We the Inuit in Nunatsiak, especially in Keewatin are over
whelmed with the results that came out last Thursday in Iqaluit.
I am very sure that you as our MLA for Keewatin have the same
feeling as ourselves, therefore we are finally in the same boat.

John, I would like for you to announce this in the house for me, I
would have been much more happy to have done this myself, but as
you can see, we will be that much more bussier now, so I'm asking
you to do this for me, and the Inuit in Nunavut.

"The Inuit leaders have been negotiating this Land Claims for
almost 20 years, with the assistance from the leaders of the
Legislative Assembly. Last thursday, we finally came to the
reality of these negotiations. In years and weeks ahead, this means
that we have much more to do to make our wishes become reality,
therefore I know that we will have to work more closly together,
for the Inuit and our beloved children. I would like to say in
closing, thanks again for the great effort that your leaders put in
to make this happen."
