L. INTRODUCTION

The Northwest Territories Legislative Assembly provides pension benefits to its elected members under the Legislative Assembly Retiring Allowances Act (RAA) and the Supplementary Retiring Allowances Act (SRAA). Section 21 of the RAA requires that a report on the administration of the Act be presented to the Management and Services Board each fiscal year.

While the SRAA has no provision requiring annual administrative reporting, it seems logical to report on both Acts.

This report summarizes the current active membership, inactive members and plan assets. An appendix to this report summarizes all of the positions held, past and present, of the current 24 members.

II. MEMBERSHIP INFORMATION

A. Overview

There are several categories of membership under the Act:

- Active members are the current elected Members of the Assembly;
- Deferred non-vested members are prior Members of the Assembly who left prior to completing six years of plan membership. If they return to the Assembly and complete their six years of membership then they will be eligible for their full pensions;
- Deferred vested members are prior Members who are entitled to a pension but have not commenced receiving it; and
- Pensioners are prior Members currently in receipt of a pension.

The table below is a reconciliation of the plan membership from April 1, 1993 to March 31, 1994.

B. Actives

During the fiscal year, one deferred vested member retired and one Member terminated and received a refund of his contributions to the Plan.

A number of Members are entitled to a deferred pension for positions (such as Minister or Chairperson) which they held in the past, but no longer hold. Appendix A summarizes these positions for each of the current Members.

A number of Members have held such positions for less than one year, in which case they are not vested in these positions. However, if they resume a position and complete, in aggregate, one year of service in the position, they will be entitled to a deferred pension. Therefore, Appendix A also tracks these non-vested positions.

C. Non-Vested Terminated Members (Deferred Non-Vested)

Information for Members who left the Assembly before completing six years of service and were not vested is recorded in case these Members return to the Assembly and recommence accruing a pension. Members who restart earning a pension must pay back to the Assembly any contributions that were refunded when they left with interest in order to be reinstated in their previous service.
