During the research done by our consultant on social aspects related to the Great Whale Complex, it appeared portinent to obtain some information related to the community of Sanikiluag. In order to complete our study, the community of Sanikiluag is asked to greet two persons from SOMER, our consultant for social aspects:

- -Mrs. Victoire Teleserenc
- -Mr. Pierre Lafontaine.

Their fields of interests are:

- To assess and map the community urban plan
- To establish a socio-economic profile of the community
- To gather information about the community's perception of the Great Whale project through mettings with the Council, others community officials, the FM radio, or any other suitable mean.

We have learned from Mr. Kittusuk that some kind of permit should be required from the Science Institute of NWT. We understand that such a permit is required for animal sampling, which is absolutely not the goal of this visit.

We thank you in advance for your collaboration.

Yours truly,

Gaetan Guertin
