Dear Mr. Morberg:

I was recently given a copy of the Calm Air schedule of service to the Keewatin region that is to become effective April 7, 1991. To quote my senior nursing staff, "it is a disaster".

Your schedule prohibits connections with the CAI flights from Churchill to Winnipeg on Monday, Wednesday and Friday, and with the NWT flights from Rankin Inlet to Winnipeg on Tuesday and Thursday. By so doing you have significantly increased the cost of southbound medical travel, and the travel time, inconvenience and discomfort of travelling Keewatin patients.

Your company's record of service to the Keewatin is certainly nothing from which you can derive much pride. Your proposed spring schedule is further evidence of your disregard for service.

Yours sincerely,

Frank P. Russell  
Executive Director
