## **COMPTROLLER GENERAL'S REPORT**

**THE HONOURABLE JOSEPH L. HANDLEY  
MINISTER OF FINANCE**

I am pleased to present the Interim Financial Report of the Government of the Northwest Territories for the year ended March 31, 2000. The report is submitted pursuant to subsection 51(3) of the Financial Administration Act.

The purpose of the report is to provide a preliminary report of the Government's operating results, on a non-consolidated basis, for the year ended March 31, 2000. The report includes the non-consolidated financial statements of the Government and supporting supplementary schedules.

The information in the report is unaudited and subject to change prior to the issue of the final Public Accounts. The non-consolidated financial statements are subject to audit review before the Auditor General issues the audit report on the Government's consolidated financial statements. The audit review is not complete at this time.

I acknowledge the co-operation and assistance provided by the Departments and Regions. I also extend my thanks to the staff of Government Accounting for their support and assistance in the preparation of the Interim Financial Report.

Respectfully submitted,

Lew Voytilla, F.C.G.A.  
Comptroller General

**SECTION II**  
**NON-CONSOLIDATED FINANCIAL STATEMENTS**

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2000

---

#### 1. AUTHORITY AND OPERATIONS

- (a) The Government of the Northwest Territories (the Government) operates under the authority of the *Northwest Territories Act* (Canada). The Government has an elected Legislative Assembly which authorizes all disbursements, advances, loans and investments unless specifically authorized by statute.
- (b) The Main Estimates are those tabled before the Legislative Assembly during the April 1999 session. They represent the Government's original fiscal plan for the year and do not reflect Supplementary Appropriations.
- (c) The estimated supplementary requirements and the estimated appropriation authority lapse are included in the Main Estimates on the statement of operations and surplus. They are included for the purpose of comparing the actual net revenue (expenditure) to the estimated net revenue (expenditure).

#### 2. SIGNIFICANT ACCOUNTING POLICIES

##### (a) Financial Statements

The Government complies with the recommendations of the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants wherever applicable, and in particular with respect to the preparation of consolidated financial statements. However, these financial statements have been prepared on a non-consolidated basis to show the operating results of the Government separate from the entities included in the consolidated financial statements.

The Government has also prepared consolidated financial statements. They are presented in Section I of the Public Accounts and provide an accounting of the full nature and extent of the financial affairs and resources for which the Government is responsible. The consolidated reporting entity is defined in those statements.

##### (b) Reporting Entity

These financial statements include the assets, liabilities and operating results of the Government and its revolving funds. Revolving funds are established by the Government to provide the required working capital to deliver goods and services to the general public and to Government departments.

The following related Government Crown Corporations and agencies are included in these statements only to the extent of the Government's contributions to them:

- Aurora College
- Divisional Educational Councils and District Education Authorities
- Hospitals and Health Boards
- Legislative Assembly Retiring Allowances Fund
- Territorial Court Judges' Registered Pension Plan
- Northwest Territories Business Credit Corporation
- Northwest Territories Development Corporation
- Northwest Territories Housing Corporation

Detailed financial information, on revolving funds and Crown Corporations, is included in Section III of the Public Accounts.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2000

---

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

##### (c) Measurement Uncertainty

The preparation of financial statements in accordance with stated accounting policies requires the Government to make estimates and assumptions that affect the amounts of assets, liabilities, revenues and expenditures reported in the financial statements. By their nature, these estimates are subject to measurement uncertainty. The effect on the financial statements of changes to such estimates and assumptions in future periods could be significant, although, at the time of preparation of these statements, the Government believes the estimates and assumptions to be reasonable. Some of the more significant management estimates based on past experience relate to employee termination benefits, contingencies, revenue accruals and Students Loan Fund allowances for both forgivable and bad loans. Past experience is not always the best indicator of current experience. Other estimates, such as Canada Health and Social Transfer payments, Corporate Income Tax revenue and Personal Income Tax revenue are based on estimates made by the Federal Department of Finance and are subject to adjustments in future years. Another significant estimate is the Grant from Canada, which incorporates best estimates as supplied by Statistics Canada and the Federal Department of Finance. Many of the statistical estimates are not finalized until three to seven years later.

##### (d) Short-Term Investments/Designated Cash and Investments

Investments are valued at the lower of cost or market value. Interest income is recorded on the accrual basis and dividend income is recognized when it is received or declared. Investment in securities denominated in foreign currencies are translated into Canadian dollars at the year end exchange rate. Foreign currency transactions during the year are translated into Canadian dollars at the exchange rate at the transaction date.

##### (e) Inventories

Inventories for resale consist of bulk fuel, liquor products and granular products. Bulk fuels and granular products are valued at the lower of weighted average cost and net realizable value. Liquor products are valued at replacement cost. Other inventories are valued at the lower of cost and replacement value.

##### (f) Loans Receivable

Loans receivable and advances are stated at the lower of cost and net recoverable value.

Valuation allowances, which are recorded to reduce loans receivable, are based on past events, current conditions and all circumstances known at the date of the preparation of the financial statements. Interest revenue is recognized when earned. Interest revenue is not accrued when the collectibility of either principal or interest is not reasonably assured.

##### (g) Investment in the Northwest Territories Power Corporation

The Government is a shareholder of the Northwest Territories Power Corporation, a Territorial Crown Corporation providing utility services to the Northwest Territories and Nunavut. The investment has been recorded at a nominal value. See also note 20.

##### (h) Capital Assets and Leases

Capital assets are charged to expenditures at the time of acquisition or construction and are reported in the statement of financial position at a nominal value of one dollar.

Lease payments under capital and operating leases are charged to operating and maintenance expenditures. No assets or long-term liabilities are recognized for capital leases.

10

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2000

---

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

(i) **Employee Leave and Termination Benefits**

Under the terms and conditions of employment, government employees may qualify and earn benefits for annual leave, retirement, severance and removal costs upon termination of employment. The estimated liability for these benefits is recorded as the benefits are earned by employees. Severance liabilities are also recorded when employees are identified for lay-off.

(j) **Commitments and Contingencies**

The nature of the Government's activities requires negotiation of contracts that are significant in relation to its current financial position or that will materially affect the level of future expenditures. Contractual commitments pertain to block funding agreements with municipalities, operating, commercial and residential leases, capital projects, and operational funding commitments.

The contingencies of the Government are potential liabilities which may become actual liabilities when one or more future events occur or fail to occur. If the future event is likely to occur or fail to occur, an estimated liability is accrued. If the likelihood is not determinable or the amount cannot be reasonably estimated, the contingency is disclosed. Contingent liabilities result from potential environment contingencies, pending or threatened litigation and like items.

(k) **Grant from Canada**

The Grant from Canada is subject to the terms of the Formula Financing Agreement with Canada. The Grant entitlement is dependent on a number of variables, including population growth, the growth of provincial-local government spending, tax revenues and other federal transfers.

The initial payments of the Grant are based on estimates of these variables, supplied by Statistics Canada, the Federal Department of Finance and the Government. Adjustments are made as final data becomes available which can take between three to seven years. These adjustments can be significant. Population figures are initially based on Statistics Canada's post-censal estimates, which are adjusted to census data every five years. All adjustments relating to both the current year and prior years occurring in the current year are reflected in the current year when known.

(l) **Projects on behalf of Canada, Nunavut and Others**

The Government undertakes projects on behalf Canada, Nunavut and others for which it receives accountable advances. Unexpended balances are recorded as current liabilities, and recoveries are accrued for expenditures in excess of advances.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2000

---

#### 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

##### (m) Taxes

Taxes, under the *Income Tax Act*, are collected by Canada on behalf of the Government under a tax collection agreement and are remitted to the Government monthly. The remittances are based on Revenue Canada's estimates for the taxation year, which are periodically adjusted until the income tax assessments for that year are final. Income tax revenue is recognized on an accrual basis.

Fuel, tobacco and payroll taxes are levied under the authority of the *Petroleum Products Tax Act*, the *Tobacco Tax Act* and the *Payroll Tax Act* respectively. Payroll taxes are received on a regular basis based on employer's self-assessments. Revenues are recognized on an accrual basis based on the statements received from collectors or employers. Adjustments from reassessments are recorded in revenue in the year they are identified. Property tax and school levies are assessed on a calendar year basis and are recognized on an accrual basis in the fiscal year in which the calendar year ends.

##### (n) Other Revenues

Licenses, fees and permits are recorded on a cash basis. All other revenues are recorded on an accrual basis.

##### (o) Operations, Maintenance and Capital Expenditures

Operations, maintenance and capital expenditures are recorded on an accrual basis. Government grants and contributions are recorded on an accrual basis as expenditures when paid or when the recipient has fulfilled the terms of the contractual agreement.

##### (p) Recoveries of Prior Years' Expenditures

Recoveries of prior years' expenditures and reversals of prior years' expenditure accruals are reported separately from other revenues on the statement of operations and surplus. Pursuant to the *Financial Administration Act*, these recoveries cannot be used to increase the amount appropriated for current year expenditures.

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2000

#### 3. CHANGE IN OPERATIONS

On April 1, 1999, the *Nunavut Act* came into effect. The consequential allocation of assets, liabilities and deficit to the two territorial Governments effective April 1, 1999, as approved by the respective representatives, is as follows:

#### Statement of Financial Position (unaudited)

as at April 1, 1999	Total	Nunavut	Northwest Territories
(thousands of dollars)			
<b>Assets</b>			
<b>Current</b>			
Cash and Short Term Investments	\$ 55,470	\$ -	\$ 55,470

<b>Accumulated Surplus</b>	38,193	16,935	21,258
	\$ 283,568	\$ 64,094	\$ 219,474

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

March 31, 2000

#### 3. CHANGE IN OPERATIONS (continued)

The April 1 opening balances allocated to the Government of the Northwest Territories, as detailed above, are presented in the Non-Consolidated Statement of Financial Position for comparative purposes.

The comparison of the current year results, after division, to the prior year results, before division, is not considered meaningful because of changes in various factors including fundamental differences between the Nunavut and the Northwest Territories in their: operations; business economies; and income generating opportunities. Additionally, it was not practical to segregate results before division between territorial operations. Consequently, the statements of operations, accumulated surplus and cash flow report on the results for the current year ended March 31, 2000 without any comparative figures.

#### 4. SHORT-TERM INVESTMENTS

Short-term investments represent a diversified portfolio of high grade, short-term income producing assets. The eligible classes of securities, categories of issuers, limits and terms are approved under the investment guidelines. All instruments, depending on the investment class, are rated R-2 High or better from the Dominion Bond Rating Service or A-3 or better from the Canadian Bond Rating Service.

#### 5. DUE FROM CANADA

	March 31, 2000	April 1, 1999
	(thousands of dollars)	
Grant Receivable		
Grant per Financing Agreement - Schedule A	\$ 522,108	\$ 911,577
Less payments received	(522,805)	996,311
	(697)	(84,734)
Balance receivable (payable) at beginning of year	31,683	116,417
	30,986	31,683
Other receivables:		
Indian and Inuit Hospital and Medical Care	26,108	8,388

#### 10. BANK OVERDRAFT

The bank overdraft balance of \$3,593 is comprised of:

	March 31, 2000	April 1, 1999
	(thousands of dollars)	
Cash in bank	\$ 5,374	\$ 2,709
Bank overdraft	-	(4,337)
Outstanding items	(8,967)	(31,345)
	<u>\$ (3,593)</u>	<u>\$ (32,973)</u>

The bank overdraft is a line of credit provided to the Government by the Chartered Banks. There are no fixed repayment terms and the overdraft limits are negotiated over the year based on the forecasted cash flows and borrowing requirements of the Government. The overdraft interest rate is at prime and the collateral is on the Consolidated Revenue Fund of the Government. Interest is charged on the net balance of the Government and its pool participants.

#### 11. SHORT-TERM LOANS

Short-term loans of \$79,361,000 (1999 - \$50,964,400 ) bear interest at varying rates between 5.04% to 5.89%. The short-term loans were repaid as of April 1, 2000. The borrowing limit under the *Borrowing Authorization Act* was \$175,000,000 as of March 31, 2000.

#### 12. ACCOUNTS PAYABLE AND ACCRUED LIABILITIES

	March 31, 2000	April 1, 1999
	(thousands of dollars)

#### 13. PENSIONS

##### (a) Pension Liabilities

	March 31, 2000	April 1, 1999
	(thousands of dollars)	
Legislative Assembly Supplementary Retiring Allowance	\$ 15,537	\$ 15,083
Judges' Supplemental Pension Plan	859	747
	<hr/> \$ 16,396	<hr/> \$ 15,830

The Government also maintains the Legislative Assembly Retiring Allowances Fund and the Territorial Court Judges' Registered Pension Plan. The two pension plans are fully funded, consequently the Government has no liabilities as at March 31, 2000 (1999 - nil). The funds related to the plans are administered by independent trust companies.

The Legislative Assembly Retiring Allowances Fund is a contributory defined benefit pension plan. The Legislative Assembly Supplementary Retiring Allowance, the Judge's Supplemental Pension Plan and the Judge's Registered Pension Plan are non-contributory defined benefit pension plans. Benefits provided under the plans are based on service and/or earnings. The Government is liable for all benefits.

Actuarial valuations were completed for the Legislative Assembly and Judges' plans as of March 31, 2000 and January 1, 1998 respectively, using the projected benefit method prorated on service. The valuation is based on a number of actuarial assumptions about matters such as mortality, service, withdrawal, earnings and interest rates. The assumptions are based on the Government's best estimates of expected long-term rates and short-term forecasts.

##### (b) Pension Expense

Pension expense for the Legislative Assembly Supplementary Retiring Allowance and Judges' Supplemental Pension Plan for the year totalled \$1,429,600.

##### (c) Public Service Superannuation Plan

The Government and its employees make contributions to the Public Service Superannuation Plan administered by Canada. The employer's contribution of \$9,772,000 represents the total obligation of the Government. The Government is not required under present legislation to make contributions with respect to actuarial deficiencies of the Public Service Superannuation Account.

Retirement	2,274	2,091
	19,118	17,970
Less: Current Portion	3,209	3,917
	<b>\$ 15,909</b>	<b>\$ 14,053</b>

---

#### 15. PETROLEUM PRODUCTS STABILIZATION FUND

The purpose of the Fund is to stabilize the prices of petroleum products purchased, sold and distributed by the Government. The net revenues or expenditures of the Petroleum Products Revolving Fund are charged to the Stabilization Fund. The accumulated surplus or deficit balance in the fund cannot exceed \$5,000,000.

On April 1, 1999 the Nunavut Act came into force creating the Nunavut Territory and consequently redefining the Petroleum Products Stabilization Fund to exclude all assets located in the geographic Nunavut Territory and assign a portion of the deficit at that date to Nunavut based on Division of Assets and Liabilities Agreement. The Petroleum Products Stabilization Fund was created under the authority of the Revolving Funds Act. The following reflect only the Government of the Northwest Territories portion of the Fund:

	March 31, 2000 (thousands of dollars)
Deficit at beginning of the year	\$ (2,783)
Less: Petroleum Products Revolving Fund - Net Expenditures	(1,356)
<b>Deficit at end of the year</b>	<b>\$ (4,139)</b>

Other	164	258
Territorial Court	164	196
Correctional Institutions	112	134
	<b>\$ 258,217</b>	<b>\$ 247,791</b>

---

The Workers' Compensation Board (Northwest Territories and Nunavut) has a fiscal year end of December 31. Its most recent financial statements and those of the Public Trustee are produced in Section III of the Public Accounts of the Government.

#### 17. COMMITMENTS

The Government has entered into agreements for, or is contractually committed to, the following expenditures payable subsequent to March 31, 2000:

	Expiry Date	2001	2002- 2025	Total
		( thousands of dollars)		
Operational Commitments	2005	\$ 31,934	\$ 34,390	\$ 66,324
Commercial and Residential Leases	2025	9,815	55,056	64,871
RCMP Policing Agreement	2001	18,374	18,374	36,748
Capital Commitments - Projects in Progress at March 31, 2000	2003	10,385	2,298	12,683
Equipment Leases	2006	1,192	1,342	2,534
Block Funding Agreements with Municipalities	2000	676	1,351	2,027
Western Harvesters' Assistance Program	2003	729	487	1,216
		<b>\$ 73,105</b>	<b>\$ 113,298</b>	<b>\$ 186,403</b>

---

---

---

March 31, 2000

---

#### 17. COMMITMENTS (continued)

##### Chargeback of Services

The Government has entered into 61 service agreements with the Government of Nunavut for the provision of various corporate and program delivery services worth an estimated total value of \$15,236,296 for the fiscal year 1999-2000.

#### 18. CONTINGENCIES

##### (a) Contingent Liabilities

The Government is contingently liable for the following:

	(thousands of dollars)
Debentures issued by the Northwest Territories Power Corporation, maturing from 2009 to 2026	\$ 129,198
Loans payable by the Northwest Territories Housing Corporation	28,700
Loans payable by the Northwest Territories Power Corporation	10,000
Guarantee of Operating Line of Credit	7,000
Uninsured losses	575

---

\$ 175,473

---

##### (b) Equal Pay Complaint

In March 1989, the Public Service Alliance of Canada, on behalf of the Union of Northern Workers, filed an equal pay complaint, against the Government, under the Canada Human Rights Act. Notwithstanding that the complaint is still before a Canadian Human Rights Tribunal, the Government accrued a \$27 million provision for an equal pay settlement as of March 1999. This is the Government's best estimate of the amount needed to settle the equal pay complaint. Additionally, in March 1999 the Government accrued a \$6 million provision for equal pay for non-unionized employees.

To date the Government has paid out \$27 Million of the amounts accrued. The balance will continue to be paid as eligible recipients are located and accept the Government's offer.

The amounts paid are based on legally binding agreements with individual employees and ex-employees. For those employees who have not accepted the Government's offer, the complaint remains outstanding. As such there exists a possibility that pay equity costs could exceed or be lower than the amount accrued. In the event there is an additional or lesser liability, the change will be charged to or recovered from operations in the year when it is determined.

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2000

---

#### 18. CONTINGENCIES (continued)

##### (c) Environmental Restoration Costs

As circumstances and funding have permitted, the Government has been addressing the problem of environmental liabilities. This process has consisted, in a number of departments, of identifying sites of potential liability, if necessary, for each site and, on an ongoing basis, remediating the site.

In the case of communities, 311 sites in, or in close proximity to communities, have been identified in the Northwest Territories where environmental liabilities may exist.

In the case of 84 of these sites, either an assessment has been done or, in a few cases, the site has been sold to the private sector who will be responsible for any environmental remediation. In the case of sites that have been assessed studies are ongoing or remediation plans are in place. In the case of 49 of these sites they have been completely remediated.

In addition there are 140 Resources, Wildlife and Economic Development fuel caches in the Northwest Territories outside of communities. Many of these caches, because of their remoteness and the small number of drums involved (with the potential for only limited local contamination), have not yet been formally inspected. However, 24 of these sites have been, or shortly will be inspected, and in the case of 14 sites plans are in place to remove the drums and restore the site to its original condition.

The Government will continue with its program of site inspection, assessment and remediation on an ongoing basis.

##### (d) Canadian Blood Agency / Canadian Blood Services

The Government of the Northwest Territories is a party, along with the Federal Government, the provinces and territories, to agreements with the Canadian Blood Agency and Canadian Blood Services for access to the national blood supply. Our exposure to any liability under these agreements is limited to our percentage of the Canadian population. An estimate of any potential liability cannot be determined.

#### 19. RELATED PARTIES

Transactions with related parties and balances at year-end, not disclosed elsewhere in the financial statements, are disclosed in this note. During the year the Government made grants and contributions to or funded other costs for the following related parties.

	2000 (thousands of dollars)
Hospitals and Regional Health Boards	\$ 110,932
Divisional Education Councils and District Education Authorities	80,859
Northwest Territories Housing Corporation	46,744
Aurora College	20,067
Northwest Territories Development Corporation	2,700
Northwest Territories Business Credit Corporation	78
	<hr/>
	\$ 261,380

---

---

## Government of the Northwest Territories

### Notes to Non-Consolidated Financial Statements (unaudited)

---

March 31, 2000

---

#### 19. RELATED PARTIES (continued)

The Government funds communities, boards and agencies, offering services to the public, which operate independently of normal Government operations. The Government may be responsible for any liabilities or deficits on behalf of these boards and agencies. Estimates of these potential liabilities cannot be determined.

Under agreements with related boards and agencies, the Government provides services at cost or for a service fee where direct costs cannot be determined. The fees charged for indirect costs are not necessarily the cost of providing those services. Services provided included personnel, payroll, financial, procurement, accommodation, buildings and works, utilities, legal and interpretation services.

The Government of the Northwest Territories receives dividend revenue in return for its investment in the Northwest Territories Power Corporation. Dividend revenue for the current year is \$4,359,000.

#### 20. SUBSEQUENT EVENT

##### (a) Northwest Territories Power Corporation

The Government and the Government of Nunavut entered into a transition agreement on March 29, 1999 that governs the operation of the NWT Power Corporation through March 31, 2001. The transition agreement details the process to be followed to divide the assets and liabilities of the Power Corporation should the ultimate decision be to divide the Power Corporation. It also governs the split of any dividends declared during the period that the transition agreement is in force.

Subsequent to division of the Northwest Territories the Government of Nunavut decided that it would operate its own Power Corporation. As such, the assets and liabilities will have to be divided between the Government and the Government of Nunavut at March 31, 2001. The method by which this will take place is consistent with the provisions contained in the Agreement on the Division of Assets and Liabilities between the Government and the Office of the Interim Commissioner. The only exception is that the equity after the removal of capital and related debt of the Power Corporation will be apportioned using the east/west ratio of its Revenue Requirement as at March 31, 1999 rather than the Historical Expenditure Ratio as calculated by the Northern Representatives Committee. An inter-governmental committee including representatives of the NWT Power Corporation has been formed that will work towards the ultimate division of the Power Corporation at March 31, 2001.

#### 21. OVEREXPENDITURES

Five departments exceeded the amounts appropriated to them for operations and maintenance activities. This contravenes the *Financial Administration Act, (FAA)* section 32, which states..."No person shall incur an expenditure that causes the amount of the item set out in the Estimates on which the appropriation is based to be exceeded".

Department of Health and Social Services	\$2,966,000
Department of Justice	528,000
Department of Resources, Wildlife and Economic Development	483,000
Legislative Assembly	207,000

**GLOSSARY**

---

---

---

## **Assets**

Assets are the resources controlled by the Government.

## **Commitments**

Commitments are contractual obligations of the Government that will result in expenditures in future years. No amount is reported as a liability because there is no legal obligation to pay until the goods or services are provided.

Details of all commitments are listed in the Notes to the Financial Statements.

## **Contingencies**

Contingencies are existing conditions or situations involving uncertainty as to a possible gain or loss to the Government.

Regardless on whether the contingency is a gain or loss, if it cannot be reasonably estimated an amount is not reported in the financial statements. However, a disclosure of the contingency is required in the Notes to the Financial Statements.

A loss contingency should be accrued as a liability if the condition or situation is likely to occur and an amount can be reasonably estimated.

## **Current Assets**

Current assets are reasonably expected to be realized in cash, or to be sold or consumed during the Government's normal operating cycle (April 1 to March 31). Examples of current assets, in addition to cash, are, short-term investments, accounts receivable, inventories and prepaid expenses.

## **Current Liabilities**

Current liabilities are short-term liabilities that are expected to be paid with current assets. Examples of current liabilities are, bank overdrafts, short-term loans, accounts payable, accrued liabilities and the current portion of any long-term debt (ie. that portion of the long-term debt due within a year).

## **Deferred Revenue**

Revenue intended for use in future fiscal periods but received during the current fiscal period. In accordance with accepted accounting principles, the revenue is not recognized on the Statement of Operations and Surplus for the current fiscal year and consequently is a liability of the Government.

## **Liabilities**

Liabilities are the obligations of the Government. It is important to note that liabilities do not have to be legally enforceable and can be based on equitable or constructive obligations. An equitable obligation is based on ethical or moral considerations. A constructive obligation is based on facts from a particular situation as opposed to a contractual obligation.

### **Statement of Cash Flows**

This statement shows how operations have been financed and financial resources used. The statement reports changes in cash and cash equivalents resulting from the operating, investing and financing activities of the Government during the fiscal period. Cash and cash equivalents is comprised of cash and short-term investments less short-term borrowings.

Operating activities refers to the cash inflows and cash outflows directly related to the Statement of Operations and Surplus.

Investing activities refers to the cash inflows and outflows that are related to the use of cash for activities that are not operating activities. Cash outflows represent an investment of cash by the Government to acquire noncash assets (eg. loan advances). Cash inflows occur when cash is received back for these prior investments (eg. loan repayments).

Financing activities refers to the cash inflows and cash outflows that related to how cash was obtained to finance the Government. An example of a cash inflow would be new loans advanced to the Government. Repayment of the loan would be a cash outflow.

### **Statement of Financial Position**

This statement is a reflection of the basic accounting model:  $Assets = Liabilities + Equity$  or in the Government's case, the accumulated surplus or deficit. The statement provides economic information about the Government's resources (Assets) and claims against those resources (Liabilities). The accumulated surplus or deficit is the excess between the Assets and Liabilities. When the Liabilities are more than Assets, the Government is in a deficit position.

### **Statement of Operations and Surplus**

This statement provides a summary of revenue, expenditures and net operating results of the Government for the fiscal period. The statement also shows the changes in the Government's surplus position as a result of the operations for the year.
