Re: Supporting Business in Spence Bay

Dear John,

On April 17, 1990 I sent you a letter requesting your support on our project of purchasing Heavy Equipment for Spence Bay, so that we could get into the gravel hauling business. Almost six months later I am happy to report that the loans and contributions I requested have been approved. I have not received all the contribution money to date, however, it has been approved so I feel confident we will receive it.

I received contracts from D.P.W. and H. as well did some subcontracting from Universal Industries who are here working on upgrading the tank farm. I have not received all the revenue from the projects completed so I do not have a firm profit figure for you and I'm still working on several projects.

My wife and I are very pleased the way things went during our first year and financially this project has been successful. We would like to thank you for your support and for representing the Natilikmiot with dignity and honor.

We would also like you to thank Nellie Courneyea the Minister of D.P.W. and her staff as well Gordon Wray the Minister of Economic Development and his staff for all the hard work and commitment they have shown to our project. Since we are a new company with limited experience, we will require everyone's continued support for another year.

Once again John thank you for everything.

Yours truly,

Dennis Lyall
