussions, since it reflects community specific costs and uses a well known scale at the community level.

The cost of living rent deduction will also apply to all families and individuals. Table 3 in Appendix A shows the cost of living deductions by community and size of household.

Summary of Rent Scale Cont'd.

Unit Condition Rent Adjustment

A rental deduction for the condition of the unit is included in the scale. The amount of rent deduction will vary depending on the condition of the unit - the poorer the condition of the unit, the bigger the rent deduction. The deduction will be based on inspections of units under the Corporation's Standard Unit Condition Rating System.

Where units lack basic facilities or the overall condition rating is less than 60%, tenants will receive a rent adjustment. The component of the deduction related to the overall unit condition rating will be based on a graduated scale.

Deductions for unit condition will be capped so that they do not result in a rent less than the minimum rent of \$32.00 per month. The rent adjustment will not apply to tenants who are above the maximum Core Need Income Threshold (CNIT) and where tenant damage has contributed to the condition of the unit.

Table 4 in Appendix A shows how to calculate the Unit Condition Rent Adjustment.

Summary of Rent Scale Cont'd.

THE NEW SCALE IN HOMEOWNERSHIP COMMUNITIES

Some Social Housing tenants in Homeownership communities (as identified in the current Rent Scale) have been paying higher rents for a number of years than tenants in non-Homeownership communities. In recognition of this, some tenants in Homeownership communities will be given a rebate or a credit against their future rent payments/arrears of 10% of the previous years rent paid. This rebate/credit will only be applied during the period of phase in of the Rent Scale increases and will be implemented only once a year.

IMPACT OF PROPOSED RENT SCALE ON HOUSEHOLDS	
Households Whose Rent Will Increase	Households Whose Rent Will Decrease or Remain the Same
<p>Households where members of the household other than the head and spouse have significant earnings.</p> <p>High income households who have been paying the artificially low maximum rents.</p> <p>Households headed by Senior Citizens or Disabled Persons where other household members have significant incomes.</p>	<p>Households with low incomes from wages and salaries.</p> <p>Households living on Unemployment Insurance Benefits.</p> <p>Low income single parent households.</p> <p>Households where household members are participating in training programs or attending school.</p> <p>Households with a single senior or senior couple.</p> <p>Households where most of the income is that received by members who are regular recipients of:</p> <ul style="list-style-type: none"> - Disability Benefits and/or Social Assistance Benefits. - Disabled and Workers' Compensation Benefits - Students receiving training/employment allowances - Traditional income from hunting, fishing or trapping.

NOTE: Income information was collected from Social Housing tenants in the summer and fall of 1993. This information was used as a basis to test the various deductions and options considered in developing the Rent Scale.

IMPACT OF THE NEW RENT SCALE

NEW RENT SCALE EFFECT ON HOUSEHOLD RENTS					
Number and Percentage of Households Whose Rents Will...					
Increase		Decrease		Unchange	
#	%	#	%	#	%
1,594	31.5	1,517	30.0	1,957	38.5

Based on 1,594 Households Whose Rents Will Increase			
Monthly Increase Range		Households Affected	
		Number	Percentage
Up to	\$ 100.00	327	20.5
Between	\$ 101.00 - \$ 250.00	336	21.1
Between	\$ 251.00 - \$ 500.00	423	26.5
Between	\$ 501.00 - \$1,000.00	369	23.2
Over	\$1,000.00	139	8.7
		1,594	100.0

APPENDIX B shows the impact on households by community.

IMPLEMENTATION PLAN FOR THE NEW RENT SCALE

1. Rent decreases will be implemented beginning April 1, 1995. Approximately 1500 households will experience rent decreases.
2. Rent increases will be phased in over four years to ensure tenants have time to plan and budget for the increases. Approximately 1590 households will experience a rent increase. The phase in schedule is:

<u>Annual Increase</u>	<u>Total Increase</u>
------------------------	-----------------------

April 1, 1995 - 30% of the increase

April 1, 1996 - 30% of the increase → 60% of total

April 1, 1997 - 30% of the increase → 90% of total

April 1, 1998 - 10% of the increase → 100% of total

3. Approximately 1950 households will experience no change in rents.
4. An aggressive information campaign will be launched to get information out to tenants on how the new Rent Scale works. This will be followed up by individual tenant counselling, to ensure that tenants have full information on all their options, and receive any assistance they need to prepare for the new rents.

Implementation of the Rent Scale, Cont'd.

5. Local Housing Organization (LHO) staff will calculate the new rents, and will advise District staff of those tenants who will experience significant increases. District and LHO staff will follow up with appropriate information, and counselling will be offered to explain each tenant's options. Tenants who want to pursue homeownership options will be assisted throughout the process.
6. In order to ensure a smooth implementation of the new Rent Scale, the Corporation will work closely with each LHO to provide training and administrative support to the local Board and administrative staff.

The Corporation will review and respond to the specific needs of each community with the LHO's Board and staff over the next several months. Where required, this will include the addition of temporary staff for the LHO.

STRATEGY TO MOVE HIGH INCOME TENANTS FROM SOCIAL (RENTAL) HOUSING TO HOMEOWNERSHIP

- Comments from the Consultation Process and Advisory Committee on Social Housing emphasized the need for families living in Social Housing units, with higher incomes, to move into homeownership, so that rental units are made available to low income families.
- There are several hundred families with higher incomes, above the Core Need Income Threshold (CNIT) living in Social Housing units. These tenants can afford the full cost of being homeowners and can obtain assistance from the Corporation under the Direct Lending, Interim Financing, Forgivable Loans, Sale of House Packages or Counselling Services Programs. These tenants could also get mortgages from banks to finance their own units.
- These tenants will be required, prior to April 1, 1997, to give up their rental units and move to other accommodation. More than two years is being given to allow these families to obtain (build) their own homes.
- Over the next four months these tenants will be counselled on housing options available to them. The Corporation will work with each family to develop specific plans on how they wish to meet their personal housing needs.

- If by September, 1995 these tenants fail to develop their plans and are not working on them, their rent will increase to the full amount (no further phase in) effective April 1, 1996.
- GNWT employees in Social Housing units, who do not choose homeownership, will be encouraged to move into staff housing, where available.
- The Corporation has programs to help higher income households get into homeownership.
- The Corporation has approached Canada Mortgage and Housing Corporation (CMHC) on numerous occasions to allow existing cost-shared rental units to be sold to tenants. So far the Federal Government has not approved this initiative. However, instead of an outright refusal, they are now indicating they may reconsider their position sometime in the future, as part of their overall review and restructuring of social housing programs in Canada. The Minister and the Corporation will continue to push for this.
- The Corporation continues to offer for sale, older Northern Rental units, to interested tenants.

APPENDIX A

PROCEDURE FOR RENT ASSESSMENT

To calculate the monthly rent charged to a family living in a rental unit, these steps should be followed:

1. Calculate the Total Assessable Income based on the gross income of each member of the household. (Table 1) The Basic Household Deduction is built into Table 1. No additional calculation is required.
2. Identify Basic Monthly Rent (Table 2)
3. Subtract from the Basic Monthly Rent:
 - a. Cost of Living Rent Deduction (Table 3)
 - b. Unit Condition Rent Adjustment (Table 4)
4. Record the Total Territorial Rent Assessed

Example		
Family	- 8 Members	
Community	- Tuktoyaktuk	
Unit	- 1985 4 Bedroom/Condition Rating 96% and has all basic facilities	
Total Assessable Income (Table 1)	\$3,210.00	
Basic Rent (Table 2)		\$ 899.00
Subtract:	Cost of Living Rent Reduction (Table 3)	(\$ 164.00)
	Unit Condition Rent Adjustment (Table 4)	(\$ 000.00)

Total Territorial Rent Assessed		\$ 735.00
		=====

RENT FOR SENIOR CITIZENS

Rent for Seniors will be 100% subsidized. Rent payments will be eliminated for all Senior Citizens (age 60 years and over) if the seniors are the sole occupants of a unit; or where the senior(s) occupy the unit with other household members, and these other members fall into one of the following three categories:

- 1) a non-senior spouse with no source of income; or
- 2) a disabled tenant with no source of income other than a disability pension; or
- 3) a dependent who is in full time attendance at school/educational establishment.

Where senior(s) occupy a unit with other household members who don't fall into the above three categories, the income of the other household members will be taken into consideration when calculating rent.

GROSS INCOME/ASSESSABLE INCOME

Table 1

Gross Income includes:

The total income before any deductions from all sources for all household members.

Assessable Income Includes:

The gross income of all household members except the following:

INCOME EXCLUDED
Income from any household member in full time attendance at school except any portion received from their regular full-time employer while on educational leave <i>* See Note 1</i>
Income (Traditional Income) earned by an independent operator (harvester) principally engaged in hunting, fishing or trapping for a livelihood
Training income from any household member, (such as training allowance, child (daycare) assistance, (also known as dependent care allowance) trainee travel allowance) except any portion received from a regular full-time employer while on education leave <i>* See Note 1</i>
Loans, grants and bursaries for education and business
Eligible deductions for self-employed earnings as per Revenue Canada
Vacation Travel Allowance provided by an employer which is used by the household for vacation expenses
Lump Sum Payments (insurance settlements, inheritance, disability awards, sale of effects, capital gains and legal settlements which are one time payments)
Social Assistance
All Senior Citizens' income
Canada/Quebec Pension Plans and Disability Benefits, including Workers' Compensation Disability benefits
Widows' and Orphans' Allowances and Survivor's Pensions
Foster Child Support
Treaty Payments/Land Claims Settlements
The value of alimony payment <i>made</i> by any member of the household
Child Tax Credit
GST Rebates
Income Tax Refund

*** NOTE 1:** The Corporation is working with the Department of Education, Culture and Employment to ensure that rents charged students living in social housing will be consistent with rents charged for student housing.
