Re: C.B.C. Radio - Kitikmeot Region

Dear Mr. Ningark

As you know Kitikmeot Residence have voiced in the past requesting Canadian Broadcasting Corporation to station a CBC Radio in our region. We will continue to fight for this important issue. We Natilikmeot people have to voice our concern by radio to be heard by the people of the Territories and Nationally.

We appreciate CBC in Keweenaw and Baffin to help us voiced our concerns and community news. Its should be about time we have our own Natilikmeot CBC Radio. Not only Natilikmeot people does not know the phone number for CBC Keweenaw or Baffin it is also frustrating to try to get hold of CBC Radio in other regions.

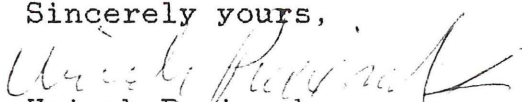

We need more news media coverage by CBC Radio on daily basis of what's go on in our communities to help us to be more productive of what we want and trying to do in Natilikmeot region.

As you can see our production growth in our region is very slow, we are behind other regions. We need High school of our own, and our economy does not meet the needs of our people, we are behind in lot of things that other regions have.

CBC Radio would help us to get our messages across to people in the Nunavut Territories and to the Government.

Once again we need your support and to stress important issue, we have to start pushing for our own regional CBC Radio.

Sincerely yours,

Uriash Puqignak
Mayor

cc. Craig Mackie, CBC
