John Kaunak,
Mayor,
Repulse Bay, NWT

Peter Ernerk,
MLA
Aivilik,

The priorities for the community of Repulse Bay is to:

First priority is to build a road to our gravel source . The second priority is the dock facilities and also the airstrip is too close to the community. Because the airstrip being too close to the community local children vandalize the lighting of the airstrip and is also misused by people on hondas utilizing it as a road.

And because it is situated at a very low ground, the rapid snow build up is a problem. We know of a good location to build an airstrip just before our water reservoir on a hill and is an ideal location and there would also be a road accessible to the resevoir. We will be considering this plan in our five-year capital planning.

Thank you.

John Kaunak
Mayor
Repulse Bay
