

INTERJURISDICTIONAL SURVEY

FROM: MARIE PEEK  
PROGRAM MANAGER  
NOVA SCOTIA BREAST SCREENING PROGRAM

TARGET POPULATION	=	26,412
70% TARGET POPULATION	=	18,500
TARGET PER YEAR	=	9,250
ACTUAL (NEW CLIENTS) 92/93	=	3,747 (40.5% OF TARGET)

FROM: CHERYL MOGG  
MANAGER, COMMUNICATION AND EDUCATION  
SASKATCHEWAN BREAST SCREENING PROGRAM

ATTACHED IS SOME INFO FROM OUR ANNUAL REPORT FOR 1992/93. TABLE III SHOWS ATTENDANCE FOR WOMEN 50-69 YEARS OF AGE. IT APPEARS TO ME THAT 62% OF WOMEN 50-69 WHO WERE INVITED ATTENDED FOR MAMMOS.

IN 1992-93, WE HAD COVERED ABOUT HALF THE ELIGIBLE WOMEN IN SASKATCHEWAN. FROM FEB-MAY NEXT YEAR (1995) WE WILL REACH OUR LAST 4100 WOMEN, THEN WE HAVE COMPLETE COVERAGE.

FROM: KATHY DAUPHINAIS, POLICY ANALYST  
PROFESSIONAL SERVICES BRANCH  
PRACTITIONER SERVICES DIVISION  
ALBERTA HEALTH

TARGET POPULATION OF WOMEN AGED 50-69 IN ALBERTA IS 183,000. THE TOTAL TARGET SCREENING MAMMOGRAMS PER YEAR IS 73,200 (BASED ON BIENNIAL SCREENING AND 80% OF THE SCREENING TARGET).

FOR THE YEAR ENDED MARCH 31, 1993, THE NUMBER OF WOMEN IN THE TARGET POPULATION (AGED 50 TO 69) WHO WERE SCREENED:

SCREEN TEST PROGRAM	15,820
ALBERTA HEALTH CARE INSURANCE PLAN	31,593
	-----
TOTAL	47,413

$\frac{47,413}{73,200} = 64.7\%$

FROM: SYLVIA SHEDDON  
ADMINISTRATOR  
ONTARIO BREAST SCREENING PROGRAM

AS A FOLLOW-UP TO OUR TELEPHONE CONVERSATION LAST WEEK, I WOULD LIKE TO CLARIFY THE INFORMATION THAT APPEARS IN TABLE 17 OF "CANADIAN CANCER STATISTICS 1993".

THIS TABLE STATES THAT THE ONTARIO BREAST SCREENING PROGRAM HAD 40,400 VISITS DURING 1992 AND THAT THE ANNUAL ONTARIO TARGET POPULATION IS 467,000. AS A RESULT, ONE CAN CONCLUDE THAT THE ONTARIO BREAST SCREENING PROGRAM SCREENED 8.7% OF ITS TARGET POPULATION IN 1992.

HOWEVER, IT SHOULD BE NOTED THAT ONTARIO BREAST SCREENING PROGRAMS (OBSP) ARE AVAILABLE IN ONLY 8 CITIES IN THE PROVINCE. IN ADDITION TO MAMMOGRAMS CARRIED OUT AT THE OBSP, THERE WERE APPROXIMATELY 245,000 MAMMOGRAMS CARRIED OUT IN THE PROVINCE FOR WOMEN AGED 50-69. IF ONE QUARTER OF THESE MAMMOGRAMS WERE FOR DIAGNOSTIC PURPOSES, ONE COULD ESTIMATE THAT 184,000 ONTARIO WOMEN RECEIVED SCREENING MAMMOGRAMS. THEREFORE, IN TOTAL, 224,400 WOMEN WERE SCREENED FOR BREAST CANCER IN 1992. GIVEN THE TARGET POPULATION OF 467,000, THIS REPRESENTS 48% OF THE TARGET POPULATION.

-----  
--  
FROM: DR. LINDA WARREN  
EXECUTIVE DIRECTOR  
SCREENING MAMMOGRAPHY PROGRAM OF BRITISH COLUMBIA

SCREENING PROGRAM STATISTICS

TARGET POPULATION	470,000
70% OF TARGET POPULATION	320,000
NUMBER OF SCREENS	89,400

% OF TARGET HAVING SCREENS WITHIN SCREENING PROGRAM ALONE = 27.8%

25-30% OF WOMEN ARE BEING SCREENED THROUGH THE SCREENING MAMMOGRAPHY PROGRAM OF B.C. WITH ADDITIONAL SCREENING BEING DONE OUTSIDE THE SCREENING PROGRAM BRINGING THE TOTAL TO AT LEAST 50-70% OF BC WOMEN AGED 40 AND UP WHO HAD MAMMOGRAPHIES IN THE FISCAL YEAR 1992/93.
