Madame:

My name is Sunny Ashcroft, and I am a student in grade 10 at Diamond Jenness Secondary School. Recently I have read in the local paper, The Hub (Tuesday, May 13, 1997 issue), of certain cuts pertaining to my school. The Hub reports that a total of six teaching positions will be cut from Diamond Jenness. Six teachers that are indefinitely needed to keep the level of education that Diamond Jenness is currently offering. I am deeply concerned that the loss of these positions, combined with the funding cuts already taking place--and those in the future that will take place, will seriously lower the level of education offered by the school system.

I am asking you as a representative of my constituency to take action and voice my concerns in the Legislative Assembly. I would like to see the government take a serious look at what it is about to do--my future is at stake.

Sincerely,

Sunny Ashcroft
