Members of the Legislative Assembly
Government of the Northwest Territories
P.O. Box 1320
Yellowknife, N.W.T.
X1A 2L9

27 March 1996

Dear Members,

WCB is a no-fault insurance program funded by employers in which the money is held in trust for injured workers and families.

As the principal stakeholders of the Northwest Territories Workers Compensation Board the undersigned are on record as being totally opposed to the process of the proposed transfer of the GNWT Department of Occupational Health and Safety to the Workers Compensation Board and demand that it be stopped immediately. A thorough public review, seeking input from the stakeholders, combined with an in-depth actuarial review are essential to the implementation of such a significant change in the WCB mandate.

Regards,

Jim Evoy
President
NWT Federation of Labour
