INTRODUCTION

This is the second of a series of terminology booklets published by Legal Interpreting, Justice, GNWT. This booklet contains translations of legal terms.

The translations in this booklet have not yet been verified by a committee.

Funding for terminology workshops and the publication of this booklet was provided under the Canada-NWT Languages Agreement.

The original artwork on the cover is by Dolphus Cadieux.

RULES FOR TERMINOLOGY DEVELOPMENT

1. Choose a recorder to write the translations and hand in to facilitator at end of workshop for entry into computer.
2. For the recorder: print the translations clearly, because the data-entry person needs to be able to read it to enter it in the computer.
3. Make sure you understand the English meaning before translating the term. Check the dictionaries provided or ask the lawyer.
4. Paraphrase the English term before starting to translate.
5. Use the translation in a sentence in your language to make sure that it will work when interpreting in court.
6. Try to make the translation as brief as possible keeping in mind that it will be used when interpreting in court.
7. Make sure that everyone in the group agrees on the translation before going on to the next term. The quality, not quantity, of the translations your group comes up with is what is most important.
8. Do not give back (literal) translations. The proofreader will do this.
