Dear Peter;

We have heard that Municipal Services salaries will probably be cut down making it enough for one worker per vehicle.

That used to be enough before the houses had sewage pumpouts, water delivery and garbage pick-up. Nowadays, we really can't comprehend if only one worker's wages will be funded for each water delivery, garbage pick-up and sewage pumpout when the number of houses have increased immensely. We very strongly object to funding cutback when the workload is increasing and also for safety reasons. We urge you to support us that a driver constantly should have another person working with him especially during very short winter days for safety reasons. Sometimes, theres been unfortunate situations where a person is killed by being run over by a vehicle on Municipal Services.

We request you to support us strongly on this to have two workers on each vehicle on Municipal Services.

Sincerely,

Raymond Ningeocheak  
Mayor of Coral Harbour
