

**PUBLIC COMMITTEES,
BOARDS AND COUNCILS
HANDBOOK**

INTRODUCTION

This Handbook provides information on the membership of public committees, boards and councils in the Northwest Territories, as appointed in whole or in part by the Legislative Assembly, the Executive Council, a Minister or the Commissioner, and is meant as an accessible directory of these boards.

The Handbook also provides information on some committees, boards and councils established by authorities other than the Government of the Northwest Territories (GNWT), to which the GNWT either nominates members or delegates specific responsibilities.

The Handbook is published periodically by the Cabinet Secretariat, Department of Executive, Government of the Northwest Territories. The current revision was compiled in January 2003, using information solicited from Government departments and, in some cases, from the boards themselves.

Though accurate at the time of revision, board membership changes constantly as terms expire, members resign and vacant positions are filled. Inquiries concerning latest board membership should be directed to the information contact given for each board.

The authority under which each agency acts varies, and is specified for each listing, along with a description of its function, what category it is in, who appoints members, and who the agency reports to.

The following information pertains to boards over which the Government of the Northwest Territories has jurisdiction.

The categories into which a board may fall are:

- advisory,
- regulatory or complex, or
- complex regulated commercial.

All boards fall into the "advisory" category unless they have been otherwise classified by the Executive Council. Classification as other than "advisory" depends upon several factors. They are:

- complexities of judgment are present requiring special qualifications or technical expertise;
- decisions are made with limited precedent; and
- consequences of decisions are large in dollars, resources or human terms

Honorariums are paid to members based on classification.

All GNWT public boards are subject to the provisions contained in the *Financial Administration Act* and the Government of the Northwest Territories Financial Administration Manual.
