COMPTROLLER GENERAL'S REPORT

The Honourable Michael A. Ballantyne,
Minister of Finance.

It is my pleasure to present the Interim Financial Report of the Government of the Northwest Territories, in accordance with subsection 51(3) of the Financial Administration Act. This report includes non-consolidated financial statements of the Government and detailed supporting schedules for revenue, expenditures, recoveries of prior years' expenditures, grants, contributions, interactivity transfers, special warrants, write-offs and recoveries, and student loan remissions.

Information contained in this Report will be presented in Volume II of the Public Accounts and may vary slightly in wording and presentation style from the Public Accounts. No material revision to the financial information contained herein is anticipated. This Interim Financial Report reflects the Government's operating results, on a non-consolidated basis, for the year ended March 31, 1990.

Under the Financial Administration Act, expenditures may not exceed amounts approved by the Legislative Assembly without the Government first obtaining proper approval. Although great care was taken to ensure this did not happen, certain activities were overspent.

I would like to take this opportunity to acknowledge the co-operation and assistance received from the Departments and Regions in the preparation of this Interim Financial Report. I would also like to extend my thanks to the staff of the Government Accounting Division of the Department of Finance for their support and assistance in the preparation of this Report.

Respectfully submitted,

J.F. Nelson, CMA, FCMA,
Comptroller General.

Further adjustments are made in accordance with escalation clauses in the agreement.

GOVERNMENT OF THE NORTHWEST TERRITORIES

Notes to Financial Statements
March 31, 1990

11. Accounts payable (continued)

As at March 31, 1990 the Government had contributed \$3,308,000 (1989 - \$790,000) more than was required to meet the Corporation's operating costs. In addition, \$15,768,000 (1989 - \$11,519,000) of capital contributions had not been spent by the Corporation and may be used to complete projects in progress at year end. Surplus operating and capital funds may be refunded, at the request of the Government, under terms of the financial agreement. During the year the Corporation repaid \$126,481 of accumulated operating surplus.

12. Pension Liability

The Government of the Northwest Territories sponsors a Supplementary Retiring Allowance which is a non-contributory defined benefit pension plan for members of its Legislature. The plan provides pensions based on length of service and final average earnings. It does not provide for inflation protection. The average age of the 22 members covered by the plan is 45. Also, there are 5 former members who are entitled to deferred pension benefits. However, at this time, none have elected to exercise their buy-back option.

At present, none of the eligible members are receiving benefits. No benefit payments have been provided in prior periods.

The Government contributes an amount required to meet all pension obligations arising from the plan. In 1990, total contributions for current and past service were \$1,834,000. A separate pension fund is maintained for the Supplementary Retiring Allowance Plan. Pension fund assets are invested in marketable investments of organizations external to the Government reporting entity.

The pension liability at March 31, 1990 includes the following components:

	(thousands of dollars)
Accrued benefit obligation	\$ 1,654
Unamortized estimation adjustment	<u>209</u>
Pension liability	<u>\$ 1,863</u>

The most recent actuarial valuation was prepared at March 31, 1990, using the projected benefit method pro-rated on service. The value of accrued pension benefits attributed to services rendered up to March 31, 1990 is \$4,601,000 of which \$3,737,000 relates to past service. Past service benefits are amortized over six years. The estimation adjustment is a net loss amortized on a straight line basis over the expected average remaining service life of the related member group (6 years).

The actuarial valuation was based on a number of assumptions about future events, such as salary increases, and member turnover and mortality. The assumptions used reflect the Government's best estimates of expected long-term rates and short-term forecasts.

17. Main Estimates

The Main Estimates comparative figures are from the Main Estimates tabled before the Legislative Assembly during the February 1989 session. These figures represent the Government's original fiscal plan for the year and consequently do not reflect changes arising from the tabling of Supplementary Estimates for the year.

The expenditure reserves included in the Main Estimates are not voted on by the Legislative Assembly as part of the Government's original fiscal plan. These reserves are to meet the funding necessary as the result of supplementary estimates.

The estimated appropriation authority lapse is not voted on by the Legislative Assembly. The amount represents an estimate of the appropriation voted by the Legislative Assembly that will not be expended during the year.

18. Legislative Assembly Retiring Allowances Fund

During the year the Government made contributions of \$594,656 (1989 - \$570,652) to this Fund which is independently administered by an insurance company. The contributions are intended to fund allowances and benefits earned by Members of the Legislative Assembly during their term of office. The Government is responsible for any actuarial deficiency in the Fund.

An actuarial valuation of the Fund as at April 1, 1990 indicated a surplus of \$1,217,000.

19. Commitments

Lease payments for office space and staff accommodation for which the Government is contractually committed are as follows:

Services provided included personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal and interpretation services. Direct costs of \$79,761,708 were incurred on behalf of the related parties and service fees of \$21,817 were charged for indirect costs.

22. Over-expenditures

As of March 31, 1990, the Government had overspent \$1,533,240 in operations and maintenance activities and \$12,522 in capital activities. This contravenes subsection 32(1) of the Financial Administration Act which states, "...no person shall incur any expenditure that causes the amount of the activity set out in the Estimates, upon which the appropriation is based, to be exceeded".
