RE: Baker Lake Proposed Arts & Crafts Centre

Dear Mr. Pudlat,

In the 28th session of B.R.C. in Iqaluit, the subject that was mentioned from Sanikiluaq, Delegation, no other communities seems not concerned about it, what we are hearing is, if this proposal 2.2 million dollars Arts & Crafts Centre which will be completed by December 1991 in Baker Lake will hurt many carvers in the north. We are not finger pointing to any of the communities but we are really concerned if any of the fake carvings are starting to be produced by any of the communities in the north it will start hurting alot of people.

We all know that Japanese's fake carvings did really damage the arctic carving industries, we are asking you to pass the motion in your legislation that any kind of fake carvings should not be produced in the north, it will hurt Inuit artists.

Please let us know what you will do about it, as how it goes.

Sincerely,

Peter Kattuk
Mayor

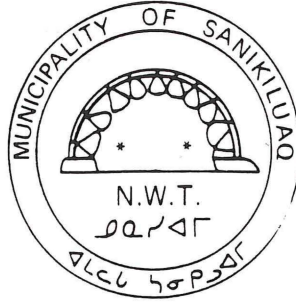

Lucassie Kittosuk
