Dear Steve:

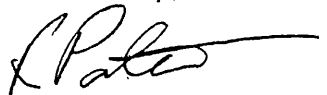

RE: GOVERNMENT STAFF HOUSING IN GJOA HAVEN

At a regular Council meeting held February 16, 1988, a concern was raised regarding lack of government staff housing in our community.

The Council feel that there must be more Government staff housing made available in order that Gjoa Haven may continue to grow and increase our economic base. Without increased government staff housing in Gjoa Haven, we will be unable to continue steady growth and the economy required to provide employment for our people.

There are approximately 7 government employees who are not in a government staff house, but are renting public housing units from Kikitak Housing Association.

We urge you to give Gjoa Haven top priority for increased housing.

Yours truly,

Ralph Porter
Mayor
