Part 1.

FROM: Bruce PETERKIN / RANKIN/00

TO: Ed NORWICH / HEALTH/00

Part 2.

Greetings; the Request for Proposal for the Keewatin Region Health Services Plan will be closed on September 30, 1992 at 4:00pm.

We intended to review the Proposals with the Steering Committee at that time. We will keep you advised of the successful consultant.

As was discussed with Lynn White and yourself, you received the Department's copies of the Request for Proposal. Again, thank you your input to date.

We have received the first cheque installment of \$50,000. When will we be receiving the remaining \$80,000.

Your division has been very supportive to date regarding this project; we appreciate all the input and direction received from the Department of Health to date.

Ed, when do you think you or Lynn White, will be able to come to Rankin Inlet to meet with the Steering Committee and the consultant?

It was a very good idea to have Lynn White, Project Co-ordinator, Capital Planning Division, Wendy MacDonald, Senior Health Administration Consultant, Hospitals and Health Facilities and Carole Tetlow, Architect, DPW attending the Steering Committee and workshop for the development of the Request for Proposal for the Health Services Plan. Will all three of these individuals be remaining as members of the Steering Committee Resource Group representing the Department of Health? Our Board continues to support the high level of involvement to date by the Department of Health and your division.

Please reply as soon as possible (today). I require the information to update our Board Executive Committee at their Executive meeting this afternoon.

Thanks
