

February 20, 1991

TABLED DOCUMENT NO. 36-91-11 Tabled on MAR 06 1991

Mr. Charlie Crow, MLA
Hudson Bay

Dear Charlie:

I have been pressing the Federal Minister of the Environment to allow us to put forward a name that would sit with the Environmental Review Panel to deal with the Quebec Hydro Project. He has replied to me saying that a person should be able to speak French.

Ideally it should be an Inuk from Sanikiluaq who is able to speak French or someone you think is able to do a job. I am to put a name forward by Friday, February 22 so if you have any suggestions please let me know as soon as possible.

Hon. Titus Allooloo
Minister of Renewable Resources
